Introduction

This Basics Guide introduces you to Sprint® service and all the features of your new device. It’s divided into three sections:

- **Section 1**: Using Your Device
- **Section 2**: Sprint Service Features
- **Section 3**: Safety and Warranty Information

**WARNING** Please refer to the Important Safety Information section on page 108 to learn about information that will help you safely use your phone. Failure to read and follow the Important Safety Information in this phone guide may result in serious bodily injury, death, or property damage.

Your Device’s Menu

The following table outlines your device's main menu structure. From the Home screen, press menu to open the menu.

Section 1

Your Device
1A. Device Basics

- Your Device (page 2)
- Viewing the Display Screen (page 4)
- Displaying Your Phone Number (page 9)
- Making and Answering Calls (page 9)
- Entering Text (page 13)
- Home Screen (page 16)

Tip

Device Software Upgrades – Updates to your device’s software may become available from time to time. Sprint will automatically upload critical updates to your device. You can also check for and download updates by pressing 🏛️ > 📲, and then tapping Settings > About phone > System updates > Firmware update to search for and download available updates.

Your Device

Key Functions

1. Front Indicator Light (LED) shows your device’s connection status at a glance.
2. **Earpiece** lets you hear the caller and automated prompts.

3. **Volume Button** allows you to adjust the ringer or media volume or adjust the voice volume during a call.

4. **Display Screen** displays all the information needed to operate your device, such as the call status, the People list, the date and time, and the signal and battery strength.

5. **MENU Key** allows you to open a list of actions that you can do on the current screen.

6. **CALL Key** allows you to place or receive calls, answer Call Waiting, use 3-Way Calling, or activate Automatic Speech Recognition (ASR).

7. **HOME Key** takes you back to the Home screen. When in standby mode, press and hold to open the recently-used applications window.

8. **Microphone** allows other callers to hear you clearly when you are speaking to them.

9. **Charger/Accessory Jack** allows you to connect the device charger or an optional USB cable (included). CAUTION! Inserting an accessory into the incorrect jack may damage the device.

10. **BACK Key** allows you to go back to the previous screen, or close a dialog box, options menu, the Notifications panel, or onscreen keyboard.

11. **END/POWER Key** lets you turn the device on or off, end a call, or turn on/off the screen. While in standby mode, press and hold to open a menu to let you turn on/off the device, turn on/off your mobile network connection, or switch your device to silent mode, vibration mode, or airplane mode.

12. **SEARCH Key** allows you to search information on the current screen or application. For example, while in People, press to search for a contact in the device.

13. **Trackball** allows you to select or highlight items on the screen. The trackball also flashes when you receive an incoming call.
14. **3.5 mm Headset Jack** allows you to plug in either a stereo headset or an optional headset for convenient, hands-free conversations. CAUTION! Inserting an accessory into the incorrect jack may damage the device.

15. **Camera Lens** as part of the built-in camera, lets you take pictures and videos.

16. **Speaker** lets you hear the different ringers and sounds. The speaker also lets you hear the caller’s voice in speakerphone mode.

### Viewing the Display Screen

Your device’s display screen provides information about notifications and your device’s status. This list identifies the symbols you’ll see on your device’s display screen:

<table>
<thead>
<tr>

</table>
Notifications Panel

Notification icons report the arrival of new messages, calendar events, alarms being set and ongoing settings such as call forwarding being on or the current call status. You can open the Notifications panel to access message, reminder, or event notification tabs.

To open the Notifications panel:

When a new notification icon displays in the status bar, press and hold the status bar, and then slide your finger downward to open the Notifications panel.

If you have several notifications, you can scroll down the screen to view more notifications.

Tip

You can also open the Notifications panel from the Home screen by pressing [menu] and then tapping Notifications.

To close the Notifications panel:

- Press and hold the bottom bar of the Notifications panel, and then slide your finger up the screen.
  – or –
  Press [ ].

Notification LED

The Notification LED located at the right corner of the earpiece provides information on the device status or pending notifications.

LED Status | Indication
--- | ---
Solid green | Battery is fully charged. (When the device is connected to the AC adapter/computer.)
8 1A. Device Basics

### Turning Off the Screen When Not in Use

To save battery power, the device automatically turns off the screen when you leave it idle after a certain period of time. You will still be able to receive messages and calls while the device’s screen is off.

- **Solid amber**: Battery is charging.
- **Flashing amber**: Battery is low. (Battery power is below 14%).
- **Flashing green**: You have a pending notification. (For example, new message or missed call.)

The indicators are listed in order of priority. For example, if your device is connected to a power adapter and is charging the battery, the LED will be solid amber and will not switch to a flashing green light even if there is a pending notification.

### To unlock the screen:

Press and hold the lock screen bar and then slide your finger down to unlock the screen or answer an incoming call.

### Tip

You can also press menu while on the lock screen to unlock the screen.

### Note

If you have set up a screen unlock pattern, you will be prompted to draw the pattern on the screen before it unlocks.

You can also turn off the screen by pressing . Pressing again or incoming calls will turn on your device screen and show the lock screen.

For information on how to adjust the time before the screen turns off, see “Display Settings” on page 23.
Displaying Your Phone Number

Press \( \text{Home} \) > \( \text{Menu} \) and tap \textit{Settings} > \textit{About phone} > \textit{Status}. (Your phone number and other information about your device and account will be displayed.)

Making and Answering Calls

Making Calls

There are several convenient methods to make a call from your device.

Calling using the Dialer

In Dialer, you can either dial a number directly, or you can use the \textit{Smart Dial} feature to search and call a contact in People or a number from Call History.

When you enter the first letter of the name or number of a contact, Smart Dial searches for contact phone numbers and the first character of a contact name as well as from the character that appears after a space, dash, or underscore in a contact name. As you enter more letters or numbers, the list shows only the corresponding matches.

1. Press \( \text{Home} \).
   - or –
   Press \( \text{Home} \) and tap \( \text{Phone} \).

2. Begin entering the first few digits or characters by tapping the keys on the Phone keypad. As you enter digits or letters, the Smart Dial panel displays matches found. If you enter a wrong digit, tap \( \text{Del} \) to erase that digit. To erase the entire number, press and hold \( \text{Del} \).

3. Tap \( \text{Del} \) to close the phone keypad and to see if there are more matching numbers or contacts. To browse through the filtered list, flick through the list or slide your finger up or down the list slowly.

4. Tap the phone number or contact from the list.
   - or –
   To call a different phone number associated with the contact, tap the contact card icon at the right side of the contact name. On the contact details screen, tap the number you want to call.
**Answering Calls**

When you receive a phone call from a contact, the Incoming call screen appears and displays the caller ID icon, name, and phone number of the calling party. When you receive a phone call from someone who is not stored in People, only the default caller ID icon and phone number appear on the Incoming call screen.

**Note** Make sure your device is on. (If your device is off, incoming calls go to voicemail.)

**Answering an incoming call**

- Tap **Answer** or press ( ).

**Rejecting an incoming call**

- Tap **Decline** or press ( ) to reject and send the call to your voice mail.

**Muting the ringing sound**

To mute the ring without rejecting the call, press the volume button down.

---

**Rejecting a call and sending a text message**

You can automatically send a default text message to the caller and reject the incoming voice call. Press menu and tap **Send message** when you have an incoming call to send the text message.

You can change the default text message by pressing menu and tapping **Phone settings > Call reject message** while on the Phone screen.

**Answering a Roam Call With Call Guard Enabled**

Call Guard is an option that helps you manage your roaming charges when making or receiving calls while outside the Nationwide Sprint Network. Please see “Roaming” on page 76 for more information about roaming.

- Tap **Answer** to answer the call. (See “Call Guard” on page 77 for additional information.)

**Note** When your device is off, calls go directly to voicemail.
Ending a Call

- Press  
- or –  
- Tap End call.

**Missed Call Notification**

When you do not answer an incoming call, you will see the missed call icon  in the status bar when you miss a call.

To check who the caller was, press and hold the status bar, and then slide your finger downward on the screen to open the Notifications panel. The missed call number or contact name is displayed.

Press  >  , and then tap Call history. Missed calls are indicated by the missed call icon (  ).

**Calling Emergency Numbers**

You can place calls to 911 (dial 9 1 1 1 ), even if your device is locked or your account is restricted.

To call the 911 emergency number:

1. Tap Emergency call on the screen.
2. Tap  , and then tap Call.

**Enhanced 911 (E911) Information**

This device features an embedded Global Positioning System (GPS) chip necessary for utilizing E911 emergency location services where available.

When you place an emergency 911 call, the GPS feature of your device seeks information to calculate your approximate location. Depending on several variables, including availability and access to satellite signals, it may take up to 30 seconds or more to determine and report your approximate location.

**Important**

Always report your location to the 911 operator when placing an emergency call. Some designated emergency call takers, known as Public Safety Answering Points (PSAPs) may not be equipped to receive GPS location information from your device.
Saving a Phone Number

Store contacts entries in your device. Your device automatically sorts People entries alphabetically. (For more information, see “About People” on page 31.)

To save a number from standby mode:

1. Press \( \text{ } \).
2. Enter the phone number by tapping the keys on the keypad.
3. Tap \( \text{Save to People}. \) (This button appears after tapping six digits.)
4. Tap \( \text{Create new contact} \) or \( \text{Save to existing contact}. \)
5. Use the keyboard to enter the new contact name and tap \( \text{Save} \) to save the new entry.
   – or –
   Tap an existing contact name and tap \( \text{Save} \) to save the new number.

Finding a Phone Number

You can search People for entries by name.

1. Press \( \text{ } \), tap \( \text{People}, \) and then press \( \text{ } \).
2. Enter the first letter or letters of an entry. (The more letters you enter, the more specific the search.)
3. Tap the contact to display his/her contact information.

Dialing From the People List

1. Press \( \text{ } \) and tap \( \text{People}. \)
2. Tap the entry you want to call.
3. Tap \( \text{Call [Type of Number]} \) (For example, \( \text{Call Mobile}. \))

Speed Dialing

You can store up to nine numbers in your device's speed dial memory.

Press and hold the appropriate key for approximately two seconds. The display confirms that you have dialed the number when it shows “Dialing” at the upper-right side of the screen.

Note

Speed dialing is not available when you are roaming; when you are roaming off the Nationwide Sprint Network, you must always dial using eleven digits (1 + area code + number).
**Entering Text**

**Using the Onscreen Keyboard**

When you start a program or select a box that requires text or numbers, the onscreen keyboard becomes available. You can choose from three keyboard layouts: **QWERTY**, **Compact QWERTY**, and **Phone keypad**.

**Using the landscape onscreen keyboard**

When entering text, you can choose to use the landscape orientation of the onscreen keyboard, by turning the device sideways, to use a larger keyboard that lets you type easily using two thumbs.

---

**Note**

The Orientation check box in **Settings > Sound & display** needs to be selected for the screen orientation to automatically change.

The landscape orientation keyboard is not supported in all applications.

**QWERTY**

QWERTY is a keyboard layout similar to a desktop computer keyboard.

![Image of QWERTY keyboard layout]
1. Tap the keys to enter letters or symbols. Press and hold a key to enter accented letters, numbers, or symbols.

2. Tap to enter an uppercase letter. Tap twice to turn on Caps Lock.

3. Tap to hide the keyboard.

4. Tap to open a menu where you can change the keyboard layout and open the Touch Input Settings. (See Home Screen for details.)

5. Tap to switch to the numeric and symbol keyboard. (See Entering Numbers and Symbols for details.)

6. Tap to create a new line.

7. Tap to delete the previous character.

8. Displays the word candidate list when word prediction is turned on. Tap a word to insert it into your text. Tap ▼ to see more candidate words.

To enter text using QWERTY:

1. From a program that accepts text input, tap ☻ > Keyboard types > QWERTY.

2. Start tapping keys on the onscreen keyboard as you would on a computer keyboard to enter your text.

Phone Keypad

Phone Keypad is a 12-key onscreen keypad that has a layout similar to wireless phone keypads, plus some additional keys. The Phone Keypad has large keys and enhanced input features such as T9 predictive input, which makes it faster for you to enter text in your messages and documents.
1. Tap the keys to enter letters or symbols. Press and hold a key to enter accented letters, numbers, or symbols.

2. *indicates you are in Multitap mode. Tap to change to Predictive mode.

   * indicates you are in Predictive mode. Tap to change to Multitap mode.

3. Tap to enter an uppercase letter. Tap twice to turn on Caps Lock.

4. Tap to hide the keyboard.

5. Tap to open a menu where you can change the keyboard layout and open the Touch Input Settings. (See Home Screen for details.)

6. Tap to switch to the numeric and symbol keyboard. (See Entering Numbers and Symbols for details.)

7. Tap to create a new line.

8. Tap to delete the previous character.

9. Displays the word candidate list when word prediction is turned on. Tap a word to insert it into your text. Tap  to see more candidate words.

**To enter text using Phone Keypad:**

1. From a program that accepts text input, tap  > Keyboard types > Phone Keypad.

2. Start tapping keys on the onscreen keyboard to enter your text. When in Multitap mode (*), enter a character by tapping a key until the character you want is displayed on the screen.

   - To enter the first letter that shows on a key, tap the key once. To enter the second letter, tap twice, and so on.

   - To enter a punctuation mark, symbol, or number that appears at the top of a key, tap and hold the key.
**Entering Numbers and Symbols**

Switch to the numeric and symbol onscreen keyboard to let you easily enter numbers and common symbols such as parentheses, braces, currency signs, punctuation marks, special characters, and more.

To switch to the numeric and symbol onscreen keyboard, tap ![12#](image) on the alphanumeric keyboard.

**Home Screen**

The Home screen is the starting point for many applications and functions, and it allows you to add items like application icons, shortcuts, folders, and HTC or Google widgets to give you instant access to information and applications.

1. **Status Bar**: Displays device status and notification icons. See Viewing the Display Screen for a list of icons you will see on the status bar.
2. **Application icon**: Tap to open the related application.

**Tip**: Tap ![ABC](image) to switch back to the alphanumeric keyboard.
3. **All programs**: Tap to open the All programs screen. The All programs screen holds all applications on your device.

4. **Add to Home**: Tap to add shortcuts, widgets, and folders on the Home screen.

5. **Phone**: Tap to open the Phone screen to make calls.

**Tip**  
While in any application, press 🔁 to go back to the Home screen.

---

**Extended Home Screen**

The Home screen extends beyond the screen width to provide more space for adding icons, widgets, and more. Press  🔁, and then slide your finger horizontally across the screen to go to the left or right side of the extended Home screen. There are six “additional” screens apart from the main Home screen.

**Note**  
You cannot add more screens.

**Tip**  
While on an extended Home screen, press 🔁 to return to the main Home screen.
Customizing the Home Screen

To add a Home screen item:

1. Press \( \text{Home} \) and tap \( \text{Add} \).

   \[\text{Note}\] You can also press and hold an empty area on the Home screen.

2. In the Add to Home options menu, tap the item you want to add to the Home screen:

   - **Shortcut**: Add shortcuts such as applications, a bookmarked Web page, a favorite contact, a Gmail™ label, a music playlist, and more. To quickly add an application shortcut that is on the All programs screen to the Home screen, press and hold an application icon. When the device vibrates, drag the icon on an empty area on the Home screen, and then release it.

   - **HTC widget**: Add HTC widgets to the Home screen such as a clock, calendar, mail, people, Footprints, and more.

   - **Android™ widget**: Add Android widgets to the Home screen such as a clock, music player, a picture frame, the Google™ search bar, or a calendar that shows upcoming appointments.

   - **Folder**: Add a folder where you can organize Home screen items. Add a shortcut to all your contacts, contacts with phone numbers, or starred contacts. Contact details are automatically updated when there are changes in the source.

Your default Home screen looks like this:

Customize your Home screen by adding application shortcuts and widgets. You can also use preset widgets from a Scene. To use a Scene, press \( \text{Home} > \text{menu} \) and tap Scenes.

   \[\text{Tip}\] You can also create and save your custom scene. (See Creating and Saving a Custom Scene for details.)
To add an HTC widget:

1. Press \( \text{ } \) and tap \( + \).
2. In the Add to Home options menu, tap HTC widget.
3. Select a widget to add to the Home screen and then select a layout to use.
4. Tap Select.

Note: Most HTC widgets offer various layouts and sizes to fit your needs.

To add an Android widget:

1. Press \( \text{ } \) and tap \( + \).
2. In the Add to Home options menu, tap Android widget.
3. Tap a widget to add to the Home screen.

Note: You may need to slide to another screen or remove a widget on the Home screen first if there is no space to place the new widget.

To reposition a Home screen item:

1. Press and hold the item on the Home screen you want to reposition to activate Edit mode.

Note: When Edit mode is activated, the item expands and the device vibrates.

