Introduction

The following topics describe the basics of using this guide and your new tablet.

About the User Guide

Thank you for purchasing your new Samsung Galaxy Tab S2. The following topics explain how best to use this guide to get the most out of your tablet.

Before Using Your Tablet

Thoroughly read the Get Started guide and Important Information booklet that were packaged with your tablet for proper usage.

Accessible services may be limited by subscription contract conditions.

Descriptions in the User Guide

Note that most descriptions in this guide are based on your tablet’s setup at the time of purchase. Unless otherwise noted, instructions begin from the tablet’s home screen, which is displayed by pressing the Home key. Some operation descriptions may be simplified.

Screenshots and Key Labels

Screenshots in the user guide may appear differently on your tablet. Key labels in the user guide are simplified for description purposes and differ from your tablet’s display.

Other Notations

In the user guide, the tablet may be referred to either as tablet or device.

Access Instructions on Tablet

Whether you are new to Android™ or just new to your Galaxy Tab S2, your tablet can help you learn how to use it.

Access Help

Use the tablet's Help menu to learn about your tablet.

1. Press the **Home** key to display the home screen.
2. From home, tap **Apps** > **Settings** > **Help**.

3. Tap a topic to view its contents, or tap **Search** to search for a topic.
Get Started

The following topics give you all the information you need to set up your tablet and wireless service the first time.

Parts and Functions

These topics illustrate your tablet’s primary parts and key functions.

Tablet Layout

The following illustration outlines your tablet’s primary external features and buttons.

</tr>
</tbody>
</table>

**CAUTION!** Inserting an accessory into the incorrect jack may damage the tablet.

**SIM Card**

The SIM card is an IC card containing phone number and other customer information. Your tablet’s SIM card is preinstalled and should only be accessed if directed by a customer service representative.

**Handling a SIM Card**

Keep the following in mind when handling a SIM card:

- You are responsible for any damage caused by inserting the SIM card in another brand IC card reader. Sprint is not responsible in such a case.
- Always keep the IC chip clean.
- Wipe clean with a dry, soft cloth.
- Avoid applying labels. May damage SIM card.
- See instructions included with SIM card for handling.
- The SIM card is the property of Sprint.
- The SIM card is replaceable (at cost) in case of loss/damage.
- Return the SIM card to Sprint when canceling subscription.
- Returned SIM cards are recycled for environmental purposes.
- Note that SIM card specifications and performance may change without notice.
- It is recommended that you keep a separate copy of information that is stored on SIM card. Sprint is not responsible for damages from stored information that is lost.
- Always follow emergency procedures to suspend service if your SIM card or tablet (SIM card inserted) is lost or stolen. For details, contact Customer Service.
- Always power off the tablet before inserting/removing the SIM card.

**Insert SIM Card**

Follow these instructions to insert a SIM card. Remember to power off your tablet before inserting a SIM card.
**Note:** Your tablet’s SIM card is preinstalled. These instructions are for reference only.

**Caution:** Exercise care when using the removal tool to eject the internal SIM card tray.

1. Insert the removal tool into the hole on the SIM card tray, and push until the tray pops out.
2. Place the SIM card on the tray.
   - Make sure that the card’s gold contacts face down into the device and that the card is positioned as shown.
3. Slide the SIM card tray back into the slot.

**Caution:** If the SIM card is not inserted correctly, the device cannot detect it. Reorient the card and place it back into the slot if the SIM card is not detected.

---

**SD Card**

Your tablet supports the use of an optional SD card (not included) to expand its storage capacity. Some cards may not operate properly with your tablet.

For more information, see [SD Card Settings](#).

---

**SD Card Cautions**

**Data:** Information stored on an SD card can become lost or changed accidentally or as a result of damage. It is recommended that you keep a separate copy of important data. Sprint is not responsible for damages from data that is lost or changed.

**Reading/Writing Data:** Never power off or remove the battery while reading or writing data.

**Battery Level:** A low battery charge may prevent reading/writing to an SD card.

**Handling SD Card:** Use/store SD cards away from the reach of infants. SD cards may cause choking if swallowed.
Insert an SD Card

Follow these steps to insert an optional SD card (not included). Make sure to power your tablet off before inserting or removing an SD card.

