Get Started

MOBILE HOTSPOT

R850
Welcome!

Thank you for choosing Sprint. This booklet helps you get started with Sprint and your new R850 Mobile Hotspot.

ReadyNow – For more help in getting up and running with your new device, take advantage of exclusive Ready Now resources at sprint.com/readynow.

Visit sprint.com/support for ongoing support and resources. There, you’ll find user guides, tutorials, and more to help you get the most out of your device.

Note: Available applications and services are subject to change at any time.

Activate Your Hotspot

Before turning on your Hotspot:

If you purchased your Hotspot at a Sprint Store, it is probably activated and ready to use.

If you received your Hotspot in the mail, and it is for a new Sprint account or a new line of service, your Hotspot is designed to activate automatically when you first turn it on. To confirm your activation, launch a Web browser from a device connected to your Hotspot.

If you received your Hotspot in the mail and it is going to be activated on an existing number (you’re swapping devices), go to sprint.com/activate and follow the instructions. When you have finished, launch a Web browser from a device connected to your Hotspot to confirm your activation.

If your Hotspot is still not activated, visit sprint.com/support for assistance. If you do not have access to the Internet, call Sprint Customer Service at 1-888-211-4727.
Set Up Your Hotspot

Insert the Battery
1. Remove the back cover using the thumb catch on the bottom edge of the hotspot.
2. Align the battery’s contacts with those inside the battery compartment and gently press down until the battery is seated.
3. Replace the back cover.
   
   Note: Your Hotspot comes with a nano-SIM card preinstalled. Do not remove the nano-SIM card.

Charge the Battery
1. Insert the small end of the USB cable into the micro-USB charging port on the right side of the hotspot.
2. Plug the charging adapter into a standard AC power outlet.

Get Ready
1. Make sure you are in an area covered by the Sprint network (not roaming).
2. Make sure the device you are trying to connect to your Hotspot has its Wi-Fi® (wireless network connection) mode turned on.
3. Make sure your Hotspot is set up on your Sprint account. (Sign on to your account at sprint.com/mysprint to verify.)
Hotspot LCD Screen

Power Up the Hotspot
To turn your Hotspot on or off, press and hold the **Power Button** on the front of the device for at least two seconds.

Main Screens
Your Hotspot has a series of screens that let you view device information and system alerts. Press the **Power Button** (Navigation Key) to cycle through the following:

- Signal strength/Battery Status
- WiFi Name
- WiFi Password
- Settings
- Admin Password
- Data Usage
Connect to Your Hotspot

Connect a Device to Your Hotspot via Wi-Fi

1. Turn on your Hotspot and your Wi-Fi-enabled device.

2. Open the Wi-Fi application or controls on the computer or Wi-Fi-enabled device that you want to connect to your Hotspot.

3. Find your Hotspot’s Wi-Fi name and enter your password to connect to the Internet.

Note: Your Wi-Fi name (SSID) and password appear on the Hotspot LCD display.
Hotspot Manager

Access, monitor, and customize your device settings using the Hotspot Manager.

Log In to the Hotspot Manager

1. Open a browser on a computer connected to your Hotspot.
3. Click Log in.
4. Enter your password and click Login. You’ll be taken to the Hotspot Manager home page.

Note: The default Admin password for logging in to the Mobile Hotspot Manager is password. It is recommended that you change the password as soon as possible.
Connected Devices

View devices that are connected to your Hotspot’s Main or Guest Wi-Fi networks and configure access permissions.

Set Permissions

1. Log in to the Hotspot Manager.
2. Click the Connected Devices tab.
3. Click Access Permissions from the left menu to restrict user access.
Configure your Hotspot’s Wi-Fi, Mobile Network, Device, and Advanced Router settings.

Configure Device Settings

1. Log in to the Hotspot Manager.

2. Click the Settings tab.

3. Click Device and use the drop down menu to configure the following:
   
   • **Preferences**: Change your Hotspot’s display timeout.
   
   • **Web Interface**: Change your password to log in to the Hotspot Manager.
   
   • **Software update**: View and update software for your Hotspot.
Network Settings

Adjust your Hotspot’s Mobile Settings, APN, SIM, and Advanced device settings.

Configure Network Settings

1. Log in to the Hotspot Manager.
2. Click the Settings tab.
3. Click Mobile Network and use the drop down menu to configure the following:
   - **Mobile Settings**: Manage your mobile broadband data connection and roaming settings.
   - **APN**: View and edit APN settings.
   - **SIM**: Enable a PIN lock for the SIM card.
   - **Advanced**: Perform a factory reset, clear account information, and edit your data profile.
Guest Networks

Create a separate Guest Wi-Fi network that you can share with temporary users.

**Set Up a Guest Network**
1. Log in to the Hotspot Manager.
2. Click the **Settings** tab.
3. Using the drop down menu, select **Wi-Fi > Basic**.
4. Next to Multi SSID, select **ON**.
5. Under **Guest Wi-Fi**, enter a new Wi-Fi name and password and adjust additional network settings as desired.

Reset Your Hotspot

You may want or need to clear your account information, reset user settings, or reset your device to its factory default settings.

**Reset Wi-Fi Settings Only**

1. Log in to the Hotspot Manager.
2. Click the **Settings** tab.
3. Using the drop down menu, select **Wi-Fi > Basic**.
4. Under Wi-Fi Settings Reset, click **Reset**.

**Restore All User Settings to Factory Defaults**

1. Log in to the Hotspot Manager.
2. Click the **Settings** tab.
3. Using the drop down menu, select **Device > Backup and Restore**.
4. Scroll down and click **Restore Factory Defaults**.
   
   **Note:** If you’ve forgotten your password to the Hotspot Manager, you’ll need to perform an RTN Reset (see below).

**Reset Your Device and Restore All Settings (RTN Reset)**

1. Remove the battery cover.
2. Press and hold the **Reset button** until you see the “Factory Reset Restarting...” message on the LCD screen.

   **Note:** The Hotspot must be powered on when pressing the Reset button.
Manage Your Account

Help

• User Guide – View the comprehensive User Guide online at sprint.com/support.

• Updates – The first time you connect your Mobile Hotspot, from your Web browser go to the device’s home page by entering http://myhotspot. Click the Settings tab. In the drop down menu, select Device > Software Update, and follow the onscreen instructions to update your device.

• Web – Go to sprint.com/support to access troubleshooting and other resources. For software updates, go to sprint.com/downloads.
Additional Support

• Log in to the Hotspot Manager and click the Support tab from the home page.

It’s All Connected

Sprint is committed to your world, and we work hard to make sure it’s taken care of.

Your guides and packaging are 100% recyclable, printed with vegetable inks, and are made with a minimum of 85% recycled paper.

We even make it easy (and rewarding) to recycle your old device – visit sprint.com/buyback for more info.

Check us out at sprint.com/goodworks to find out more.
The services described in this guide may require a subscription to a service plan and/or may incur additional charges. Not all services will work on all devices. See sprint.com/coverage for more details.

**Important Privacy Message.** This device is capable of determining its/your geographical location. For some applications and services you select, a device must be turned on and set to allow collection of location information in order to function.

Please be advised that if you use a third-party application, the application may collect your personal information or require Sprint to disclose your customer information, including location information (when applicable), to the application provider or some other third party. Sprint’s policies do not apply to these third-party applications. Please carefully review the application’s terms of use and/or the application provider’s policies for more information about how the application will collect, access, use or disclose your information before using a third-party application. Terms of use and other policies usually are available on the application provider’s website.