2. Without lifting your finger, drag the icon to the position you want on the screen, and then release it.

Note: To move an item from the Home screen to an extended Home screen, press and hold the item and then drag it to the left or right edge of the screen until the display shifts to the extended Home screen. Position the item on the screen, and then release it.

To remove a Home screen item:

1. Press and hold the item on the screen you want to remove to activate Edit mode.

Note: When Edit mode is activated, the item expands and the device vibrates.

2. Drag the icon to the Phone button (The Phone button changes into \( \text{ } \))
3. When the icon and the Remove button turn red, release pressure.
To create a folder and add items to it:

You can create folders on the Home screen to hold application icons or shortcuts.

1. Press \[ \text{Home} \] > [menu] and tap Add to Home > Folder > New folder. A new folder appears on the screen.

2. Press and hold an application icon or a shortcut on the Home screen to activate Edit mode, and then drag it on top of the folder.

To access the items inside a folder, tap the folder to open it and then tap the icon of the application or shortcut you want to open.

To rename a folder:

1. Tap the folder to open it.

2. Press and hold the folder’s title bar to open the Rename folder dialog box.

3. Enter the Folder name and then tap OK.

Note: To delete a folder, follow the same procedure when you want to remove a Home screen item.

Creating and Saving a Custom Scene

Create your own custom scene and save it on your device.

1. Customize the Home screen by adding or removing widgets or application shortcuts, repositioning items, or changing the wallpaper.

2. After customizing, press [menu] and tap Scenes.

3. On the Choose a scene options menu, select Current (unsaved) and tap Save.

4. Enter the Scene name and tap Done.

To delete a folder, follow the same procedure when you want to remove a Home screen item.
1B. Settings

Sound Settings (page 21)
Display Settings (page 23)
Location Settings (page 25)
Messaging Settings (page 26)
Airplane Mode (page 26)
Security Settings (page 27)
Data Synchronization Settings (page 27)
Locale & Text Settings (page 28)

Sound Settings

Phone Ring Tone
Select a default ring tone for incoming calls.

Selecting the default ring tone
Your device provides a variety of ring tones that you can set as the default ring tone of your device.

1. Press \(\text{Menu}\) and tap Settings > Sound & display > Phone ringtone.

2. Tap the ring tone you want to use, and then tap OK. The ring tone briefly plays when selected.

Tip
You can use *.wav, *.mid, *.mp3, *.wma, or other types of sound files that you downloaded from the Internet or copied from your computer as ring tones.

Notification Sound
Select a default sound for notifications.

Selecting the default notification sound
Your device provides a variety of sounds that you can set as the default sound for notifications.

1. Press \(\text{Menu}\) and tap Settings > Sound & display > Notification sound.

2. Tap the sound you want to use, and then tap OK. The sound plays when selected.
Adjusting the Device’s Volume Settings

Adjust your device’s volume settings to suit your needs and your environment.

1. Press \( \text{Menu} \) and tap \textit{Settings > Sound & display > Phone ringtone}.

2. Tap \textit{Ringer volume} or \textit{Media volume}.

3. Drag the volume slider on the screen to adjust the volume and then tap \textit{OK}.

\textbf{Tip} You can adjust the ringer volume in standby mode (or the earpiece volume during a call) by using the volume button on the left side of your device.

Vibrate

To set your device to vibrate instead of making any sounds:

- Press the volume button down in standby mode until you see the image below on the screen.

The device vibrates and the vibrate mode icon ( ) appears on the status bar.

To set your device to always vibrate in addition to any ringer settings:

1. Press \( \text{Menu} \) and tap \textit{Settings > Sound & display}.

2. Select the \textit{Phone vibrate} check box.

3. Press \( \text{Back} \).

Silence All

The Silence All option allows you to mute all sounds without turning your device off.

To activate Silence All:

- Press the volume button down in standby mode until you see the image below on the screen.

The Silence All mode icon ( ) appears on the status bar.
To deactivate Silence All:

- Press the volume button up repeatedly to select a volume level.

**Alert Notification**

Set your device to alert you with an audible tone when you are not within the Sprint coverage area or when you make an emergency call.

1. Press \( \text{home} \) > \( \text{menu} \) and tap Settings > Sound & display.
2. Select the Roaming alert check box, Emergency alert check box, or both.
3. Press \( \text{back} \).

**Enabling Touch Tones**

You can set the device to play a sound when you are using the phone pad or tapping the screen.

1. Press \( \text{home} \) > \( \text{menu} \) and tap Settings > Sound & display.
2. Select the Audible touch tones or Audible selection check box(es).

**Display Settings**

**Changing the Screen Timeout Period**

After a period of inactivity, the device screen turns off to conserve battery power. You can set the idle time before the screen turns off.

1. Press \( \text{home} \) > \( \text{menu} \) and tap Settings > Sound & display > Screen timeout.
2. Tap the time before the screen turns off.

**Changing the Display Screen**

Choose what you see on the display screen while powering on or off and when in standby mode.

1. Press \( \text{home} \) > \( \text{menu} \) and tap Wallpaper.
2. Tap Home.

Note: Tap Lock screen to change the Lock screen wallpaper.

3. Tap Albums or Wallpaper gallery.
   - Tap Albums to use a picture that you have captured using the camera or copied to your device as a wallpaper. You can crop the picture before setting it as a wallpaper.
   - or -
   - Tap Wallpaper gallery to use preset device wallpapers.

4. Tap Save or Set wallpaper.

Adjusting Brightness

By default, the screen brightness automatically adjusts depending on the surrounding lighting conditions.

To manually adjust screen brightness

1. Press \home>\ and tap Settings > Sound & display.
2. Clear the Disable auto backlight check box.
3. Tap Brightness and then drag the slider to adjust the brightness.
4. Tap OK.

Changing Scenes

Customize your device’s Home screen appearance by selecting a scene to reflect your lifestyle. Scenes are preset Home screen layouts that you can quickly apply.

- Press \home>\, tap Scenes, and then tap a scene to apply it to the Home screen.

To save a custom scene:

- Customize the Home screen by changing the wallpaper and adding widgets, press \menu, and then tap Scenes > Current (unsaved) > Save. Enter the Scene name and then tap Done.

Tip: You can rename or delete a custom scene in the Settings screen. On the Settings screen, tap Personalize > Scenes, and then press and hold a custom scene.
Automatically Changing the Screen Orientation

You can automatically change the screen orientation when the device is rotated.

1. Press \( \leftarrow \) > \( \text{menu} \) and tap Settings > Sound & display.
2. Select the Orientation check box and press \( \rightarrow \).

Note: Not all application screens support automatic rotation.

The screen orientation automatically changes to landscape mode when you turn the device counterclockwise 90 degrees. If you turn the device clockwise 90 degrees, the screen orientation will not change to landscape mode.

Location Settings

Your device is equipped with a Location feature for use in connection with location-based services.

The Location feature allows the network to detect your position. Turning Location off will hide your location from everyone except 911.

Note: Turning Location on will allow the network to detect your position using GPS technology, making some Sprint applications and services easier to use. Turning Location off will disable the GPS location function for all purposes except 911, but will not hide your general location based on the cell site serving your call. No application or service may use your location without your request or permission. GPS-enhanced 911 is not available in all areas.

To enable your device’s Location feature:

1. Press \( \leftarrow \) > \( \text{menu} \) and tap Settings > Location.
2. Select the Location Setting check box. (The Location disclaimer will be displayed.)
3. Read the disclaimer and tap OK.

When you turn the Location feature on, the device displays the \( \uparrow \) icon. When you turn Location off, the device displays the \( \downarrow \) icon.
**Messaging Settings**

Your device’s advanced messaging capabilities let you send and receive many different kinds of text messages without placing a voice call. (For more information, see “Accessing Messages” on page 86.)

Messaging settings allow you to decide how you would like to be notified of new messages, create a signature with each sent message, and create your own preset messages.

**Setting Message Notification**

When you receive a message, your device notifies you by displaying an icon on your display screen. You can also choose to vibrate the device and have the screen flash when you receive a message.

To display a notification and vibrate the device when you receive a message:

1. Press and tap > Messages.
2. Press menu and then tap Settings.
3. Scroll down the screen and select the **Notifications** and **Vibrate** check boxes.

**Tip** Tap Select sound to choose a notification sound.

4. Press .

**Airplane Mode**

Airplane Mode allows you to use many of your device’s features, such as Albums, camera, and Music, when you are in an airplane or in any other area where making or receiving calls or data is prohibited. When you set your device to Airplane Mode, it cannot send or receive any calls or access online information.

1. Press and tap Settings > Wireless controls.
2. Select the **Airplane mode** check box and press .

While in Airplane Mode, the status bar will display .
Security Settings

Resetting Your Device

Resetting the device deletes all data, including downloaded applications, and resets the device back to its initial state—the state before you turned on the device for the first time.

**Important** Make sure to back up important data you have on the device before you reset your device.

To reset the device using the device keys:

1. With the device turned off, press and hold and , and then press .
2. Release and , and then press the trackball. (All data will be deleted from the device.)

Data Synchronization Settings

Synchronizing Exchange ActiveSync

You can synchronize your device with your company’s Microsoft Exchange Server to let you access your device’s Exchange Server account’s email, contacts, and calendar events.

**Note** You need to have an Exchange ActiveSync account set up on your device. See “Email” on page 86.

To select which Exchange ActiveSync items to synchronize:

1. Press and tap Settings > Data synchronization > Exchange ActiveSync.
2. Select the Exchange ActiveSync items you want to synchronize.

To change the synchronization schedule:

1. Press and tap Settings > Data synchronization > Exchange ActiveSync > Schedule.
2. Tap the time interval the device will check for new data.
To manually start synchronization:

- On the Microsoft Exchange ActiveSync screen, tap **Sync now**.

To change account settings:

1. Press ➕ and tap **Settings > Data synchronization > Exchange ActiveSync.**

2. Press ➕ and tap **Settings.**

3. Change the general settings and mail and calendar settings according to your preference.

4. Press ➔.

**Locale & Text Settings**

**Setting Onscreen Keyboard Settings**

- Press ➕ ➔ and tap **Settings > Locale & text > Touch Input.**
1C. History

- Viewing History (page 29)
- Making a Call From History (page 30)
- Saving a Number From History (page 30)
- Erasing History (page 30)

Viewing History

History is a list of phone numbers (or People entries) for calls you placed, accepted, or missed. History makes redialing a number fast and easy. It is continually updated as your device automatically adds new numbers to the beginning of the list.

1. Press 🔄 and tap Call history.

2. Tap 📞 at the right side of a number of contact to view the call history for that number or contact.

Shortcut You can also press 🔄 from standby mode to display your recent calls.

Note History records only calls that occur while the device is turned on. If a call is received while your device is turned off, it will not be included in history.

Each entry contains the phone number (if it is available) and People entry name (if the number is in People). Duplicate calls (same number and type of call) may only appear once on the list.
Making a Call From History

1. Press \(\text{\textcopyright} \) > menu and tap Call history.
2. Tap an entry on the Call history list to place a call to that entry.

**Note** You cannot make calls from History to entries identified as No ID or Restricted.

**Tip** Press and hold an entry in the Call history list to open the options menu where you can select to view the contact information (if number is stored in People), edit the number before you redial, send a text message, or delete the entry from the Call history list.

Saving a Number From History

If the phone number of a person who called is not in People, you can choose to save the number after you hang up.

1. Press \(\text{\textcopyright} \) > menu and tap Call history.
2. Press and hold the received call and then tap Save to contacts on the options menu.
3. The phone number is automatically added to the Mobile box in the Number section. Enter the name and other contact information.

**Tip** To store the number as another type (for example, home number), tap the Mobile button.

4. Scroll down the screen and tap Save.

After you have saved the number, your device displays the new People entry. (See “Displaying an Entry in People” on page 34.)

**Note** You cannot save phone numbers already in People or from calls identified as No ID or Restricted.

Erasing History

To erase a History entry:

1. Press \(\text{\textcopyright} \) > menu and tap Call history.
2. Press and hold the entry you want to delete and tap Delete from call history.

To erase all History entries:

1. Press \(\text{\textcopyright} \) > menu and tap Call history.
2. Press menu and tap Delete all.
About People

In People, you can easily manage your communications with contacts using phone, messaging, and email. You can also view updates on their Facebook and Flickr accounts, as well as updating your own Facebook status.

If you are synchronizing contacts with your Google account, with your computer, or with an Exchange Server, any contacts stored in those accounts are displayed in People.

To open People:

- Press and tap People.
  – or –
  Press and tap >People. (You may need to scroll down the screen to see the icon.)
Using the People Screen

The People screen gives you easy access to all your contacts, as well as even faster access to the people and groups of people you contact most often.

The People screen has the following tabs:

1. **All** gives you access to all your device’s contacts, including Google contacts, Exchange ActiveSync contacts, and Phone contacts. You can also use this tab to open or update My contact card.
2. **Favorites** gives you a list of favorite contacts which you can access quickly.
3. **Groups** lets you assign contacts to groups so you can easily send an SMS, MMS, or email message to a whole group.
4. **Updates and events** lets you assign contacts to groups so you can easily send an SMS, MMS, or email message to a whole group. **Call history** lists all your dialed numbers and received and missed calls. (See “Viewing History” on page 29 for details.)

Viewing and Managing Contacts

The **All** tab of the People screen shows all your contacts, including Google contacts, Exchange ActiveSync contacts, and Phone contacts.

1. Create a new contact.
2. Edit or update My Contact Card.
3. Tap a contact to open the contact details for that contact.
4. The green ball icon ( ) appears when the contact:
   - Has sent you a new text or email message, or tried to call you but you missed the call.
   - Has updated his or her Facebook profile or has added photos on Flickr or Facebook.
   - Has upcoming Facebook events.

5. The Facebook status appears when you link the contact to their Facebook account.

6. Displays the type of contact.

**Adding a New People Entry**

1. On the All tab, tap Add new contact.

2. Select the Contact type, for example Phone or Google. This determines which account the contact will sync with.

3. For Exchange or Phone contact type, tap the Name box, enter the first and last name of the contact, and choose the order in which to display the names. Tap OK.
   - or –

   For Google contact type, tap the Name box and then enter the name.

4. Enter the contact information in the boxes provided.

5. Scroll to the bottom of the screen and tap Save.

After saving the number, your device displays the new entry.

**Saving a Phone Number**

To save a number from standby mode:

1. Press .

2. Enter the phone number by tapping the keys on the keypad.

3. Tap Save to People. (This button appears after tapping six digits.)

4. Tap Create new contact or Save to existing contact.

5. Use the keyboard to enter the new contact name and tap Save to save the new entry.
   - or –
Tap an existing contact name and tap **Save** to save the new number.

**Editing an Entry in People**

**Displaying an Entry in People**

- Press 📞, tap **People**, and then tap an entry.

**Adding a Number to an Entry in People**

1. Display an entry in People. (See Displaying an Entry in People for details.)
2. Scroll down the screen and tap **Add > Phone**.
3. Tap the type of phone number you want to add. (For example, **Home** or **Work**.)
4. Enter the phone number and tap **Save**. (Scroll down the screen to see the **Save** button.)

**Editing an Entry in People**

1. Display an entry in People. (See Displaying an Entry in People for details.)
2. Under the **Number** section, tap the number you want to edit.
3. Edit the number using the keypad.

**Tip**

Tap the Number type (for example, **Mobile**), to change the type of number.

Tap ✗ at the right side of a number to delete it.

4. Tap **Save**. (Scroll down the screen to see the **Save** button.)

**Selecting a Ringer Type for an Entry**

Assign a ringer type to an entry in People so you can identify the caller by the ringer type. (See “Sound Settings” on page 21.)

1. Display an entry in People. (See Displaying an Entry in People for details.)
2. Scroll down the screen and tap the list menu under **Ringtone**.
3. Select a ring tone (the ring tone plays back) from the menu and tap **OK**.
4. Tap **Save**. (Scroll down the screen to see the **Save** button.)
Assigning a Picture to an Entry

Assign a picture to display each time a certain contact calls you.

1. Display an entry in People. (See Displaying an Entry in People for details.)
2. Tap 📷 at the top-left corner of the screen.
3. Tap Albums or Camera.
   - If you selected Albums, select an album to find the picture, tap the picture you want to use, crop the picture, and tap Save.
   - If you selected Camera, the camera will launch and you will use it to take a new picture.
4. Tap Save. (Scroll down the screen to see the Save button.)

Adding an Email Address to an Entry

1. Display an entry in People. (See Displaying an Entry in People for details.)
2. Under the Email section, tap the box after 📧.
3. Enter the email address and tap Save. (Scroll down the screen to see the Save button.)

Adding Additional Information to an Entry

You can add additional information to an entry in People.