**Note:** To improve performance and reliability with High-definition video recording and playback, it is recommended you use a memory card (SD card) that is both rated as at least a Class 10 and provides a high read speed.

**Caution:** Exercise care when using the removal tool to eject the internal Memory card tray.

1. Insert the removal tool into the hole on the Memory card tray, and push until the tray pops out.
2. Place the memory card on the tray with the gold contacts facing down.

3. Slide the Memory card tray back into the slot.

Unmount and Remove an SD Card

Follow these instructions to remove an SD card. To remove an SD card safely, you must unmount the card first to prevent corrupting the data stored on it or damaging the card. Always power the tablet off before inserting or removing an SD card.

**Caution:** Exercise care when using the removal tool to eject the internal Memory card tray.

1. From home, tap **Apps > Settings > Storage**.
2. Tap **SD card > Unmount**.

3. Insert the removal tool into the hole on the Memory card tray, and push until the tray pops out.

4. Slide the tray out and remove the memory card.

5. Slide the Memory card tray back into the slot.

**Charge the Battery**

Follow these instructions to charge your tablet’s battery using either the included charging head and USB cable or using a USB connection on your computer.

**Note:** This tablet has an integrated battery that cannot be removed by the user.

**Battery Cautions**

**Storage:** Avoid storing or leaving the tablet with no battery charge remaining. Saved information and settings may become lost or changed, or the tablet may become unusable. Charge once every six months before storing or leaving unused for a long period.

**Charge Using the USB Charger**

Use the charger that came with your tablet.

1. Plug the USB cable into the USB charger/accessory port on the bottom of your tablet.
2. Plug the other end of the USB cable into the charging head.
3. Plug the charging head into an electrical outlet.
4. After charging, disconnect the tablet from the charger.
   - Unplug the charging head from the outlet, and remove the USB cable from both the tablet and the charging head.

**Charge Using a PC Connection**
Before using a PC connection to charge your tablet, ensure that the computer is turned on. Depending on the type of connection, your tablet’s battery may not charge.

1. Insert the small end of the USB cable into the USB charger/accessory port on the bottom of your tablet.
2. Insert the large end of the USB cable into a USB port on your computer.
3. After charging, remove the USB cable from both the tablet and the computer.

**Turn Your Tablet On and Off**
The instructions below explain how to turn your tablet on and off.
**Turn Your Tablet On**

- Press and hold the **Power/Lock** key.

![Power/Lock key](image)

- Your tablet will power on. Depending on the settings, you may see the Lock screen.
  - See [Lock and Unlock Your Screen](#) and [Screen Lock](#) for information about using the screen lock.
  - The first time you turn the tablet on, you will see the startup screens. See [Complete the Setup Screens](#) for details.
  - If your tablet is not yet activated, see [Activate Your Tablet](#) for more information.

**Turn Your Tablet Off**

1. Press and hold the **Power/Lock** key to open the tablet options menu.

![Power/Lock key](image)

2. Tap **Power off > Power off** to turn the tablet off.
Your tablet will power off.

Your screen remains blank while your tablet is off (unless the battery is charging).

**Note:** If your device is not responding, press and hold both the **Power** and **Volume Down** keys simultaneously for more than seven seconds to restart the device.

**Use the Touchscreen**

Your tablet’s touchscreen lets you control actions through a variety of touch gestures.

**Tap or Touch**

When you want to type using the keyboard, select items onscreen such as application and settings icons, or press onscreen buttons, simply tap or touch them with your finger.
**Touch and Hold**
To open the available options for an item (for example, a contact or link in a Web page), touch and hold the item.

**Swipe or Slide**
To swipe or slide means to quickly drag your finger vertically or horizontally across the screen.
**Drag**

To drag, press and hold your finger with some pressure before you start to move your finger. While dragging, do not release your finger until you have reached the target position.

**Flick**

Flicking the screen is similar to swiping, except that you need to move your finger in light, quick strokes. This finger gesture is always in a vertical direction, such as when flicking the contacts or message list.
**Rotate**

For most screens, you can automatically change the screen orientation from portrait to landscape by turning the tablet sideways. When entering text, you can turn the tablet sideways to bring up a bigger keyboard. See [Enter Text](#) for more details.

**Note:** Screen rotation must be enabled for the screen orientation to automatically change. To enable or disable screen rotation, slide your finger down from the status bar to display the Notification table, and then tap **Portrait** to enable the option or **Auto rotate** to disable screen rotation.

**Pinch and Spread**

Pinch the screen by moving two fingers inward to zoom out, or spread by moving two fingers outward to zoom in.
Activate Your Tablet

Follow the instructions below to activate your tablet if it has not already been activated. Depending on your account or how and where you purchased your tablet, it may be ready to use or you may need to activate it on your Sprint account.

- If you purchased your tablet at a Sprint Store, it is probably activated and ready to use.
- If you received your tablet in the mail and it is for a new Sprint account or a new line of service, it is designed to activate automatically.
  - When you turn the tablet on for the first time, you should see a Hands Free Activation screen, which may be followed by a PRL Update screen and a Firmware Update screen. Follow the prompts to continue.
- If you received your tablet in the mail and you are activating a new tablet for an existing number on your account (you are swapping tablets), you can activate on your computer online or directly on your tablet.
  - **Activate on your computer:**
    - Go to sprint.com/activate and complete the online instructions to activate your tablet.
  - **Activate on your tablet:**
    - Turn on your new tablet. (Make sure the old one is turned off.) Your tablet will automatically attempt Hands-Free Activation.
    - Tap **Activate** to override auto-activation and start the manual activation wizard.
    - Follow the prompts to complete the activation process.

If your tablet is still not activated, visit sprint.com/support for assistance. If you do not have access to the Internet, call Sprint Customer Service at 1-888-211-4727.

**Tip:** Do not press the Power/Lock key while the tablet is being activated. Pressing the Power/Lock key cancels the activation process.

**Note:** If you are having any difficulty with activation, visit sprint.com/support.

Complete the Setup Screens

The setup screens help you set up certain features and preferences on your tablet. Once your tablet has been turned on, you will see a Welcome message. You can then complete the setup process.

**Note:** You may be able to complete the setup screens before your tablet has been activated on your Sprint account.

1. At the Welcome screen, choose options, and then tap **Start** to begin setup:
- **Language**: Choose the default language for your tablet’s operation.

- **Accessibility**: Configure settings to access settings to improve the accessibility of your tablet’s features if you are visually impaired or hard of hearing.

2. Follow the instructions to complete setup for each topic. Tap **Next**, or the right arrow, to move through the steps. You can skip options to continue to the next one. During setup, you may see these options:

   **Note**: Screens may vary based on the activation status of your tablet.

   - **Wi-Fi**: By default, your tablet prompts you to use Wi-Fi® when accessing data services. Tap a Wi-Fi access point to connect to it, or you can continue setup using your tablet’s connection to the wireless network.

   - **Terms and conditions**: Read the End User License Agreement (EULA) and consent for diagnostic and usage data. If you consent to provide diagnostic and usage data to Samsung, tap the check box. Tap **Next** to proceed, and then tap **Agree** to confirm that you understand and agree to the terms and conditions. If you do not agree to the EULA, you cannot continue with setup.

   - **Hands Free Activation**: Automatically connect to Sprint network and set up voice and data services.

     - After Hands Free Activation completes, tap **OK** to continue.

     - You may see a message indicating your tablet needs to restart. Tap **OK** again and wait for your tablet to restart.

   - **Add your account (Google)**: Your tablet uses your Google Account to provide access to many features and apps. Complete the steps to sign in to your current Google Account, or sign up for a new Google Account right from your tablet. You can also skip signing in to your Google Account, or sign in later.

     - To sign in to an existing Google Account, you will need your account name (Gmail™ address) and password.

     - For both new and existing accounts, you will need to review and accept the Terms of Service and Privacy Policy by tapping **Accept** when prompted.

   - **Name**: Enter your First and Last name, to personalize Google features and apps.

   - **Google services**: Select Google service preferences, including Backup & Restore, Location and Communication options.