1. Display an entry in People. (See Displaying an Entry in People for details.)
2. Scroll down the screen and tap Add.
3. Tap the type of information you want to add such as Phone, Email, or Postal address.

Assigning Speed Dial Numbers

Your device can store up to nine phone numbers in speed dial locations. (For details on how to make calls using speed dial numbers, see “Speed Dialing” on page 12.)

To assign a speed dial number to People entry:

1. Press 📞, tap People, and then tap an entry in People.
2. Press \[\text{menu}\] and tap \text{Set speed dial}.

3. Tap the list menu under \text{Number} to select a number from the contact to assign to speed dial.

4. Tap the list menu under \text{Location} to assign the number to a speed dial location.

5. Tap \text{Save}.

\textbf{Finding Speed Dial Numbers}

1. Press \[\text{home}\] and tap \[\text{Phone}\].

2. Press \[\text{menu}\] and tap \text{Speed dial}.

3. Tap a speed dial entry to call the contact.

\textbf{Tip} While on the Speed dial screen, press \[\text{menu}\] and tap \text{Add} to add new speed dial entries from People.

\textbf{Using the Contact Details Screen}

When you tap a contact on the People screen, the Contact Details screen opens, showing you the information stored for that contact, exchanged messages and phone calls with that contact, Facebook notifications, and more.

The Contact Details screen has the following tabs:

1. \text{Information} shows the information you have stored for the contact, and allows you to get in touch with the contact directly by tapping any of the displayed methods. For example, if the contact has a stored work phone number, tap \text{Call Work} to call that number. You can also add one of the contact's phone numbers as a speed dial number. For information, see Assigning Speed Dial Numbers for details.
2. **Messages** shows your exchanged SMS messages with the contact. Tap a message to view it. To send a new message, press \( \text{menu} \) and tap *Send message*. For more information about messages, see “Text Messaging (SMS)” on page 69.

3. **Mail** shows email messages you have received from the contact. Tap an email message to view it. To send a new email, press \( \text{menu} \) and tap *New mail*. For more information about email, see “Email” on page 86.

4. **Updates and events** shows the contact’s Facebook status, updates, and events, and shows when he or she uploads new photos to Flickr. When there is a notification of the contact’s birthday, you can tap the notification to call the contact directly or send a message greeting.

5. **Albums** shows the contact’s Facebook and Flickr photo albums. For more information, see Dialing Sprint Services.

6. **Call history** lists all your incoming, outgoing, and missed calls to and from the contact. Tap a list item to call the contact using the displayed number.

---

**Dialing Sprint Services**

- **Customer Service** – \( \text{*} \) 2 \( \text{ABCD} \)  Call
- **Sprint 411** – 4 \( \text{GHI} \) 1 \( \text{def} \) 1 \( \text{ghi} \)  Call
- **Account Info** – \( \text{*} \) 4 \( \text{ghi} \)  Call
- **Sprint Operator** – 0\( \text{abc} \)  Call
Adding an Event to the Calendar

Your Calendar helps organize your time and reminds you of important events.

1. Press \( \text{Home} \) and tap \( \text{Menu} \) &gt; Calendar.

2. On any Calendar view, press \( \text{Menu} \) and tap New to open the Event details screen.

   Tip
   If you are in Agenda or Month view, you can also tap at the bottom-right of the screen.

   If you are in Day view, tap Add event

3. Do one of the following:
   - If there is a time frame for the event, tap the From and To dates and times to set them.
   - If the event is a special occasion such as a birthday or an all-day event, set the From and To dates, and then select the All Day check box.

4. Enter the event location and description.

Calendar
Use Calendar to create and manage events, meetings, and appointments. Depending on your synchronization settings, your device’s Calendar stays in sync with your Calendar on the Web, Exchange ActiveSync calendar, and Outlook calendar.

1E. Calendar and Tools

- Calendar (page 38)
- Calculator (page 41)
- World Clock (page 42)
- Quickoffice (page 43)
- PDF Viewer (page 44)
- HTC Sync (page 45)
- Updating Your Device (page 48)
5. If you have more than one calendar, select the Calendar where you want to save the event.

Note
You can create multiple calendars, such as Personal, Business, or Family, using Calendar on the Web. Depending on your synchronization settings, these calendars are added to your device when you synchronize the Calendar. For more information on how to create calendars, go to http://www.google.com/support/calendar/bin/answer.py?answer=37095&topic=15281.

If you have synchronized your device with an Exchange ActiveSync account or Outlook on your computer, you can also select these calendars.

6. Set the event reminder time in Reminders, and then select whether the event is recurring in Repeat.

Note
Press and then tap Add reminder to add another reminder.

7. When finished, tap Add.

---

**Event Alert Menu**

When your device is turned on and you have an event alarm scheduled, your device alerts you and displays the event summary. There are several ways your device alerts you to scheduled events:

- By playing the assigned ringer type.
- By showing the icon on the status bar.
- By showing the Alert screen.

**Event reminders**

If you have set at least one reminder for an event, the upcoming event icon ( ) will appear in the notifications area of the status bar to remind you of the upcoming event.

**To view, dismiss, or snooze the reminder:**

1. Press the status bar, and then slide your finger down the screen to open the Notifications panel.
2. Tap the upcoming event name to display the event.

Note
If you have other pending event reminders, these events will also appear on the screen.
3. Do one of the following:
   - Tap **Snooze** all to snooze all event reminders for five minutes.
   - or –
   - Tap **Dismiss all** to dismiss all event reminders.
   - or –
   - Press \[ \] to keep the reminders pending in the notifications area of the status bar.

To set reminder settings:

> On any Calendar view, press \[ \] and tap **Settings > Reminders**.

**Viewing Events**

You can display the Calendar in daily, weekly, monthly, or agenda view. To change the Calendar view, press \[ \] and tap **Day, Agenda, or Month**.

**Day view**

- Tap to open event details.
- Colored bars indicate which calendar the event was created in.
- Shows the weather information.

**Note**

To show the weather information, in any calendar view, press \[ \], tap **Settings > Views** and then select the Include weather check box. Choose the city to display in City.

The weather information appears only it is within the 5-day forecast of Weather.

Weather information only appears when using Event list view. To check, in any calendar view, press \[ \], and tap **Settings > Views > Day views**.
**Erasing Events**

1. Press \( \text{menu} \) and tap \( \text{Gear} > \text{Calendar} \).
2. Open the calendar event details by:
   - In Agenda and Day views, tap the calendar event you want to delete.
   - In Month view, tap the date where the calendar event occurs, and tap the calendar event.
3. Press \( \text{menu} \) and tap **Delete**.
4. In the Delete confirmation box, tap **OK**.
   - or –
   If the calendar event is recurring, select **This & future events** or **All events**, and tap **OK**.

---

### Synchronizing Exchange ActiveSync Calendar

If you have set up a Microsoft Exchange ActiveSync account on your device, you can also synchronize Exchange ActiveSync calendar events on your device. Calendar events on your Exchange ActiveSync will also show in Calendar if you chose to synchronize with the Exchange ActiveSync Server.

- To check if Exchange ActiveSync items are set to be synchronized, go to the Home screen, press \( \text{menu} \), and tap **Settings > Data synchronization > Exchange ActiveSync**.

---

### Calculator

Your device comes with a built-in calculator.

1. Press \( \text{menu} \) and tap \( \text{Gear} > \text{Calculator} \).
2. Enter numbers or formulas using the onscreen keys.

Tip
Press menu and tap Advanced panel to let you perform more complex calculations such as square roots, logarithmic, and trigonometric functions.

Tap CLEAR to remove one digit at a time. Press and hold CLEAR to delete the entire number.

3. Tap = for the total.

World Clock

To view the time in different locations:

Press ⌚ and tap ⌚ > Clock.

To add cities to the World Clock list:

1. Press ⌚ and then tap ⌚ > Clock > World Clock tab > Add city.

2. Enter the city name you want to add. The list changes to show matching cities and countries based on letters you enter.

3. Tap the city when it appears on the list.

To designate your home city:

1. Press ⌚ and tap ⌚ > Clock > World Clock tab, and then press menu > Home settings.

2. Enter your home city name. The list changes to show matching cities and countries based on letters you enter.

3. Tap your city when it appears on the list. Your home city will appear at the top of the list of cities.

To delete a city on the World Clock list:

1. Press ⌚ and tap ⌚ > Clock > World Clock tab, and then press menu > Delete.

2. Tap the cities you want to remove and tap Delete.

Alarm Clock

Your device comes with a built-in alarm clock that has multiple alarm capabilities.

1. Press ⌚ and tap ⌚ > Clock > Alarms tab.
2. Tap one of the default alarms on the screen.

3. In the Set alarm screen, set the alarm time by sliding your finger up or down on the numbers and AM/PM.

4. Enter the alarm **Description**, set the **Alarm sound** and **Repeat**, and select the **Vibrate** checkbox if you want the device to also vibrate when the alarm goes off.

5. Tap **Done**.

**Tip**  If you need to set more than 3 alarms, you can add more alarms by tapping **Add alarm**.

**Note**  You can temporarily disable an alarm by clearing the check box (✓) of the alarm on the **Alarms** tab.

### Deleting an Alarm

1. On the **Alarms** tab, press **menu** and tap **Delete**.

2. Select the alarms you want to delete and then tap **Delete**.

### Quickoffice

Quickoffice lets you view Microsoft Office Word, Microsoft Office Excel, and Microsoft PowerPoint files on your device. Quickoffice supports viewing of Microsoft Office 2003 Word (.doc), Excel (.xls), PowerPoint (.ppt) and text (.txt) files.

**Viewing documents, presentations and spreadsheets**

Make sure you have copied the files to the device's microSD card before you open Quickoffice.
1. Press menu and tap > Quickoffice. (You may need to scroll down the screen to see the icon.)

2. Tap the file you want to open. 
   Tip: In the Open file screen, press menu and tap Sort to let you sort the list by name or date.

3. Slide your finger on the screen to scroll horizontally or to flip through the pages of the file.

4. While viewing a file:
   - Slide your finger on the screen to bring up the zoom controls.
   - For Excel files, press menu and then tap Worksheet to view other worksheets on the file.
   - For Word and PowerPoint files, tap a URL link to open the Web page in the browser.
   - When you open Word documents, Quickoffice reflows the text to make it fit the width of the screen. Double-tap the screen to switch to continuous view so you can view the page layout.
   Note: Quickoffice does not reflow text in tables.

   - When you view PowerPoint files, after your zoom in on a slide, you can double-tap the screen to zoom out automatically and fit the slide to the width of the screen.

PDF Viewer

Use PDF Viewer to view PDF files that you have copied to the device’s microSD card.

Viewing a PDF file

1. Press menu and tap > PDF Viewer. (You may need to scroll down the screen to see the icon.)

2. On the Open file screen, tap the file you want to view.

3. Slide your finger on the screen to pan or go through the pages of the PDF file. While viewing a PDF file, press menu to let you open another PDF file, zoom in, search the file, and more.
1. **Zoom** to zoom in on the page. You can also tap the screen quickly twice to zoom in or out of the page.

2. **Open** to open another PDF file.

3. **Toolbar** to toggle between showing and hiding the page toolbar.

4. **Go to** to go to a specific page on the PDF file.

5. **View** to let you change the view: **Continuous** or **Reflow**.

6. **More** to search for text in the PDF file, and view properties or information about PDF Viewer.

---

**HTC Sync**

HTC Sync™ lets you synchronize Outlook and Windows Address Book (Outlook Express) contacts and calendar events on your computer with your device. It also lets you install third-party Android applications on the device.

**Important**  
For HTC Sync Sync Manager, you need Outlook 2000/2002/2003/2007 or Windows Address Book (Outlook Express) and Windows XP SP2 or higher or Windows Vista to synchronize contacts and calendar events.

**Note**  
The USB debugging check box in > > > Settings > Applications > Development needs to be selected for the device to be able to synchronize with the computer using HTC Sync.

If you have a Microsoft Exchange account, you can set up an Exchange email account and synchronize emails, contacts, and calendar items from the Exchange account. To set up a Microsoft Exchange email account, see “Adding a Microsoft Exchange ActiveSync account” on page 87 for details.
Installing HTC Sync on Your Computer

You can find the HTC Sync installer on the provided microSD card or you can download the installer from the HTC website.

1. Make sure the microSD card is installed on the device and then connect the device to the computer using the provided USB cable.

2. Set the device as a USB drive. (See “Using the Device’s microSD Card as a USB Drive” on page 53.)

3. On the computer, copy HTCSync.exe from the microSD card to the computer’s desktop.

4. Double-click HTCSync.exe and then follow the installation instructions on the screen.

Setting up HTC Sync to Synchronize Outlook Items

Use Sync Manager to synchronize computer Outlook contacts and calendar events between the device and computer.

1. On your computer, run HTC Sync.

2. Connect the device to the computer using the provided USB cable.

3. The first time you synchronize the device, the Synchronization Settings Wizard starts automatically to help you set up HTC Sync.

4. On the Synchronization Settings Wizard screen, click Next.

5. Select the computer application you want to synchronize with and then click Next.
6. Select the categories you want to synchronize and then click **Next**.

**Note** After clicking **Next**, you may be asked to select additional categories. This page will only appear if any additional categories are supported by the connected device.

7. Select when to synchronize data and then click **Next**.

8. Check the settings that you have chosen and then click **Finish**.

If you want to have more customization features when setting up HTC Sync, you can use **Manual settings**. To learn how to set up HTC Sync using Manual settings, consult the HTC Sync help on your computer.

### Synchronizing Outlook Items

When you set up HTC Sync, you were asked to set when you want to synchronize with the computer. Depending on the option you have selected, you may need to manually start synchronization or it will automatically start synchronization when you connect the device to the computer.

- If you chose **I want to synchronize automatically each time I connect my mobile phone** or **Automatic start of synchronization, every time mobile phone is connected**, follow this procedure:
  - On your computer, open HTC Sync.
  - Connect the device to the computer using the USB cable.
  - Synchronization will automatically start.

- If you chose **I want to start the synchronization manually** or **Do not synchronize automatic, manual start**, follow this procedure:
  - On your computer, open HTC Sync.
  - Connect the device to the computer using the USB cable.
  - On the HTC Sync window, click **Synchronize Now**.

- If you chose **Schedule automatic synchronization**, follow this procedure:
  - On your computer, open HTC Sync.
  - Connect the device to the computer using the USB cable.
  - Synchronization will start depending on the date and time you set.
Install Android Applications

Use Application Installer to install Android applications (.apk) that are on your computer to the device.

**Important**
The Unknown sources check box in Settings needs to be selected in order to install Android applications from the computer. To check, press \( \text{Home} > \text{Menu} > \text{Settings} > \text{Applications} \).

1. On your computer, run HTC Sync.
2. Connect the device to the computer using the provided USB cable.
3. Click Application Installer.
4. On the Application Installer screen, click Next.
5. Click Browse to select the file to install. After selecting the file, click Next.
6. Click Finish. Check the device if there are additional instructions to complete the installation.

**Updating Your Device**

To download software updates to your device:

- Press \( \text{Home} > \text{Menu} > \text{Settings} > \text{About phone} > \text{System updates} > \text{Firmware update} \). (Your device automatically downloads and installs any available updates. You may be required to power your device off and back on to complete the software upgrade.)

**Note**
On your device, check Notifications on the status bar for the \( \text{Settings} \) icon to know if HTC Sync recognizes the device.

**Voice Services**

- Automatic Speech Recognition (ASR) (page 49)
- Managing Voice Memos (page 50)

**Automatic Speech Recognition (ASR)**

You can use your device’s built-in automatic speech recognition (ASR) software to dial a phone number in People or to launch device functions. All you have to do is to talk into the device, and ASR will recognize your voice and complete tasks by itself.

**Activating ASR**

- Press and hold 📦.
- or –
- Press 📨 and tap 📮 > Voice Dialer. (You may need to scroll down the screen to see the icon.)

The screen displays “Listening...” and the device prompts you to say the name of the command you want to use. To complete your task, simply follow the voice prompts.

Available ASR commands include:

- **Call** <Name or Voicemail> to call an entry in your People list or voicemail. (See “Making a Voice Call With ASR” on page 50.)
- **Dial** <Number> to dial a spoken phone number.
- **Redial** to dial the last outgoing call.
- **Open** <Application Name> to open an application in your device. (See “Opening Applications With ASR” on page 50.)

**Tip**

Use ASR in a quiet environment so it can accurately recognize your commands.

**Note**

Regardless of which command you use, you will be asked to confirm your choice, or choose from a menu if ASR is not sure what you would like to do.
Making a Voice Call With ASR

1. Press and hold 📞.
2. Wait until you hear a tone and the word “Listening...” appears on the screen.
3. Say “Call [contact name]” to call a person stored in your People list.
   – or –
   Say “Dial [contact number]” to dial a spoken phone number.
4. Tap YES to confirm or CANCEL to cancel the command; or choose from a menu if ASR is not sure what you would like to do.

Opening Applications With ASR

You can jump directly to many applications by saying “Open” followed by the application name.

1. Press 📞 and tap > Voice Recorder.
2. Wait until you hear a tone and the word “Listening...” appears on the screen.
3. Say “Open [application name]” to open an application in your device.
4. Tap YES to confirm or CANCEL to cancel the command; or choose from a menu if ASR is not sure what you would like to do.

Managing Voice Memos

Use your device’s Voice Recorder to record brief memos to remind you of important events, phone numbers, grocery list items, or create a ring tone.

Recording Voice Memos

1. Press 📞 and tap Voice Recorder.
   (You may need to scroll down the screen to see the icon.)
2. Tap 🗣 and speak into the device’s microphone.
   To end the recording of your memo:
   – Tap 🅏️.
Voice Memo Options

To play the voice memos you have recorded:

- After recording a voice memo, tap <Play>.  
  – or –  
  Press <Menu>, tap Open, tap the file you want to play, and tap <Play>.

**Tip** You can also < or > to go to the voice memo.

Erasing Voice Memos

To erase a voice memo:

1. Press <Menu>, tap Open, and then tap the voice memo you want to delete.
   – or –
   Tap < or > to go to the voice memo you want to delete.

2. Press <Menu> and tap Delete > Current file.

To erase multiple voice memos:

1. Press <Menu> and tap Delete > Multiple files.
2. Select the voice memos you want to delete and tap Done.
Your Device’s microSD Card

The microSD Card

Your device is equipped with a 2 GB microSD™ (Secure Digital) memory card to expand the device’s available memory space. It allows you to store images, videos, music, documents, and voice data in your device.

Important

Your device comes with the microSD card preinstalled.

Removing the microSD Card

1. With the device turned off, push the back cover up with your thumb until it disengages from the device and then slide it up to remove.

2. Press the microSD card to eject it from the slot.

Note

DO NOT remove a microSD card while files are being accessed or transferred. Doing so will result in loss or damage of data. To safely remove the microSD card while the device is on, you need to unmount it first.

You can easily damage the microSD card by improper operation. Please be careful when inserting, removing, or handling them.

Make sure your battery is fully charged before using the microSD card. Your data may become damaged or unusable if the battery runs out while using the microSD card.

Inserting the microSD Card

1. With the device turned off, push the back cover up with your thumb until it disengages from the device and then slide it up to remove.
2. Insert the microSD card into the slot with its gold contacts facing down.
3. Press the microSD card all the way in until you hear a click.

Using the Device’s microSD Card as a USB Drive

To transfer music, pictures, and other files from your computer to your device’s microSD card, you need to set the device’s microSD card as a USB drive.

To set the device’s microSD card as a USB drive:

1. Connect the device to the computer using the USB cable. A notification icon (\:\:) appears in the status bar.
2. Open the Notifications panel. (See “Notifications Panel” on page 7.)
3. In the Notifications panel, tap USB connected > Mount.

**Note**

When you tap Mount, the device will not recognize the microSD card when it is connected to a computer. You will not be able to use some of the device’s applications such as the camera or Music.

To remove the connection:

1. When you have finished transferring data, open the Notifications panel. (See “Notifications Panel” on page 7.)
2. Tap Turn off USB storage > Turn Off.
Taking Pictures and Shooting Videos

You can use the camera or camcorder to take and share pictures and videos. Your device comes with a 5.0 megapixel camera with auto-focus feature that lets you capture sharp pictures and videos.

**Important**

Make sure the microSD card is installed before you use the camera or camcorder. All pictures or videos that you capture using your device are stored on the microSD card. For more information on how to install a microSD card on your device, see "Inserting the microSD Card" on page 52.

**Opening the Camera**

- Press and tap > Camera if you want to capture photos or Camcorder if you want to shoot videos. When you open the camera, the screen orientation will depend on how you are holding the device.

For the camcorder, the screen automatically switches to landscape orientation.

**Tip**

You can easily switch to the other capture mode while you using the camera or camcorder. Refer to Changing Capture Modes for details.
1. Opens the Albums program. (See Viewing Pictures and Videos Using Albums for details.)

2. Displays the current capture mode. Tap to switch between Photo and Video modes.

3. Zooms in or out. To show the Zoom control and the remaining available shots or recording duration, slide your finger up or down on the Camera screen. The Zoom control will disappear after a few seconds.

4. Shows the remaining available shots. In Video mode, this shows the recording duration.

**Changing Capture Modes**

The device offers two capture modes: **Photo** and **Video**. On the screen, tap to switch between Photo and Video modes.

**Taking Pictures**

1. Switch to **Photo** capture mode.

2. Frame your subject on the screen.

3. Tap an area on the screen you want to focus. The auto-focus indicator appears and starts to focus on the selected area.

4. Press the trackball to take the shot.

**Tip**

Hold the device upright when taking portrait shots or hold the device horizontally when taking landscape shots. By doing this, you do not need to rotate the photo after capturing it.
Shooting Videos

1. Switch to the **Video** capture mode.
2. Frame your subject on the screen.
3. Press the trackball to start capturing video. Press the trackball again to stop capturing video.

Review Screen

After capturing a photo or video, the review screen lets you save, view, send, or delete the picture or video by tapping a button at the bottom of the screen.

1. **View** the captured image or video in Albums.
2. **Delete** the captured image or video.
3. **Send** the captured image or video using email or MMS or set the captured image as your Home screen wallpaper.
4. Go **Back** to the live camera or Camcorder screen.

Camera Menu Panel

The camera menu panel lets you adjust basic camera settings and access advanced camera settings. While
on the camera screen, press \textbf{menu} to open the camera menu panel.

1. \textit{Resolution} lets you change the resolution (capture size).

2. \textit{White Balance} lets you adjust the white balance. White balance enables the camera to capture colors more accurately by adjusting to the current lighting conditions. White balance settings include: \textit{Auto}, \textit{Daylight}, \textit{Cloudy}, \textit{Incandescent}, and \textit{Fluorescent}.

3. \textit{Brightness} opens the Brightness bar so you can adjust the brightness. On the Brightness bar, tap \textbf{−} to decrease or \textbf{+} to increase the brightness level. Tap outside the Brightness bar to apply the change.

4. \textit{Self-timer (Photo mode only)} lets you set the self-timer to Off, 2 seconds, or 10 seconds. When you press the trackball to take the photo, it starts to count down, and then takes the shot after the time expires.

5. \textit{Settings} opens the camera settings.

\textbf{Closing Camera}

\begin{itemize}
  \item On the camera screen, press \textbf{□} or \textbf{◄}.
\end{itemize}

\textbf{Viewing Pictures and Videos Using Albums}

Albums lets you view photos and play back videos. You can also view your photos or your friends’ photos on Facebook or Flickr. For photos, you can also do basic editing tasks, set them as your wallpaper or contact picture, and share to your friends.

\textbf{Opening Albums}

\begin{itemize}
  \item Press \textbf{HOME} and tap \textbf{ תמונה} > \textit{Albums}.
\end{itemize}
If you stored your files in folders (directories) on the microSD card, Albums will display these folders as separate albums.

1. Contains all the pictures inside all the albums.
2. Album name and number of files inside.
3. Tap to view pictures in Albums or pictures in your and your friends' Facebook or Flickr account.
4. Contains all the videos inside all the albums.
5. Tap to view the files inside the album.

When viewing pictures in Albums, scroll up the screen or roll the trackball down to view more albums.

**Note** Depending on the number of pictures stored on the microSD card, it may take a while for Albums to load all your photos on the screen.

You need to be signed in to your Facebook and Flickr accounts to view the pictures in those accounts.

**To send pictures using a messaging application:**

1. In the Albums screen, open the album that the pictures you want to share are in.
2. Tap and then tap Messages, Gmail, or Mail on the Share options menu.
3. Select the pictures you want to share and then tap Next.
4. The pictures are automatically added as an attachment to the email or added into the MMS message.

**Note** For Gmail and Messages, tap the picture you want to send. You can only send one picture.

5. Compose your message and then tap Send.

**Note** If you selected Mail and you have multiple email accounts, the default email account will be used.
Working with Videos

Once you have taken a video, you can view it or share it with friends.

To watch videos:

1. On the main Albums screen, tap a video album and then tap the video you want to watch to start playing back the video.

2. Slide your finger onscreen to go through the videos. Tap the thumbnail to view it in full-screen mode. The screen automatically switches to landscape mode when you play back a video.

   1. Tap to view the video in full-screen mode. Tap again to revert to the original size.

   2. Tap to go back to back to video album.

   3. Shows elapsed time.

   4. Drag to the left or right to go back or forward in the video.

   5. Shows time remaining.

   6. Tap to toggle between playing and pausing the video.

To send a video using email:

1. In the Albums screen, open the album that the videos you want to share are in.

2. Tap and then tap Gmail or Mail on the Share options menu.

3. Select the videos you want to send and then tap Next.

   Note For Gmail, tap the video you want to send. You can only send one video.

4. The videos are automatically added as an attachment to the email.

   Note If you selected Mail and you have multiple email accounts, the default email account will be used.
5. Compose your message and then tap **Send**.

**To send a video using Messages:**

1. In the Albums screen, open the album that the videos you want to share are in.
2. Tap 📀 and then tap **Messages** on the Share options menu.
3. Tap the video you want to send and then tap **Next**.
4. The video is automatically added into the MMS message.
5. Compose your message and then tap **Send**.

---

**Listening to Music**

Music plays digital audio files from the device's microSD card. Since Music only plays audio files saved on the microSD card of your device, you must copy your audio files to the microSD card before you open Music.

---

**Copying Music into the microSD Card**

1. Set the device’s microSD card as a USB drive. (See “Using the Device’s microSD Card as a USB Drive” on page 53 for details.)
2. On the computer, navigate to the USB drive and open it.
3. Create a folder on the root folder of the microSD card (for example, Music).
4. Copy the music into the folder you have created.
5. After copying music, unmount or eject the drive as required by your computer’s operating system to safely remove the device.
6. Disconnect the device from the computer.

---

**Opening Music**

- Press 🏡 and tap 🎵 > **Music**. (You may need to scroll down the screen to see the icon.)
  The Playback screen displays.
**Playing Music**

1. Tap to turn shuffle on or off. (Shuffle is off when button is gray.)
2. Shows the progress bar.
3. Press and drag to jump to another part of the song.
4. Shows the elapsed time.
5. Tap to go to the previous song in the Now playing list.
6. Tap to go to the Library.
7. Tap to cycle through the repeat modes: Repeat all songs, Repeat current song, and don't repeat.
8. Tap to pause or resume playing the song.
9. Tap to go to the next song in the Now playing list.
10. Shows the remaining time.
11. Tap to toggle between showing the Now playing list and Playback screen.

**Tip**
You can also swipe your finger from right to left or left to right to go to the next or previous song in the Now playing list.

**Note**
Press the volume button up or down to adjust the playback volume.

**Library**

Your music is organized into different categories such as Albums, Artists, Genre, Composers, and more. Select a category by tapping one of the category tabs at the bottom of the screen. Tap a song in the category to play it back.
To go to the Library, tap 📚 at the bottom-left of the Playback screen or the Now playing screen.

**Setting a Song as a Ring Tone**

You can use songs as your device’s ring tone.

1. In the Library, select the song that you want to use as a ring tone and then play it back.
2. In the Playback screen, press 📀 and then tap *Set as ringtone*.
3. In the *Set as ringtone* options menu, tap *Phone ringtone* or *Contact ringtone*.

**Note** If you select *Contact ringtone*, you need to select the contacts you want to associate the song with in the next screen.

To check if the song was added as a ring tone:

1. From the Home screen, press 📒 and then tap *Settings*.
2. On the Settings screen, tap *Sound & display > Phone ringtone*. The song should be listed as an option.
11. Bluetooth

- Bluetooth Modes (page 63)
- Using the Bluetooth Settings Menu (page 64)
- Pairing Bluetooth Devices (page 64)
- Disconnecting a Bluetooth Device (page 65)

About Bluetooth

Bluetooth is a short-range communications technology that allows you to connect wirelessly to a number of Bluetooth devices, such as headsets and hands-free car kits, and Bluetooth-enabled handhelds, computers, printers, and wireless phones. The Bluetooth communication range is usually up to approximately 30 feet.

Bluetooth Modes

Your device’s Bluetooth operates in three different modes:

- **On**: Your device can detect other Bluetooth-enabled devices, but it can’t be detected by other devices.
- **Discoverable**: Bluetooth is turned on, and all other Bluetooth-enabled devices can detect your device.
- **Off**: In this mode, you can neither send nor receive information using Bluetooth.

**Note**

By default, Bluetooth is turned off. If you turn it on, and then turn off your device, Bluetooth also turns off. When you turn on your device again, Bluetooth automatically turns on.

Turn off Bluetooth when not in use to conserve battery power, or in places where using a wireless device is prohibited, such as aboard an aircraft and in hospitals.
Using the Bluetooth Settings Menu

The Bluetooth settings menu allows you to set up many of the characteristics of your device’s Bluetooth service, including:

- Turning on Bluetooth.
- Entering or changing the name your device uses for Bluetooth communication.
- Setting your device’s visibility (or “discoverability”) for other Bluetooth devices.
- Scanning for other Bluetooth devices.

To access the Bluetooth settings menu:

1. Press 📱 > and tap Settings > Wireless controls > Bluetooth settings.

2. Select the Bluetooth check box and select Bluetooth options:
   - Tap Device name to rename your device for Bluetooth.
   - Tap Discoverable to set your Bluetooth visibility. Your device will be visible for up to two minutes.

   - Tap Scan for devices to scan for other Bluetooth devices within range.

Pairing Bluetooth Devices

Paired Devices

The Bluetooth pairing process allows you to establish trusted connections between your device and another Bluetooth device. When you pair devices, they share a passkey, allowing for fast, secure connections while bypassing the discovery and authentication process.

| Important | The device supports the following Bluetooth profiles: Headset, Handsfree, A2DP, and AVRCP. |

To pair your device with another Bluetooth device:

1. Press 📱 > and tap Settings > Wireless controls > Bluetooth settings.
2. Select the Bluetooth check box and tap Scan for devices. Your device will start to scan for Bluetooth devices within range and will display all detected devices below the Bluetooth devices section.

3. Tap the Bluetooth device in the list to start pairing. (For example, a stereo Bluetooth headset.)

   Note: If your device does not detect the target device, make sure the other device has Bluetooth turned on and is within range, and repeat step 3.

4. The pairing and connection status will appear below the Bluetooth device name in the Bluetooth devices list. When the other Bluetooth device is connected to your device, the Bluetooth connected icon ( ) will appear in the status bar. You can now start using the Bluetooth device.

   Tip: You may be required to enter a passcode for some Bluetooth devices. In those instances, try using “0000” as the passcode. If that does not work, refer to the other device’s documentation.

Pairing between two Bluetooth devices is a one-time process. Once pairing is created, the devices can recognize the partnership and exchange information without entering a passcode again.

If you pair with a second headset while connected to a first, the first headset will be disconnected. To switch connection back to the first headset, you must manually select that headset again in the Bluetooth devices list.

**Disconnecting a Bluetooth Device**

1. Press and tap Settings > Wireless controls > Bluetooth settings.

2. Navigate to the Bluetooth devices section, and then press and hold the connected Bluetooth device.

3. Tap Disconnect.

   – or –

   Tap Disconnect & unpair if you want the device to erase all pairing information with the hands-free headset or car kit. You will be prompted to enter the passcode again when you connect to that Bluetooth device.
Voicemail (page 68)
Text Messaging (SMS) (page 69)
Picture Messaging (MMS) (page 72)
Caller ID (page 74)
Call Waiting (page 75)
Making a 3-Way Call (page 75)
Call Forwarding (page 76)
Roaming (page 76)

Voicemail

Setting Up Your Voicemail

Your device automatically transfers all unanswered calls to your voicemail, even if your device is in use or turned off. You should set up your Sprint Voicemail and personal greeting as soon as your device is activated.

1. From the Home screen, tap \( \) .
2. Press and hold \( 1 \) .
3. Follow the system prompts to:
   - Create your passcode.
   - Record your name announcement.
   - Record your greeting.

Voicemail Notification

There are several ways your device alerts you to a new message:
- By sounding the assigned ringer type.
- By displaying \( \) at the top of your screen.

New Voicemail Message Alerts

When you receive a new voice message, your device alerts you and prompts you to call your voicemail.
To call your voicemail:

1. From the Home screen, tap Phone.

2. Press and hold 1.

> Note

When you are roaming off the Nationwide Sprint Network, you may not receive notification of new voicemail messages. Sprint recommends that you periodically check your voicemail by dialing 1 + area code + your wireless phone number. When your voicemail answers, press * and enter your passcode. Roaming rates apply when you access voicemail while roaming off the Nationwide Sprint Network.