   - **Set up payment info**: Select billing options for purchases made through Google Play.

   - **Set up email**: Configure an email account on your device. If you want to skip this step, tap **Not now**.

   - **Protect your tablet**: Set up a screen lock to prevent others from using the tablet without your permission.
• **Samsung account:** Some apps and features use your Samsung account. You can sign in to your Samsung account, or follow the prompts to create a new account.
  
  ○ To sign in to or set up a Samsung account, you will have to review and agree to the Terms and Conditions by tapping **Agree** when prompted.

3. Tap **Finish** to complete setup.

  • Your tablet is now set up for use. If you skipped any part of the setup, you can access additional options through the Apps list or through Settings.

**Note:** You do not need to sign up for a Google Account to use your tablet. However, to download apps from the Google Play™ store app, you must link your tablet to a Google Account.
Basic Operations

The following topics outline basic features and operations of your tablet.

Basics

The following topics offer an overview of your tablet’s basic operations.

Home Screen and Applications (Apps) List

Most of your tablet’s operations originate from the home screen or the apps list.

1. From any screen, press the Home key to display the home screen.

2. Tap Apps to display the apps list.

For information about using the home screen, see Home Screen Basics.

Select Options and Navigate Screens

Tap icons, keys, and other items to open or activate the assigned function.

- Tap the Back key to return to the previous screen.

Recent Applications

You can display a list of recently used applications using the Recent Apps key.

- Tap the Recent Apps key to view a list of recently used applications.
Tablet Settings Menu
You can customize your tablet’s settings and options through the Settings menu.

- From home, tap Apps > Settings.

  – or –

Drag the notification panel down and tap Settings.

![Settings menu]

- The Settings menu displays.

For more information, see Settings.

**Portrait and Landscape Screen Orientation**

The default orientation for your tablet’s screen is portrait (vertical), but many apps will change to landscape orientation (widescreen) when you rotate the tablet sideways.
Turn Screen Rotation On or Off
1. Open the notification panel by dragging down from the top of the screen.
2. Tap Portrait to turn the option on. Tap Auto rotate to turn the option off.
   - You may need to scroll left or right to see the screen rotation option.
   - If the screen rotation option is not available, tap View all to display the full options list.
   - Not all screens will adjust for landscape orientation.

Capture Screenshots
You can use your tablet’s Power and Home keys to capture screenshots.

- Press and hold the Power/Lock key and Home key at the same time to capture a screenshot of the current screen.

   ! The current screenshot will be captured and stored in the Screenshots album in the tablet’s Gallery. From home, tap Apps > Gallery. Depending on your settings, you may also capture a screenshot by swiping your palm across the screen from side to side.

To set up palm swipe screen capture:
1. From home, tap Apps > Settings.
2. Tap Advanced features > Palm swipe to capture, and then tap On/Off.
Applications
The following topics describe how to access the applications (apps) list and launch apps on your tablet.

Launch Applications
All installed apps can be accessed and launched from the apps list.

1. From home, tap **Apps**.

   ![Apps Screen]

   - The apps list opens.

2. Tap an app icon to launch the corresponding application.

   - The application opens.

Apps List
The apps list expands to include any apps you download and install on your tablet. The following table outlines the primary apps that have been preinstalled on your tablet.

<table>
<thead>
<tr>

</table>

**Note:** Available apps are subject to change.

**SIM Card Phone Number**

Follow the instructions below to display your tablet’s wireless phone number.

**Note:** Your tablet cannot make or receive calls. The phone number is assigned to the SIM card for account identification purposes only.

1. From home, tap Apps > Settings.

![Settings menu](image-url)
2. Tap **About device**.

3. Tap **Status** > **Sim card status**.

   ![Sim card status settings](image1)

   ![Sim card status settings](image2)

   You will see the number listed under **My phone number**.

**Airplane Mode**

Airplane mode turns off all functions that emit or receive signals, while leaving your tablet on so you can use apps that do not require a signal or data.

To turn on airplane mode:

1. From home, tap **Apps** > **Settings**.
2. Tap **Airplane mode**.

3. Tap **On/Off** to enable Airplane mode.

   ![Airplane mode](image)

   Your tablet is now in airplane mode. An airplane mode icon displays on the status bar.