Your device accepts messages even when it is turned off. However, your device notifies you of new messages only when it is turned on and you are in a Sprint service area.

Text Messaging (SMS)

With Text Messaging (SMS), you can send and receive instant text messages between your wireless device and another messaging-ready phone.

In addition, Text Messaging includes a variety of preset messages, such as “I'm running late, I'm on my way,” that make composing messages fast and easy. Use your device to customize your own preset messages (up to 160 characters).

> Note

See your service plan for applicable charges for Text Messaging and SMS Voice Messaging.

Composing Text Messages

1. Press Phone and tap > Messages.

2. On the All messages screen, tap Compose message. The Compose screen opens.

3. Enter the wireless phone number of the message recipient in the To: box. As you enter the phone number, matching contacts will appear on the screen. Tap a recipient or continue entering the recipient's phone number.
4. Tap the “Tap to compose” text box and then start composing your message.

**Note** As you near the 160-character limit, a counter will appear in the top right corner of the text box to tell you how many characters are left. Once you go over that limit, a new message is created but automatically joined into one when received.

5. When done, tap **Send** to send the text message.

**Note** To receive delivery reports and know when a text message is received, in the All messages list, press **Menu** and then tap **Settings**. In the SMS settings section, select the **Delivery reports** check box.

**Accessing Text Messages**

Depending on your notification settings, the device will play a ring tone, vibrate, or display the message briefly in the status bar when you receive a new text or picture message.

A new message icon (тикет) also appears in the notifications area of the status bar to notify you of a new text or multimedia message. The Messages application icon (if shown on the Home screen) also displays the number of new messages 📬. To open the message, refer to the next section.

**To read an SMS Text message:**

- Press 📬, press and hold the status bar, and then slide it down to open the Notifications panel. Tap the new message to open and read it.
- or –
  
  On the All messages screen, tap the text message or message thread to open and read it.

To return to the All messages screen from a text message thread, press **Menu** and tap **All messages**.
**Note**

To view the details of a particular message, in the message thread, press and hold the message to open the options menu, and tap View message details.

If a message contains a link to a Web page, tap the link to let you open the link in the browser or add the URL as a bookmark.

If a message contains a phone number, tap the message to open Dialer so you can call the number.

**To reply to a text message:**

1. On the All messages screen, tap a text message thread to open it.
2. Tap the text box at bottom of the screen, enter your reply message, and tap Send.

**Tip**

To reply to a text message with a multimedia message, open the text message, press menu and tap Add subject or Attach. The text message is automatically converted into a multimedia message.

---

**Preset Messages**

Preset messages make it easy to compose text messages.

**To add or edit preset messages:**

1. Press and tap Message > Compose message.
2. Tap the “Tap to compose” text box.
3. Press menu and tap Quick text. (You will see the list of preset messages.)
4. To add a new message, press menu and tap Insert.
5. Enter your message and tap OK.
   – or –
4. To edit a preset message, press menu and tap Edit.
5. Tap the message you want to edit, edit the message, and then tap OK.
Picture Messaging (MMS)

Picture messages, or MMS, can contain text and pictures, recorded voice, audio or video files, picture slideshows, contact cards (vCard), or appointments (vCalendar).

**Note**  The Messages application automatically converts a text message into a picture message when you enter an email address in the To: box, add a message subject, or attach a file.

**Composing Picture Messages**

1. On the All messages screen, tap Compose message. The Compose screen opens.

2. Enter the wireless phone number or email address of your message recipient in the To: box. As you enter the phone number or email address, matching contacts will appear on the screen. Tap a recipient or continue entering the recipient's phone number or email address.

**Tip**  You can add a subject line by pressing menu and then tapping Add subject.

3. Tap the “Tap to compose” text box and then start composing your message.

4. Press menu and tap Attach.

5. On the Attach window, select from the following file attachments:
   - **Picture** opens Album to let you attach a picture to your message.
   - **Video** opens Album to let you attach a video to your message.
   - **Audio** opens the Select music track screen. Tap a music file to select it and tap OK to attach the file to your message. The music file plays back when you tap it.
   - **Location** lets you attach a Footprint or location on a map.
   - **Contact (vCard)** lets you attach contact details of a contact in your device.
   - **Appointment (vCalendar)** lets you attach an appointment from Calendar.
Create lets you take a picture, record a video or audio file, or create a slideshow and then attach it to your message.

- **Camera**: Opens the camera. Take a picture of your subject and tap **Done** to attach it to your message. For more information about the camera, refer to “Taking Pictures and Shooting Videos” on page 54.

- **Record video**: Opens the camcorder. Shoot a video and tap **Done** to attach it to your message. For more information about the camcorder, refer to “Taking Pictures and Shooting Videos” on page 54.

- **Record audio**: Opens Voice Recorder. Tap to start recording your message; tap to stop recording.

- **Slideshow**: Opens the Edit slideshow screen. Tap **Add slide** to create a new slide. Tap the created slide (for example, Slide 1), tap **Insert picture**, and then select the picture you want to add to the slide. You can also navigate to the text box and enter a caption for the picture. When finished, tap **Done** to attach the slideshow to your message.

6. When you are finished composing the picture message, tap **Send**.

**Tip**
When editing multiple slides, tap to edit the next slide or tap to return to the previous slide.

While editing the slideshow, press to let you preview the slideshow, add music or video to a slide, remove a slide, and more.

**Note**
To receive delivery reports and know when a picture message is received, in the message list, press , and then tap **Settings**. Select the Delivery reports check box below the MMS settings section.
Accessing Picture Messages

To open and view a picture message:

1. On the All messages screen, tap a picture message to open it.
2. Tap the Play button at the right side of a picture message to view it.

Tip: You can save the file attachment on the picture message to the microSD card. To save, press and hold the file and tap Copy attached to SD card on the options menu.

Note: When Auto-retrieve in MMS settings is disabled, only the message header is downloaded. To download the entire message, tap the Download button at the right side of the message. Once the message has downloaded, tap the Play button to view the message.

If you are concerned about the size of your data downloads, check the picture message size before you download it.

To reply to a picture message:

1. On the All messages screen, tap a picture message to open it.
2. Tap the text box at the bottom of the screen, compose your picture message (see Composing Picture Messages), and tap Send.

Caller ID

Caller ID allows people to identify a caller before answering the device by displaying the number of the incoming call. If you do not want your number displayed when you make a call, follow these steps.

1. Press to open the Phone screen.
2. Tap .
3. Enter a phone number.
4. Tap .

To permanently block your number, call Sprint Customer Service.
Call Waiting

When you’re on a call, Call Waiting alerts you to incoming calls by sounding two beeps. Your device’s screen informs you that another call is coming in and displays the caller’s phone number (if it is available and you are in digital mode).

To respond to an incoming call while you’re on a call:

- Press . (This puts the first caller on hold and answers the second call.)

To switch back to the first caller:

- Press  again.

Tip

For those calls where you don’t want to be interrupted, you can temporarily disable Call Waiting by pressing before placing your call. Call Waiting is automatically reactivated once you end the call.

Making a 3-Way Call

With 3-Way Calling, you can talk to two people at the same time. When using this feature, the normal airtime rates will be charged for each of the two calls.

1. On the Phone screen, enter a number and tap .

2. Once you have established the connection, press , tap Add call, and dial the number of the second participant. (This puts the first caller on hold and dials the second number.)

3. When you’re connected to the second party, tap .

If one of the people you called hangs up during your call, you and the remaining caller stay connected. If you initiated the call and are the first to hang up, all callers are disconnected.

To end the three-way call, press  or tap .
Call Forwarding

Call Forwarding lets you forward all your incoming calls to another phone number – even when your device is turned off. You can continue to make calls from your device when you have activated Call Forwarding.

To activate Call Forwarding:

1. Press \( \text{ } \) to open the Phone screen.
2. Tap \( * 7 2 \) .
3. Enter the area code and phone number to which you want your calls forwarded.
4. Press \( \text{ } \) . (You will see a message and hear a tone to confirm the activation of Call Forwarding.)

To deactivate Call Forwarding:

1. Press \( \text{ } \) to open the Phone screen.
2. Tap \( * 7 2 \) .
3. Press \( \text{ } \) . (You will see a message and hear a tone to confirm the deactivation.)

Note: You are charged a higher rate for calls you have forwarded.

Roaming

Roaming Icon

Your display screen always lets you know when you’re off the Nationwide Sprint Network. Anytime you are roaming, the device displays the roaming icon (\( \text{ } \) ).

Tip
Remember, when you are using your device off the Nationwide Sprint Network, always dial numbers using 11 digits (1 + area code + number).

Roaming on Other Digital Networks

When you’re roaming on digital networks, your call quality and security will be similar to the quality you receive when making calls on the Nationwide Sprint Network. However, you may not be able to access certain features, such as data services, depending on the available network.

Note
If you’re on a call when you leave the Nationwide Sprint Network, your call is dropped. If your call is dropped in an area where you think Sprint service is available, turn your device off and on again to reconnect to the network.
Checking for Voicemail Messages While Roaming

When you are roaming off the Nationwide Sprint Network, you may not receive on-device notification of new voicemail messages. Callers can still leave messages, but you will need to periodically check your voicemail for new messages if you are in a roaming service area for an extended period of time.

1. Dial 1 + area code + your phone number.
2. When you hear your voicemail greeting, tap *.
3. Enter your passcode at the prompt and follow the voice prompts.

When you return to the Nationwide Sprint Network, voicemail notification will resume as normal.

Setting Roam Mode

Your device allows you to control your roaming capabilities. By using the Roaming menu option, you can determine which signals your device accepts.

Choose from two different settings on your dual-band phone to control your roaming experience.

2. Tap Roaming.
   - Sprint Only to access only the Sprint network and prevent roaming on other networks.
   - Automatic to seek service on the Nationwide Sprint Network. When Sprint service is unavailable, the device searches for an alternate system.

Call Guard

Your device has two ways of alerting you when you are roaming off the Nationwide Sprint Network: the onscreen roaming icon and Call Guard. Call Guard makes it easy to manage your roaming by requiring an extra step before you can place or answer a roaming call. (This additional step is not required when you make or receive calls while on the Nationwide Sprint Network.)
To turn Call Guard on or off:

1. Press > > Settings > Wireless controls > Mobile network settings.
2. Select the Call guard check box to turn on Call Guard; clear the check box to turn off Call guard.

**Note** Your device’s Call Guard is turned off by default.

Voice dialing and speed dialing are not available when you are roaming with Call Guard enabled.

To place roaming calls with Call Guard on:

1. On the Phone screen, dial 1 + area code + the seven-digit number and tap Call.
2. Select Roam Call.

To answer incoming roaming calls with Call Guard on:

1. Press . (A message will be displayed notifying you that roaming charges will apply.)
2. Tap Answer.

**Note** If the Call Guard check box is selected, you need to take extra steps to make and receive roaming calls.

---

**Data Roam Guard**

Depending on service availability and roaming agreements, your device may be able to access data services while roaming on certain digital systems. You can set your device to alert you when you are roaming off the Nationwide Sprint Network and try to use data services such as messaging.

**Note** Your device’s Data Roam Guard is turned off by default.

To set your Data Roam Guard notification:

1. Press > > Settings > Wireless controls > Mobile network settings.
2. Tap Data roaming guard.

- **Default** enables data roaming internationally. The Data Roam Guard may display a confirmation message and alert.
- **Always ask** sets your device’s Data Roam Guard feature on. You will see a prompt and will be required to respond anytime you access data services while roaming.
Never ask turns your device’s Data Roam Guard feature off. You will not be notified of your roaming status when accessing data services.

To use data services when Data Roam Guard is active:

► When a pop-up notification appears informing you that data roam charges may apply, tap Roam to connect.
Connecting Using Wi-Fi

Wi-Fi provides wireless Internet access over distances of up to 300 feet. To use your device’s Wi-Fi, you need access to a wireless access point or “hotspot.”

Turning Wi-Fi On and Connecting to a Wireless Network

1. Press \( \text{Menu} \) and tap Settings > Wireless controls.

2. Select the Wi-Fi check box to turn Wi-Fi on. The device will scan for available wireless networks.

3. Tap Wi-Fi settings. The network names and security settings (Open network or Secured with WEP) of detected Wi-Fi networks are displayed in the Wi-Fi networks section.

4. Tap a Wi-Fi network to connect. If you selected an open network, you will be automatically connected to the network. If you selected a network that is secured with WEP, enter the key, and tap Connect.

Note: The availability and range of the Wi-Fi signal depends on the number, infrastructure, and other objects through which the signal passes.
Getting Started With Data Services

With your Sprint service, you are ready to start enjoying the advantages of data services. This section will help you learn the basics of using your data services, including managing your user name, launching a data connection, and navigating the Web with your device.

Your User Name

When you buy your device and sign up for service, you're automatically assigned a user name, which is typically based on your name and a number, followed by “@sprintpcs.com.” (For example, the third John Smith to sign up for Sprint data services might have jsmith003@sprintpcs.com as his user name.)

When you use Sprint Power Vision services, your user name is submitted to identify you to the Nationwide Sprint Network. Your user name will be automatically programmed into your device. You don't have to enter it.

Finding Your User Name

If you aren't sure what your user name is, you can easily find it on your device.

- Press \( \text{Home} \) > \( \text{Menu} \), tap \( \text{Settings} > \text{About phone} > \text{Status} \), and then scroll down to \text{Current username}.

Updating Your User Name

If you choose to change your user name and select a new one online, you must then update the user name on your device.

- Press \( \text{Home} \) > \( \text{Menu} \) and tap \( \text{Settings} > \text{About phone} > \text{System updates} > \text{Update profile} \). (To cancel, press before completing the update.)
Launching a Web Connection

► Press  and tap Browser. (Your data connection starts and you see the SprintWeb™ home page.)

While connecting, you may see an animation and a “Connecting” message.

Data Connection Status and Indicators

Your device displays the current status of your data connection through indicators at the top of the screen. The following symbols are used:

![EVDO indicator] Your device is connected to the high-speed Sprint Mobile Broadband Network (EVDO). When the arrows are white, your device is transferring data (for example, when you are opening a Web page); when the triangles are gray, your device is connected to the network but is not currently transferring data (for example, when you are viewing a Web page that is completely open). In either state, you can receive incoming calls.

![1xRTT indicator] Your device is on and is connected to the Sprint 1xRTT data network. When the arrows are white, your device is transferring data (for example, when you are opening a Web page) and you cannot receive calls. When the arrows are gray, your device is connected to the network but is not currently transferring data (for example, when you are viewing a Web page that is completely open), and you can receive calls.

If you do not see an indicator, your device does not have a current data connection. To launch a connection, see “Launching a Web Connection” on page 82.

Using the Browser

Open the browser to start surfing the Web. The browser is fully optimized and comes with advanced features that let you enjoy Internet browsing on your device.

Opening the Browser

► Press  and tap Browser.

– or –

Press  and tap >Browser.
Going to a Website

1. On the browser screen, press menu and tap the URL box on top of the screen.

2. Enter the website address using the keyboard. As you enter the address, matching website addresses will appear on the screen. Tap an address to go directly to that website or continue entering the website address.

3. Tap go on the onscreen keyboard.

Setting Your Home Page

1. With the browser open, press menu, and then tap More > Settings > Set home page.

2. In the Set home page screen, select the home page you want to use.
   - Use default to set the SprintWeb℠ home page as your home page.
   - Use current to set the current Web page you are browsing as your home page.
   - Set home page to enter the URL of the website you want to use as your home page.

Changing the Screen Orientation

The device automatically changes the screen orientation depending on how you are holding your device.

Note

The Orientation check box in Settings > Sound & display needs to be selected for the screen orientation to automatically change.

Browsing Classic Views (not Mobile Version) of Websites

- On the browser screen, press menu, tap More > Settings, and clear the Mobile view check box.

Navigating on a Web Page

- Roll the trackball or slide your finger on the screen in any direction to navigate and view other areas of the Web page.
**Zooming In or Out on a Web Page**

- Tap the screen twice quickly to zoom in; tap the screen twice quickly again to zoom out.
  - or –
  Pinch or spread the screen to zoom in and out.

**Opening a New Browser Window**

Open multiple browser windows to make it easier for you to switch from one website to another. You can open up to four browser windows.

1. On the browser screen, press `menu` and then tap **Windows**.
2. Tap `+`. A new browser window opens and goes to the home page that is set.

**Switching between Browser windows**

1. On the browser screen, press `menu` and then tap **Windows**.
2. Select the browser window you want to view by sliding your finger on the screen from right to left.
3. Tap the browser window to open it in full-screen mode.

**Managing Bookmarks**

You can store as many bookmarks as you want on your device.

*To bookmark a website:*

1. On the browser screen, go to the website you want to bookmark.

3. Edit **Name** if needed and then tap **Done**.

**To open a bookmark:**

1. On the browser screen, press [menu] and tap **Bookmarks**.

2. Select the bookmark you want to open by sliding your finger from right to left.

3. Once the bookmark you want to open is selected, tap it to open it.

By default, a snapshot of the bookmarked website is shown, letting you visually select the bookmark. You can toggle between using visual bookmarks or a list by pressing [menu] and then tapping **List** or **Thumbnails** on the Bookmarks screen.

**To edit a bookmark:**

1. On the browser screen, press [menu] and tap **Bookmarks**.

2. Press [menu] and tap **Edit**.

3. Select the bookmark you want to edit by sliding your finger from right to left (in **Thumbnail** view.)

4. Once the bookmark you want to edit is selected, tap it.

5. Enter your changes and tap **Done**.

---

**Tip**

If you are using the **List** view, press and hold the bookmark you want to edit and tap **Edit bookmark** to edit the bookmark.

---

**The Browser Menu**

Although the home page offers a broad and convenient array of sites and services for you to browse, not all sites are represented, and certain functions, such as going directly to specific websites, are not available. For these and other functions, you will need to use the browser menu. The browser menu offers additional options to expand your use of the Web on your device.

**Opening the Browser Menu**

The browser menu may be opened anytime you have an active data session, from any page you are viewing.
To open the browser menu:

- Press \( \text{menu} \). (You will see the browser menu.)

Options available under the browser menu include:

- **Back**. Returns you to a previously viewed page (after having tapped **Forward**).
- **Forward**. Returns you to a previously viewed page (after having tapped **Back**).
- **New bookmark**. Allows you to bookmark the current site.
- **Bookmarks**. Allows you to access and manage your bookmarks.
- **Windows**. Allows you to open additional browser windows.
- **More >**
  - **Find on page**. Allows you to find specific text on a Web page.
  - **Copy text**. Allows you to copy text.
  - **Page info**. Lets you display the information about the website.
  - **Share page**. Lets you send the website URL using email, Messages, or Peep.
- **Downloads**. Lets you view applications that you have downloaded from the Web.
- **History**. Keeps a list of links to your most recently visited sites. To navigate to a site, touch a site.
- **Settings**. Opens the browser settings.

### Accessing Messages

You can send and receive email messages, Google Talk™ instant messages, and text messages right from your device. Messaging allows you to stay connected 24 hours a day anywhere on the Nationwide Sprint Network.

### Email

Your device's Mail application lets you access and manage multiple email accounts simultaneously in one convenient location.

#### Adding a POP3/IMAP email account

1. Press \( \text{home} \) and tap \( \text{Messages} \) > Mail.
2. On the Choose a mail provider screen, tap **Other** (POP3/IMAP).

**Important** If the account type you want to set up is not in the device database, you will be asked to enter more details. It is recommended that you get all pertinent information for the email account such as incoming and outgoing server settings before you proceed.

3. Enter the **Email address** and **Password** for the email account and then tap **Next**.

4. Enter the **Account name** and **Your name** and tap **Finish setup**.

### Adding a Microsoft Exchange ActiveSync account

You can only add one Microsoft Exchange ActiveSync account on your device.

**Important** You can sync with a Microsoft Exchange Server 2003 Service Pack 2 (SP2) or Microsoft Exchange Server 2007.

1. Press `Menu` > `Mail`.
2. On the Choose a mail provider screen, tap **Microsoft Exchange ActiveSync**.

3. Enter the Exchange ActiveSync account details and then tap **Next**.

**Note** Your corporate Exchange Server must support auto-detect for the device to automatically set up the Exchange ActiveSync account. If your corporate Exchange Server does not support auto-detect, you will need to enter your Exchange Server settings after you tap Next. Ask your Exchange Server administrator for details.

4. Select the type of information you want to synchronize and tap **Finish setup**.

### Synchronizing Exchange ActiveSync email

You can set Exchange ActiveSync to automatically check for new Exchange ActiveSync emails.

1. Press `Menu` and tap **Settings** > **Data synchronization** > **Exchange ActiveSync**.
2. Tap **Schedule** and then tap the time interval you want to use to check for new emails.

**Tip** On the Exchange ActiveSync screen, tap **Sync now** at the bottom of the screen to manually check for new emails.
Changing Exchange ActiveSync settings

1. Press \( \text{menu}\) and tap \textit{Settings} > \textit{Data synchronization} > \textit{Exchange ActiveSync}.
2. Press \( \text{menu}\) and tap \textit{Settings}.
3. Change the general settings and mail and calendar settings according to your preference.
4. Press \( \text{back}\) after you are done.

Composing and sending email

1. Press \( \text{home}\) and tap \( \text{Mail}\).
2. On the email account Inbox, press \( \text{menu}\) and tap \textit{Compose}.
3. Enter the message recipient's email address in the \textit{To:} box. As you enter information, matching contacts will appear on the screen. Tap the recipient or continue entering the email address. If you are sending the email to several recipients, separate the email addresses with a comma. You can add as many message recipients as you want.
4. Enter the subject, compose your message, and then tap \textit{Send}. (You may need to scroll down the screen to see \textit{Send}.)

Viewing and replying to email

1. Press \( \text{home}\) and tap \( \text{Mail}\).
2. On the email account Inbox, tap the message you want to view.
3. Tap \textit{Reply} or \textit{Reply all} to reply to the message.

For an Exchange ActiveSync account, you can flag email messages to help you keep track of them.

---

Tip: If you want to send a carbon copy (Cc) or a blind carbon copy (Bcc) of the email to other recipients, press \( \text{menu}\) and tap \textit{Add recipient} > Cc or Bcc.

Tip: If you have set up an Exchange ActiveSync account, press \( \text{menu}\) and tap \textit{Add recipient} > To > Company directory to let you add recipients from the Exchange ActiveSync account contacts.

Tip: Tap \( \text{home}\) on the upper-right corner to switch to a different email account.

Tip: Tap \( \text{home}\) on the upper-right corner to switch to a different email account.
To mark an email message while viewing it, tap the white flag ( ) on the upper-right corner of the screen. The flag turns red ( ) when you mark the message.

Managing email on your external email account

To delete an email message:

1. On the email account Inbox, press and hold the message you want to delete.
2. On the options menu, tap Delete. When prompted to confirm deletion, tap OK.

To delete multiple messages:

1. On the email account Inbox, press menu and tap Delete.
2. Tap the messages you want to delete and tap Delete.

Gmail

Gmail is Google's Web-based email service. Gmail is configured if you chose to set up a Google account when you first set up your device. Depending on your synchronization settings, your device's Gmail is automatically synchronized with your Gmail account on the Web.

To open Gmail:

Press and tap > Gmail. The Inbox conversations list (hereinafter referred to as Inbox) is your default Gmail view. All your incoming email is delivered to your Inbox.
1. Displays the folder name (or Label) and number of unread email messages.

2. **Checked email.** Select one or more emails to apply an action. Batch operations need to be selected.

3. Unread messages are displayed in bold.

4. **Starred email.** Tap to add or remove the star.

5. Message label.

6. Displays actions available for checked email. This will not show if there is no email selected in the inbox.

**To refresh Gmail:**
- Press \(\text{menu}\) and tap **Refresh** to send or receive new email messages and to synchronize your email with your Gmail account on the Web.

**Creating and sending email**

**To create and send an email message:**

1. In the Inbox, press \(\text{menu}\) and tap **Compose**.

2. Enter the message recipient's email address in the **To:** box. If you are sending the message to several recipients, separate the email addresses with a comma. You can add as many message recipients as you want.

**Note** If you want to send a carbon copy (Cc) or a blind carbon copy (Bcc) of the email to other recipients, press \(\text{menu}\) and tap **Add Cc/Bcc**.

3. Enter the email subject and compose your message.

**Tip** If you want to add a picture attachment, press \(\text{menu}\) and tap **Attach**. Select the picture you want to attach and tap **OK**.

4. After composing your email, tap **Send**.

**Note** While composing the email, tap **Save as draft** or press the \(\text{button}\) to save email as a draft. To view your draft email messages, in the Inbox, press \(\text{menu}\) and tap **View labels > Drafts**.

**To add a signature to an email message:**

1. In the Inbox, press \(\text{menu}\) and tap **Settings > Signature**.

2. Enter your signature in the text box and tap **OK**.
Tip
You can create a signature consisting of multiple lines of text. At the end of each line of text, tap " on the onscreen keyboard to create another line.

To view your sent messages:

► In the Inbox, press Menu and tap View labels > Sent.

Receiving and reading email

Depending on your notification settings, the device plays a ring tone, vibrates, or displays the email message briefly in the status bar when you receive a new email. A new email message (✉️) icon also appears on the notifications area of the status bar to notify you of a new email message.

Gmail groups each message you send with all the responses you receive. This conversation list continues to grow as new replies arrive, so you can always see your messages in context. Conversations are also referred to as message threads. A new message or a change to the subject of a current message will begin a new thread.

To view email:

► Press Home, press and hold the status bar, and slide down your finger on the screen to open the Notifications panel. Tap the new email message to view it.

– or –

While in the Inbox, tap the unread email or the conversation with the unread email message to view it.

Online status. Appears when the contact is a Google Talk friend and you are signed in to Google Talk.
To search for email messages:

You can search for a specific email message by sender, word in a subject, or label.

1. In the Inbox, press □ and tap Search.
2. Enter the search keyword in the box, and tap Search.

Accessing Sprint Instant Messaging

Sprint provides you with access to popular instant messaging (IM) communities, including AOL® Instant Messenger™, MSN® Messenger, and Yahoo!® Messenger.

1. To launch Sprint Instant Messaging, press □ and tap > IM.
2. Tap a community: AIM, Windows Live Messenger, or Yahoo! Messenger.
3. Enter the required sign-in information for the selected community, such as user name or password, and then tap Sign In.

Note: The information required to sign in will vary depending on the instant messaging community you are accessing.

The instant messaging screen for your selected community will then be displayed, and you can start chatting online with your friends or family.
**Downloading Applications and Games From Android Market**

Android Market provides direct access to useful applications and fun games which you can download and install on your device. Android Market also allows you to send feedback and comments about an application, or flag an application that you find objectionable or incompatible with your device.

**Opening Android Market**

1. Press and tap >Market. (You may need to scroll down the screen to see the icon.)

2. When you open Android Market for the first time, the Terms of Service window will appear. Tap Accept to continue.

**Getting help**

If you ever need help or have questions about Android Market, press menu and tap Help. The browser will take you to the Android Market Help Web page.

**Finding Applications**

The Android Market home page provides several ways to find applications. It showcases featured applications and includes a list of item applications by category, a list of games, a search link, and a link to your downloads.

Scroll horizontally through the featured items or select a category to browse its contents, and then select a subcategory. Within each subcategory you can select to view items sorted By popularity or By date. Tap the tab to sort by popularity or date.
Installing and Opening an Application

1. Navigate to the item you want to download, and select it.

2. In the item details screen, read more about the application, including its overall rating, and comments by users. If you scroll down to the About the developer section, you can view more applications by this developer, visit the developer's website, and send the developer an email message.

3. On any application details screen, tap Install.

Note: All items in a subcategory are listed in each tab; those in the By popularity tab are sorted from most popular to least popular, and those in the By date tab are sorted from newest to oldest.

Important: Press menu and select Security permissions to view the functions and data this item can access on your device.

Scroll down to view more of this developer's applications or to email the developer.

More info about item.

User comments about item.

Press and hold a comment to let you report a comment as spam.
4. To check the progress of the download, open the Notifications panel. Most applications are installed within seconds. If you want to stop downloading the item, tap **Cancel download**.

5. After the item is downloaded and installed on your device, the content download icon ( ) appears in the notification area of the status bar.

6. On the Android Market screen, tap **My downloads**.

7. Tap the installed application in the list, and then tap **Open**.

**Tip** You can also find the icon of the installed application on the All programs screen.

---

**Important**

If the application requires either access to any of your data or control of any of the device’s functions, Market tells you what the application can access.

Be especially cautious with applications that have access to many functions or a significant amount of your data. Once you tap **OK** on this screen, you are responsible for the results of using this item on your device. Tap **OK** if you agree to the conditions of the application.

---

**Peep**

Peep™ is a Twitter client that lets you enjoy “twittering” on your device. Send out tweets, read and receive tweets from people, search for new Twitter users to follow, all from your device.

**Note** You need to be signed in to your Twitter account to use Peep.

---

**Opening Peep**

- Press  and tap , and then tap **Peep**. (You may need to scroll down the screen to see the icon.) Peep opens in the **All Tweets** tab. Slide your finger on the bottom row to go to the tab you want.
1. Tap to view the Twitter user’s profile. This also shows you all tweets from this Twitter user.

2. Slide your finger to select whether to show All Tweets, Replies, Direct Message, or Favorites.

3. Tap to enter a tweet to send out.

4. Press and hold an item to open the options menu to let you reply, send a direct message, Retweet (share), add to your favorites, or view your profile.

---

### Sending a Tweet

1. On the All Tweets tab, tap the “What are you doing?” text box.

2. Enter your tweet and then tap Update.

---

1. Tap to post a picture from Albums or camera to your default photo hosting site and add the link to the picture into the tweet.

2. Enter your tweet here.

3. Tap to insert your location into the tweet. You can choose to add map link, insert your location name, or insert your position coordinates.
On the Peep screen, press \( \text{menu} \) and tap \textit{Settings > Services} to check or change your photo hosting site, location options, and URL shortening host.

\section*{Sending a Direct Message}

- On the Peep screen, press \( \text{menu} \) and tap \textit{New message}.
- or –

On the \textit{All Tweets} or \textit{Direct Message} tab, press and hold the person you want to send the direct message to, and tap \textit{Send direct message} on the options menu.

To view your direct messages, go to the \textit{Direct Message} tab.

\section*{Searching for Twitter Users to Follow}

1. While on the Peep screen, press \( \text{menu} \).
2. Tap the text box with the words “Twitter Search” and then enter search criteria. Press \( \text{menu} \) again or tap \textit{Search} on the screen.
3. On the Search result screen, scroll through the list to look for the twitter user you want to follow.

4. Press and hold the user name of the Twitter user you want to follow and then on the options menu, tap \textit{Show profile > Follow}.

\textbf{To stop following a Twitter user:}

1. On the \textit{All Tweets} tab, press and hold the Twitter user you want to stop following.
2. On the options menu, tap \textit{Show profile > Unfollow}.

\section*{Weather}

Weather lets you view the current weather as well as weather information for the next four days of the week. Weather can display weather information for your city or weather for up to ten cities.

\section*{Opening Weather}

- Press \( \text{Home} \) and tap \( \text{Apps} \), and then tap \textit{Weather}. (You may need to scroll down the screen to see the icon.)
To view the weather in other cities, swipe your finger upward or downward on the screen.

Adding a City

1. On the Weather screen, tap +.

2. Enter the location you want to add on the text box. As you enter letter, the list is filtered to show the possible locations based on the letters you entered.

   Tip: To add the weather information of your current location, tap My location. Location sources in Settings need to be enabled to determine your location.

3. Tap the city to select it.
Sprint TV gives you the ability to listen to audio clips and to view video clips right from your device’s display. Watch live TV and catch up on episodes of your favorite shows – anywhere on the Nationwide Sprint Network.

Amazon MP3 lets you preview, purchase, download, and listen to over a million songs right on your device.

**Watching TV**

1. Press 🏛️ and tap ☰ >Sprint TV.
2. Select TV, Favorites, or More to display channel options.
3. Tap a channel from the Sprint TV listings or to select an available category.

**Note** The first time you access a channel, the system will prompt you to purchase access (unless the channel doesn't have a monthly fee). Select Subscribe to purchase access, or select Preview to view a preview of the selected channel.

4. If applicable, highlight a clip and press the trackball to view the program. The clip will automatically load and begin playing.
Music - Amazon MP3

Amazon MP3 provides you with one-touch access to digital music from www.amazon.com. Amazon has more than 6 million DRM-free MP3 tracks you can purchase and download to your device.

Accessing Amazon MP3

- Press and tap > Amazon MP3.

Purchasing and Downloading Music

Now that you’re in the store, you can shop for songs to purchase and download to your device’s microSD card.

1. From the Amazon MP3 opening page, select an option to browse the store:
   - **Top 100 Albums** displays the top 100 albums on Amazon.
   - **Top 100 Songs** displays the top 100 songs on Amazon.
   - **Browse by Genre** lets you search songs or albums by musical genres.
   - **Search** gives you the option of searching for specific songs, albums, or artists. Just use the onscreen keyboard to enter your search criteria in the available box and tap .