   **Note:** You can also enable or disable Airplane Mode through the notification panel quick settings (drag down the status bar and tap **Airplane mode > Turn on**).

To turn off airplane mode:

1. From home, tap **Apps > Settings**.
2. Tap **Airplane mode**.

3. Tap **On/Off** to turn Airplane mode off.

   • Your tablet’s wireless connection features are now restored.

**Note:** You can also enable or disable Airplane Mode through the notification panel quick settings (drag down the status bar and tap **Airplane mode**).

**Enter Text**

You can type on your tablet using the touchscreen Samsung keyboard or Google voice typing.
Samsung Keyboard

Use the touchscreen Samsung keyboard for entering text. The keyboard appears automatically when you tap a text entry field, and can be used in either portrait or landscape mode. You can also use the Google Voice™ typing option to enter text using your voice (see Google Voice Typing for details).

The Samsung keyboard offers a traditional QWERTY keyboard setup for entering text by tapping keys (like on a computer), along with enhancements and options that allow you to enter text faster and more accurately, such as continuous key input, personalized usage dictionaries, and more.

Note: Depending on which app you are using (Messages, Email, and so on.), the keyboard appearance may differ.

Assigning the Samsung Keyboard for Text Entry

If you have multiple text input methods installed on your device, you can select the Samsung keyboard to be your default text input method from Settings, or you can choose it at any time while entering text.

Note: The Samsung keyboard is the default text input method on your tablet. Additional keyboards and input methods are available for download at the Google Play store. See Google Play Store.

To select the Samsung keyboard:

- From home, tap Apps > Settings > Language and input > Default keyboard, and then choose Samsung keyboard.

While entering text:

1. Drag down from the top of the screen to open the notification panel.
2. Tap Select keyboard, and then choose Samsung keyboard.

Use Samsung Keyboard to Enter Text

- Tap keys to enter text. While entering text, use these options:
  - Tap Delete to delete incorrect characters. Touch and hold Delete to delete a whole word or field.
  - Tap Shift to change the case of the text (the arrow will turn blue). Tap Shift twice to switch to all capitals (the key will turn blue).
• Tap Symbols to switch to a symbols keyboard, to enter symbols. There are two symbol keyboards.

• Touch and hold Control for quick access to cut (x), copy (c), paste (v), undo (z), redo (y), and select all (a).

• Touch and hold Settings > Voice input to switch to Google Voice typing to enter text by speaking. See Google Voice Typing.

• If you have more than one language selected in Samsung Keyboard settings, you can swipe your finger over Spacebar to switch between languages.

Note: Once you have used a keyboard option, such as Voice input, the options icon changes from Options ( ) to the most recently used option ( ). You can then tap the icon to use that option, or touch and hold to see the full menu.

Configure Samsung Keyboard

• From home, tap Apps > Settings > Language and input > Samsung keyboard.

Google Voice Typing

Google Voice typing uses Google voice recognition to convert speech to text.

Use Google Voice Tyg to Enter Textpin

1. While entering text, drag down from the top of the screen to open the notification panel, and then tap Select keyboard > Google voice typing.

   – or –

   Tap Voice input on the Samsung keyboard.

   – or –

   Touch and hold Settings on the Samsung keyboard, and then tap Voice input.
2. Speak into the microphone and watch your text being entered.

3. If the text is incorrect, tap Delete .

4. Once you have completed entering your text, tap Exit . The keyboard will reappear.

Nota: You can assign a new language to Google voice typing. Tap Settings > Languages, and then touch and hold a language to assign it as the default language. To add more languages, tap Settings > Languages, tap the language(s) you want to add, tap Save, and then tap the Back key .

Configure Google Voice Typing

- From home, tap Apps > Settings > Language and input > Google voice typing.

Tips for Editing Text

Your tablet gives you many options to make entering text easier, including copying, cutting, and pasting text, using voice-to-text input, customizing the user dictionary, using predictive text, and more.