2. Tap the price at the right side of the album or song to purchase it.

3. Tap Buy. (If there is no microSD card installed or if there is not enough free memory space on the card, you will see an alert.)
4. Enter your Amazon.com account e-mail address and Password, and tap OK.

**Tip**

While viewing a song list, preview the song by tapping the song name in the list.

While viewing an album list, tap an album to display the songs included in the album. You can purchase individual songs in an album.

**Streaming Music**

In addition to the Amazon MP3, Sprint offers a variety of musical options through the Radio category in the Sprint TV menu, including SIRIUS Music, Music Choice, VH1, and many others. Choose from rock, pop, hip-hop, and R&B, and access exclusive video clips, music industry news, performances, and interviews with your favorite artists.

1. Press and tap > Sprint TV.
2. Select Radio to display channel options.
3. Tap a channel from the Sprint TV listings or to select an available category.

4. Select Preview to see and hear a preview of your selected channel (if available).

– or –

Select Subscribe to purchase a monthly subscription to your selected channel.

Once you have purchased access to a music or radio channel, you can select from a variety of stations to listen to your favorite music or get caught up on what’s new in music.

**NASCAR Sprint Cup Mobile**

**NASCAR Sprint Cup Mobile** keeps all NASCAR related information in one convenient location on your device and enables you to personalize the content with your favorite driver. When you are away from the track, you can follow races using streaming MRN/PRN race broadcast coverage and in-car audio. NASCAR Sprint Cup Mobile delivers real-time, race-day statistics and telemetry from all 43 NASCAR Sprint Cup Series™ drivers and offers video on demand from NASCAR.COM, SPEED and more.
Using NASCAR Sprint Cup Mobile for the First Time

When you open NASCAR Sprint Cup Mobile for the first time, it will prompt you to specify your favorite NASCAR driver.

1. Press ![home button] and tap ![NASCAR Sprint Cup Mobile](You may need to scroll down the screen to see the icon.)

2. On the welcome screen, tap the **Car# or Driver name** box. On the subsequent screen, enter your favorite NASCAR car number or driver name and then tap **OK**. Tap **Go** to continue.

   – or –

   You can also tap **Select from a list** and then tap a NASCAR driver.

3. A message is then displayed, confirming whether to add your favorite NASCAR driver to your **My Drivers** list. Tap **YES** to add.

4. If there are subsequent screens that are displayed, read the messages on the screens and select your preferences. Tap **OK** to proceed to the NASCAR Home screen.

The NASCAR Sprint Cup Mobile Home Screen

Whenever you open NASCAR Sprint Cup Mobile, the NASCAR Home screen will be displayed, showing your favorite NASCAR driver banner with statistics. Swipe your finger upward to scroll down the screen and browse through more content.

1. **Driver banner**: Shows your favorite NASCAR driver with key statistics. Tap the banner to view the driver profile.

2. **Drawer**: Information on the NASCAR Home screen is organized into several drawers. When a drawer is open, it shows a down arrow at the right side of
the drawer. Tap to close the drawer. To view information in another drawer, tap the drawer to open it.

3. **Ticker.** Shows breaking news ticker.

**Note** The NASCAR Home screen looks different on race days and non-race days below the driver banner.

### The Menu Bar

Press `menu` to display the Menu Bar and access more features of the NASCAR Sprint Cup Mobile.

#### Navigating the Menu Bar

1. Drag your finger left or right across the Menu Bar to scroll through the available feature.

2. Tap an icon to select it and display the corresponding information.

---

**NFL Mobile Live**

**NFL Mobile Live** keeps you up to date on all NFL (National Football League) games and information while you are on the go. Using NFL Mobile Live, you can watch and listen to live video, hear the latest scores, get alerts, and customize the program to track your favorite team.

**Note** While using this program, incoming calls may go directly to voicemail.

### Using NFL Mobile Live for the First Time

When you open NFL Mobile Live for the first time, it will prompt you to choose your favorite NFL team.

1. Press `>` and tap `NFL Mobile`. (You may need to scroll down the screen to see the icon.)

2. On the startup screen, tap **Continue**.

3. On the subsequent screens, choose your favorite NFL team, and then tap **OK**.

---

2C. Entertainment: TV and Music 103
The NFL Central Screen

Whenever you open NFL Mobile Live, the NFL Central screen will be displayed, providing listings of league-wide news, top videos and articles, access to NFL blogs, and more. Swipe your finger upward to scroll down the screen and browse through more content.

Information on the NFL Central screen is organized into several drawers. Tap a drawer, for instance, *Around the NFL*, to close it. To view information in another drawer, tap the drawer to open it.

The Menu Bar

Press `menu` to display the Menu Bar and access more features of the NFL Mobile Live.
GPS Services

Your device’s built-in GPS capability gives you access to a number of location-based services.

**Activating Location Mode**

Before using any of the location-based services, you must turn on your device’s location mode.

1. Press \( \text{Home} \) > menu, tap **Settings**, and then select the **Location Settings** check box. (You will see the Location disclaimer.)
2. Read the disclaimer and tap **OK**.

**Sprint Navigation**

Sprint Navigation gives you turn-by-turn directions onscreen and over speakerphone.

**Registering Sprint Navigation**

Before you can use Sprint Navigation, your device and service must be registered.

1. Press \( \text{Home} \) and tap \( \text{Settings} \) > **Sprint Navigation**.
2. Follow the onscreen instructions to enter and submit the required information.

**Using Sprint Navigation**

1. Press \( \text{Home} \) and tap \( \text{Settings} \) > **Sprint Navigation**.
2. Select an option and follow the onscreen instructions to get directions or view maps.
   - **Drive To** lets you enter an address (vocally or using the keypad) or select from categories such as My
Favorites, Recent Places, or Businesses to search for turn-by-turn directions.

- **Search** provides a categorized list of locations such as Gas Stations, Grocery Stores, and Hospitals to help find local businesses and services.

- **Maps & Traffic** lets you view maps and get traffic information for your current location or for any other location (same categories as Drive To).

- **Share & More** provides access to additional services such as Record Location, Product Tour, and Preferences.

**Note** For more information about Sprint Navigation, visit [www.sprint.com/navigation](http://www.sprint.com/navigation).
3A. Important Safety Information

- Important Health Information and Safety Precautions (page 108)
- General Precautions (page 112)
- Additional Safety Information (page 114)

This Basics Guide contains important operational and safety information that will help you safely use your device. Failure to read and follow the information provided in this guide may result in serious bodily injury, death, or property damage.

Important Health Information and Safety Precautions

When using this product, the safety precautions below must be taken to avoid possible legal liabilities and damages.

Retain and follow all product safety and operating instructions. Observe all warnings in the operating instructions on the product.

To reduce the risk of bodily injury, electric shock, fire, and damage to the equipment, observe the following precautions.

**Electrical Safety**

This product is intended for use when supplied with power from the designated battery or power supply unit. Other usage may be dangerous and will invalidate any approval given to this product.

**Safety Precautions for Proper Grounding Installation**

CAUTION: Connecting to an improperly grounded equipment can result in an electric shock to your device.

This product equipped with a USB Cable for connecting with desktop or notebook computer. Be sure your computer is properly grounded (earthed) before connecting this product to the computer. The power supply cord of a desktop or notebook computer
has an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet which is properly installed and grounded in accordance with all local codes and ordinances.

**Safety Precautions for Power Supply Unit**

- **Use the correct external power source.** A product should be operated only from the type of power source indicated on the electrical ratings label. If you are not sure of the type of power source required, consult your authorized service provider or local power company. For a product that operates from battery power or other sources, refer to the operating instructions that are included with the product. This product should be operated only with the following designated power supply unit(s):
  - AC Adapter: HTC, Model TC P300
- **Handle battery packs carefully.** This product contains a Li-ion battery. There is a risk of fire and burns if the battery pack is handled improperly. Do not attempt to open or service the battery pack. Do not disassemble, crush, puncture, short external contacts or circuits, dispose of in fire or water, or expose a battery pack to temperatures higher than 140° F (60° C).

  **WARNING**
  Danger of explosion if battery is incorrectly replaced. To reduce risk of fire or burns, do not disassemble, crush, puncture, short external contacts, expose to temperature above 60° C (140° F), or dispose of in fire or water. Replace only with specified batteries. Recycle or dispose of used batteries according to the local regulations or reference guide supplied with your product.

- **Take extra precautions:**
  - Keep the battery or device dry and away from water or any liquid as it may cause a short circuit.

  **Note**
  This product should be operated only with the following designated Battery Pack:
  HTC, Model RHOD160
Keep metal objects away so they don’t come in contact with the battery or its connectors as it may lead to short circuit during operation.

The phone should be only connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.

Do not use a battery that appears damaged, deformed, or discolored, or the one that has any rust on its casing, overheats, or emits a foul odor.

Always keep the battery out of the reach of babies and small children, to avoid swallowing of the battery. Consult the doctor immediately if the battery is swallowed.

Only use the battery with a charging system that has been qualified with the system per this standard, IEEE-Std-1725-2006. Use of an unqualified battery or charger may present a risk of fire, explosion, leakage or other hazard.

Replace the battery only with another battery that has been qualified with the system per this standard, IEEE-Std-1725-2006. Use of an unqualified battery may present a risk of fire, explosion, leakage or other hazard.

Avoid dropping the phone or battery. If the phone or battery is dropped, especially on a hard surface, and the user suspects damage, take it to a service center for inspection.

If the battery leaks:

- Do not allow the leaking fluid to come in contact with skin or clothing. If already in contact, flush the affected area immediately with clean water and seek medical advice.
- Do not allow the leaking fluid to come in contact with eyes. If already in contact, DO NOT rub; rinse with clean water immediately and seek medical advice.
- Take extra precautions to keep a leaking battery away from fire as there is a danger of ignition or explosion.

**Safety Precautions for Direct Sunlight**

Keep this product away from excessive moisture and extreme temperatures. Do not leave the product or its battery inside a vehicle or in places where the temperature may exceed 140°F (60°C), such as on a car dashboard, window sill, or behind a glass that is exposed to direct sunlight or strong ultraviolet light for
extended periods of time. This may damage the product, overheat the battery, or pose a risk to the vehicle.

**Prevention of Hearing Loss**

**CAUTION:** Permanent hearing loss may occur if earphones or headphones are used at high volume for prolonged periods of time.

**Road Safety**

Vehicle drivers in motion are not permitted to use telephony services with handheld devices, except in the case of emergency. In some countries, using hands-free devices as an alternative is allowed.

**Safety Precautions for RF Exposure**

- Avoid using your phone near metal structures (for example, the steel frame of a building).
- Avoid using your phone near strong electromagnetic sources, such as microwave ovens, sound speakers, TV and radio.
- Use only original manufacturer-approved accessories, or accessories that do not contain any metal.

- Use of non-original manufacturer-approved accessories may violate your local RF exposure guidelines and should be avoided.

**Interference with Medical Equipment Functions**

This product may cause medical equipment to malfunction. The use of this device is forbidden in most hospitals and medical clinics.

If you use any other personal medical device, consult the manufacturer of your device to determine if they are adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information.

Turn your phone OFF in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

**Nonionizing Radiation**

Your device has an internal antenna. This product should be operated in its normal-use position to ensure
the radiative performance and safety of the interference. As with other mobile radio transmitting equipment, users are advised that for satisfactory operation of the equipment and for the safety of personnel, it is recommended that no part of the human body be allowed to come too close to the antenna during operation of the equipment.

Use only the supplied integral antenna. Use of unauthorized or modified antennas may impair call quality and damage the phone, causing loss of performance and SAR levels exceeding the recommended limits as well as result in non-compliance with local regulatory requirements in your country.

To assure optimal phone performance and ensure human exposure to RF energy is within the guidelines set forth in the relevant standards, always use your device only in its normal-use position. Contact with the antenna area may impair call quality and cause your device to operate at a higher power level than needed. Avoiding contact with the antenna area when the phone is IN USE optimizes the antenna performance and the battery life.

General Precautions

- **Avoid applying excessive pressure to the device.** Do not apply excessive pressure on the screen and the device to prevent damaging them and remove the device from your pants’ pocket before sitting down. It is also recommended that you store the device in a protective case and only use the device stylus or your finger when interacting with the touch screen. Cracked display screens due to improper handling are not covered by the warranty.
• **Heed service markings.** Except as explained elsewhere in the Operating or Service documentation, do not service any product yourself. Service needed on components inside the device should be done by an authorized service technician or provider.

• **Damage requiring service.** Unplug the product from the electrical outlet and refer servicing to an authorized service technician or provider under the following conditions:
  - Liquid has been spilled or an object has fallen into the product.
  - The product has been exposed to rain or water.
  - The product has been dropped or damaged.
  - There are noticeable signs of overheating.
  - The product does not operate normally when you follow the operating instructions.

• **Avoid hot areas.** The product should be placed away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

• **Avoid wet areas.** Never use the product in a wet location.

• **Avoid using your device after a dramatic change in temperature.** When you move your device between environments with very different temperature or humidity ranges, condensation may form on or within the device. To avoid damaging the device, allow sufficient time for the moisture to evaporate before using the device.

| NOTICE | When taking the device from low-temperature conditions into a warmer environment or from high-temperature conditions into a cooler environment, allow the device to acclimate to room temperature before turning on power. |

• **Avoid pushing objects into product.** Never push objects of any kind into cabinet slots or other openings in the product. Slots and openings are provided for ventilation. These openings must not be blocked or covered.

• **Mounting accessories.** Do not use the product on an unstable table, cart, stand, tripod, or bracket. Any mounting of the product should follow the manufacturer’s instructions, and should use a mounting accessory recommended by the manufacturer.
Avoid unstable mounting. Do not place the product with an unstable base.

Use product with approved equipment. This product should be used only with personal computers and options identified as suitable for use with your equipment.

Adjust the volume. Turn down the volume before using headphones or other audio devices.

Cleaning. Unplug the product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning, but NEVER use water to clean the LCD screen.

Additional Safety Information

Do Not Use the PC Functions of Your Device While Driving or Walking

Never use the personal computer functions of your device while driving an automobile or any other moving vehicle. Always pull out of traffic and come to a stop in a legally permissible and safe location before using your device. Failure to do so could result in serious bodily injury in a traffic accident.

When driving:

- Always secure your device in its leather pouch.
- Never place your device on the passenger seat or anyplace else in the car where it can become a projectile during a collision or stop.
- An air bag inflates with great force. DO NOT place objects, including either installed or portable wireless equipment, in the area over the air bag or in the air bag deployment area. If in-vehicle wireless equipment is improperly installed and the air bag inflates, serious injury could result.

Never store or transport flammable liquids, gases or explosive materials in the same compartment of your automobile as the device or any of its accessories, as possible sparking in the device could cause ignition or explosion.

Never use your device while walking. Usage while walking could result in bodily injury caused by inattention to automobile traffic or other pedestrian hazards.
Using The Phone While Driving Is Extremely Dangerous

Talking on or using your device while driving is extremely dangerous and is illegal in some states. Remember, safety comes first. Check the laws and regulations on the use of phones in the areas where you drive. Always obey them.

If you must use the phone function while driving, please:

- Give full attention to driving. Driving safely is your first responsibility.
- Use hands-free operation or one-touch, speed dialing, and auto answer modes.
- Pull off the road and park before making or answering a call.

**WARNING**

Failure to follow these instructions could lead to serious personal injury and possible property damage.

When Using Your Device Near Other Electronic Devices

Your wireless handheld portable device is a low power radio transmitter and receiver. When it is ON, it receives and also sends out radio frequency (RF) signals.

Most modern electronic equipment is shielded from RF energy. However, certain electronic equipment may not be shielded against the RF signals from your wireless device; therefore, use of your device must be restricted in certain situations.

In addition, the computer portion of your device produces low levels of RF energy due to the generation of digital timing pulses by its clock oscillator circuits. Your device has been equipped with internal shielding to minimize stray emissions of RF energy. However, use of the computer functions of your device must be restricted in certain situations.

Hearing Aids

Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your service provider, or call the customer service line to discuss alternatives.
Electronic Devices in Vehicles

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle. You should also consult the manufacturer of any equipment that has been added to your vehicle.

Posted Facilities

Turn your device OFF where posted notices so require.

Turn Off Your Device Before Flying

Aircraft

FCC regulations prohibit using the transmitting and phone functions of your device while in the air. In addition, most airline regulations prohibit the on-board use of portable PCs (and all other portable electronic devices that could potentially emit stray RF energy), particularly during take-offs and landings, to prevent any possible interference with the reception of signals by airborne electronic navigational devices.

Turn your device OFF before boarding an aircraft. Always request and obtain prior consent and approval of an authorized airline representative before using your device aboard an aircraft. Always follow the instructions of the airline representative whenever using your device aboard an aircraft, to prevent any possible interference with airborne electronic equipment.

Turn Off Your Device in Dangerous Areas

Blasting Areas

To avoid interfering with blasting operations, turn your device OFF when in a “blasting area” or in areas posted “Turn off two-way radio.” Obey all signs and instructions.

Potentially Explosive Atmospheres

Turn your device OFF when in any area with a potentially explosive atmosphere and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Areas with a potentially explosive atmosphere are often, but not always, clearly marked. They include fueling areas such as gas stations; below deck on boats; fuel
or chemical transfer or storage facilities; vehicles using liquefied petroleum gas (such as propane or butane); areas where the air contains chemicals or articles, such as grain, dust, or metal powders; and any other area where you would normally be advised to turn off your vehicle's engine.

**General Safety and Other Precautions**

Your device is a high quality piece of equipment. Before operating, read all instructions and cautionary markings on the product, battery and AC phone charger.

Failure to follow the directions below could result in serious bodily injury or property damage due to battery liquid leakage, fire or rupture.

DO NOT use or store this equipment in a place where it will be exposed to high temperatures, such as near an open flame or heat-emitting equipment.

DO NOT drop your device or subject it to severe shock. When not using, lay down the unit to avoid possible damage due to instability.

DO NOT expose this equipment to rain or spilled beverages.

DO NOT use unauthorized accessories.

DO NOT disassemble the device or its accessories. If service or repair is required, return unit to an authorized Sprint cellular service center. If the unit is disassembled, the risk of electric shock or fire may result.

Never allow metallic objects, such as staples and paper clips, to get into the inside of your device.

Never touch the liquid that might leak from a broken liquid crystal display. Contact with this liquid could cause a skin rash. If the crystal display liquid should come into contact with the skin or clothing, wash it immediately with clean water.

In the event that the device emits an unusual odor or sound or generates smoke, immediately disconnect the AC phone charger from the power outlet, and then detach the battery.
**Antenna Safety**

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could impair call quality, damage your device, or result in violation of FCC regulations. Please contact your local dealer for replacement antenna.

Do not use the device with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

**Battery Safety**

Your device uses a removable and rechargeable lithium ion battery. Please contact customer service for assistance should you need a replacement battery.

**DOs**

- Only use the battery and charger approved by the manufacturer.
- Only use the battery for its original purpose.
- Try to keep batteries in a temperature between 41°F (5°C) and 95°F (35°C).

**DON'Ts**

- If the battery is stored in temperatures above or below the recommended range, give it time to warm up or cool down before using.
- Completely drain the battery before recharging. It may take one to four days to completely drain.
- Store the discharged battery in a cool, dark, and dry place.
- Purchase a new battery when its operating time gradually decreases after fully charging.
- Properly dispose of the battery according to local regulations.

- Don’t attempt to disassemble the battery – it is a sealed unit with no serviceable parts.
- Don’t expose the battery terminals to any other metal object (e.g., by carrying it in your pocket or purse with other metallic objects such as coins, clips and pens). This can short circuit and critically damage the battery.
- Don’t leave the battery in hot or cold temps. Otherwise, it could significantly reduce the capacity and lifetime of the battery.
- Don’t dispose of the battery into a fire.
Lithium ion batteries are recyclable. When you replace the removable battery, please request the repair center to recycle the battery in accordance with RBRC standards. When disposing of the battery by yourself, please call RBRC at (800) 822-8837 for proper disposal tips.

Never touch any fluid that might leak from the built-in battery. Such liquid when in contact with the eyes or skin, could cause injury to the skin or eyes. Should the liquid come into contact with the eyes, irrigate the eyes thoroughly with clean water and immediately seek medical attention. In the event the liquid comes into contact with the skin or clothing, wash it away immediately with clean water.

**AC Phone Charger**

**Use the Correct External Power Source**

A product should be operated only from the type of power source indicated on the electrical ratings label. If you are not sure of the type of power source required, consult your authorized service provider or local power company. For a product that operates from battery power or other sources, refer to the operating instructions that are included with the product.

The AC phone charger designed by Sprint for this unit requires the use of a standard 120 V AC power source for device operation.

Never attempt to disassemble or repair an AC phone charger. Never use an AC phone charger if it has a damaged or worn power cord or plug. Always contact a Sprint authorized service center, if repair or replacement is required.

Never alter the AC cord or plug on an AC phone charger. If the plug will not fit into the available outlet, have a proper outlet installed by a qualified electrician.

Never allow any liquids or water to spill on an AC phone charger when it is connected to an AC power source.

Always use the authorized Sprint AC phone charger to avoid any risk of bodily injury or damage to your cellular phone or battery.

Never attempt to connect or disconnect the AC phone charger with wet hands. Always unplug the AC phone charger from the power source before attempting any cleaning. Always use a soft cloth dampened with water to clean the equipment, after it has been unplugged.
Handling the cord on this product or cords associated with accessories sold with this product, will expose you to lead, a chemical known to the State of California to cause birth defects or other reproductive harm. Wash hands after handling.

Always disconnect the travel charger or desktop charger from the power source when it is not in use.
3B. Regulatory Notices

- Regulatory Agency Identifications (page 121)
- Federal Communication Commission Interference Statement (page 121)
- SAR Information (page 123)
- Telecommunications & Internet Association (TIA) Safety Information (page 124)
- WEEE Notice (page 125)
- RoHS Compliance (page 126)

This section provides more safety information and regulation statement for using your device.

Regulatory Agency Identifications

For regulatory identification purposes, your product is assigned a model number of HERO200.

To ensure continued reliable and safe operation of your device, use only the accessories listed below with your HERO200.

The Battery Pack has been assigned a model number of RHOD160.

Operating temperature range: 32°F to 104°F (0°C to 40°C)

Note: This product is intended for use with a certified Class 2 Limited Power Source, rated 5 Volts DC, maximum 1 Amp power supply unit.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance
with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### Important

**Radiation Exposure Statement:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. To maintain compliance with FCC RF exposure compliance requirements, please follow operation instruction as documented in this guide.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter, except the transmitters built-in with this device.
**SAR Information**

1.13 W/KG @ 1g (HEAD)
0.711 W/KG @ 1g (BODY)

**THIS MODEL DEVICE MEETS THE GOVERNMENT’S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.**

For body worn operation, this phone has been tested and meets the FCC RF exposure guidelines when used with the HTC Corporation accessories supplied or designated for this product. Use of other accessories may not ensure compliance with the FCC RF exposure guidelines.

Your wireless mobile CDMA phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on the safety standards previously set by both U.S. and international standards bodies:

- International Commission on Non-Ionizing Radiation Protection (ICNIRP) 1996.
- Ministry of Health (Canada), Safety Code 6. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless mobile CDMA phone employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg*.

The FCC has granted an Equipment Authorization for this model device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model device is on file with the FCC and can be found under the Display Grant section of [https://gulfoss2.fcc.gov/prod/oet/cf/eas/reports/GenericSearch.cfm](https://gulfoss2.fcc.gov/prod/oet/cf/eas/reports/GenericSearch.cfm) after searching on FCC ID: NM8HERO200. Additional information on Specific Absorption Rates (SAR) can be found on the Cellular
Telecommunications & Internet Association (CTIA) website as [http://www.phonefacts.net](http://www.phonefacts.net).

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) website as [http://www.phonefacts.net](http://www.phonefacts.net).

* In the U.S. and Canada, the SAR limit for mobile CDMA phone used by the public is 1.6 Watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in usage.

Normal condition only to ensure the radiative performance and safety of the interference. As with other mobile radio transmitting equipment, users are advised that for satisfactory operation of the equipment and for the safety of personnel, it is recommended that no part of the human body be allowed to come too close to the antenna during operation of the equipment.

---

**Telecommunications & Internet Association (TIA) Safety Information**

### Pacemakers

The Health Industry Manufacturers Association recommends that a minimum separation of six inches be maintained between a handheld wireless phone and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by and recommendations of Wireless Technology Research. Persons with pacemakers:

- Should ALWAYS keep the phone more than six inches from their pacemaker when the phone is turned ON.
- Should not carry the phone in a breast pocket.
- Should use the ear opposite the pacemaker to minimize the potential for interference. If you have any reason to suspect that interference is taking place, turn the phone OFF immediately.
**Hearing Aids**

Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your service provider, or call the customer service line to discuss alternatives.

**Other Medical Devices**

If you use any other personal medical device, consult the manufacturer of your device to determine if they are adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information.

Turn the phone OFF in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

---

**WEEE Notice**

The Directive on Waste Electrical and Electronic Equipment (WEEE), which entered into force as European law on 13th February 2003, resulted in a major change in the treatment of electrical equipment at end-of-life.

The purpose of this Directive is, as a first priority, the prevention of WEEE, and in addition, to promote the reuse, recycling and other forms of recovery of such wastes so as to reduce disposal.
RoHS Compliance

The WEEE logo (shown at the left) on the product or on its box indicates that this product must not be disposed of or dumped with your other household waste. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste. Isolated collection and proper recovery of your electronic and electrical waste equipment at the time of disposal will allow us to help conserving natural resources. Moreover, proper recycling of the electronic and electrical waste equipment will ensure safety of human health and environment. For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local city center, household waste disposal service, shop from where you purchased the equipment, or manufacturer of the equipment.
Your phone has been designed to provide you with reliable, worry-free service. If for any reason you have a problem with your equipment, please refer to the manufacturer's warranty in this section.

For information regarding the terms and conditions of service for your phone, please visit www.sprint.com or call Sprint Customer Service at 1-888-211-4727.

Note
In addition to the warranty provided by your phone's manufacturer, which is detailed on the following pages, Sprint offers a number of optional plans to cover your equipment for non-warranty claims. Sprint Total Equipment Protection provides the combined coverage of the Sprint Equipment Replacement Program and the Sprint Equipment Service and Repair Program, both of which are available separately. Each of these programs may be signed up for within 30 days of activating your phone. For more details, please visit your nearest Sprint Store or call Sprint at 1-800-584-3666.

Manufacturer's Warranty

12 Month Limited Warranty

HTC Corporation (the Company) warrants to the original retail purchaser of this HTC handheld portable cellular telephone, that should this product or any part thereof during normal consumer usage and conditions, be proven defective in material or workmanship that results in product failure within the first twelve (12) month period from the date of purchase, such defect(s) will be repaired or replaced (with new or rebuilt parts).
at the Company's option, without charge for parts or labor directly related to the defect(s).

The antenna, keypad, display, rechargeable battery and battery charger, if included, are similarly warranted for twelve (12) months from date of purchase.

This Warranty extends only to consumers who purchase the product in the United States or Canada and it is not transferable or assignable.

This Warranty does not apply to:

(a) Product subjected to abnormal use or conditions, accident, mishandling, neglect, unauthorized alteration, misuse, improper installation or repair or improper storage;

(b) Product whose mechanical serial number or electronic serial number has been removed, altered or defaced;

(c) Damage from exposure to moisture, humidity, excessive temperatures or extreme environmental conditions;

(d) Damage resulting from connection to, or use of any accessory or other product not approved or authorized by the Company;

(e) Defects in appearance, cosmetic, decorative or structural items such as framing and non-operative parts;

(f) Product damaged from external causes such as fire, flooding, dirt, sand, weather conditions, battery leakage, blown fuse, theft or improper usage of any electrical source.

The Company disclaims liability for removal or reinstallation of the product, for geographic coverage, for inadequate signal reception by the antenna or for communications range or operation of the cellular system as a whole.

When sending your wireless device to HTC Corporation for repair or service, please note that any personal data or software stored on the device may be inadvertently erased or altered. Therefore, we strongly recommend you make a back up copy of all data and software contained on your device before submitting it for repair or service. This includes all contact lists, downloads (i.e. third-party software applications, ring tones, games and graphics) and any other data added to your device. In addition, if your wireless device utilizes a SIM or Multimedia card, please remove the card before submitting the device and store
for later use when your device is returned, HTC Corporation is not responsible for and does not guarantee restoration of any third-party software, personal information or memory data contained in, stored on, or integrated with any wireless device, whether under warranty or not, returned to HTC Corporation for repair or service.

To obtain repairs or replacement within the terms of this Warranty, the product should be delivered with proof of Warranty coverage (e.g. dated bill of sale), the consumer's return address, daytime phone number or fax number and complete description of the problem, transportation prepaid, to the Company at the address shown below or to the place of purchase for repair or replacement processing. In addition, for reference to an authorized Warranty station in your area, you may telephone in the United States (888) 870-4736.

THE EXTENT OF THE COMPANY’S LIABILITY UNDER THIS WARRANTY IS LIMITED TO THE REPAIR OR REPLACEMENT PROVIDED ABOVE AND, IN NO EVENT, SHALL THE COMPANY’S LIABILITY EXCEED THE PURCHASE PRICE PAID BY PURCHASER FOR THE PRODUCT.

ANY IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED TO THE DURATION OF THIS WRITTEN WARRANTY. ANY ACTION FOR BREACH OF ANY WARRANTY MUST BE BROUGHT WITHIN A PERIOD OF 18 MONTHS FROM DATE OF ORIGINAL PURCHASE. IN NO CASE SHALL THE COMPANY BE LIABLE FOR AN SPECIAL CONSEQUENTIAL OR INCIDENTAL DAMAGES FOR BREACH OF THIS OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED, WHATSOEVER. THE COMPANY SHALL NOT BE LIABLE FOR THE DELAY IN RENDERING SERVICE UNDER THIS WARRANTY OR LOSS OF USE DURING THE TIME THE PRODUCT IS BEING REPAIRED OR REPLACED.

No person or representative is authorized to assume for the Company any liability other than expressed herein in connection with the sale of this product.

Some states or provinces do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damage so the above limitation or exclusions may not apply to you. This Warranty gives you specific legal rights, and you
may also have other rights, which vary from state to state.

IN USA AND CANADA:

HTC Corporation
5950 Corporate Dr.
Houston, TX 77036

Privacy Restrictions

Some countries require full disclosure of recorded telephone conversations, and stipulate that you must inform the person with whom you are speaking that the conversation is being recorded. Always obey the relevant laws and regulations of your country when using the recording feature of your device.

Weather Disclaimer

THE WEATHER INFORMATION, DATA AND DOCUMENTATION ARE PROVIDED “AS IS” AND WITHOUT WARRANTY OR TECHNICAL SUPPORT OF ANY KIND FROM HTC. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, HTC AND ITS AFFILIATES expressly disclaim any and all representations and warranties, express or implied, arising by law or otherwise, regarding the Weather Information, Data, Documentation, or any other Products and services, including without limitation any express or implied warranty of merchantability, express or implied warranty of fitness for a particular purpose, non-infringement, quality, accuracy, completeness, effectiveness, reliability, usefulness, that the Weather Information, Data or Documentation will be error-free, or implied warranties arising from course of dealing or course of performance.

Without limiting the foregoing, it is further understood that HTC and its Providers are not responsible for Your use or misuse of the Weather Information, Data or Documentation or the results from such use. HTC and its Providers make no express or implied warranties,
guarantees or affirmations that weather information will occur or has occurred as the reports, forecasts, data, or information state, represent or depict and it shall have no responsibility or liability whatsoever to any person or entity, parties and non-parties alike, for any inconsistency, inaccuracy, or omission for weather or events predicted or depicted, reported, occurring or occurred. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, YOU ACKNOWLEDGE THAT THE WEATHER INFORMATION, DATA AND/OR DOCUMENTATION MAY INCLUDE INACCURACIES AND YOU WILL USE COMMON SENSE AND FOLLOW STANDARD SAFETY PRECAUTIONS IN CONNECTION WITH THE USE OF THE WEATHER INFORMATION, DATA OR DOCUMENTATION.

Warranty Disclaimer

Your warranty is invalidated if you open or tamper with the device’s outer casing.

For details about warranty coverage, see "Manufacturer’s Warranty” on page 127.

Limitation of Damages

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL HTC OR ITS PROVIDERS BE LIABLE TO USER OR ANY THIRD PARTY FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES OF ANY KIND, IN CONTRACT OR TORT, INCLUDING, BUT NOT LIMITED TO, INJURY, LOSS OF REVENUE, LOSS OF GOODWILL, LOSS OF BUSINESS OPPORTUNITY, LOSS OF DATA, AND/OR LOSS OF PROFITS ARISING OUT OF, OR RELATED TO, IN ANY MANNER, OR THE DELIVERY, PERFORMANCE OR NONPERFORMANCE OF OBLIGATIONS, OR USE OF THE WEATHER INFORMATION, DATA OR DOCUMENTATION HEREUNDER REGARDLESS OF THE FORESEEABILITY THEREOF.