- Touch and hold text to highlight it, and then select from the following options:
  
  - Select all: Highlight all the text in the field.
  - Cut: Remove the selected text and save it to the clipboard.
  - Copy: Copy the selected text to the clipboard.
  - Paste: Insert the last copied or cut text into the current field.
  - Clipboard: Display the clipboard to choose previously cut or copied text.
  - Assist: Perform a Google search on the selected term.
Google Account

You will need a Google Account to access several tablet features such as Gmail, Google Maps™, Hangouts, and the Google Play applications. Before you are able to access Google applications, you must enter your account information. These applications sync between your tablet and your online Google Account.

Google Account Cautions

Be sure not to forget your Google Account ID or password.

Create a Google Account

If you do not already have a Google Account, you can create one online or by using your tablet.

Note: You can also create and sign into your Google/Gmail account through your tablet’s Setup application.

Note: Although you need a Gmail account to use certain features of your tablet, such as Google Play, you do not need to use Gmail as the default account for your tablet.

Create a Google Account Online

1. From a computer, launch a Web browser and navigate to google.com.
2. On the main page, click Sign in.
3. Click Add account > Create an account, and then follow the prompts to create your free account.
4. Look for an email from Google in the email box you provided, and respond to the email to confirm and activate your new account.

Create a Google Account Using Your Tablet

1. From home, tap Apps > Settings > Accounts.
2. Tap **Add account**.

3. Tap **Google > Or create a new account**.
4. Enter your **First name** and **Last name**, and then tap **Next**.
5. Enter a desired **Username**, and then tap **Next**.

6. When prompted, enter and re-type a password. Then tap **Next**.

7. Enter a valid phone number to help you recover your Google Account and password if you ever forget it, and then tap **Next**.
Note: When setting up a new Google Account, either on your tablet or online, it may prompt you to add a secondary email address. Enter a second Gmail address or any other email address from which you currently send and receive email. This address is used to authenticate your account should you ever encounter problems or forget your password. It is strongly encouraged for Android users so you can regain access to Google services and purchases on your tablet.

8. Read the Google Terms of Service, Privacy Policy, and other legal documents, and then tap I agree.

9. Tap Next.
10. Configure your Google data backup and communication, and then tap **Next**.

11. If desired, you can set up payment options for purchases through the Google Play store, and then tap **Next**.
You are signed in to your new Google Account.

Your Google account is listed in Apps > Settings > Accounts.

Sign In to Your Google Account

If you have a Google Account but have not yet signed in with your tablet, follow these instructions to sign in to your Google Account.

1. From home, tap Apps > Settings > Accounts.
2. Tap **Add account**.
3. Tap **Google**.

4. Tap **Enter your email**, enter your Gmail address, and then tap **Next**.
5. Enter your password, and then tap **Next**.

6. Read the Google Terms of Service, Privacy Policy, and other legal documents, and then tap **Accept**.
7. Configure your Google data backup and communication, and then tap **Next**.

8. Set up payment information for use in the Google Play store, and then tap **Next**.

⚠️ You are now signed in to your Google Account, and your tablet will start synchronizing with your Google Account.
Your Google account is listed in Apps > Settings > Accounts.

![Settings menu]

**Factory Reset Protection**

When you sign in to a Google Account on your device, Factory Reset Protection (FRP) is turned on. Factory Reset Protection prevents other people from using your device if it is reset to factory settings without your permission. For example, if your device is lost or stolen and a factory data reset is performed, only someone with your Google Account username and password can use the device.

You will not be able to access the device after a factory data reset if you do not have your Google Account username and password. For more information, see Factory Data Reset.

**Caution:** You should remove your Google Account before shipping your device to Samsung or any other service provider for service and before resetting the device to factory settings.

**Enable Factory Reset Protection**

Adding a Google Account to your device automatically turns on the Factory Reset Protection (FRP) security feature. For more information, see google.com.

**Disable Factory Reset Protection**

To disable FRP, remove all Google Accounts from the device.

1. From home, tap Apps > Settings.
2. Tap Accounts > Google.
3. Tap More > Remove account.
Google Play Store

Google Play is the place to go to find new Android apps, books, movies, and music for your tablet. Choose from a wide variety of free and paid content ranging from productivity apps and games, to bestselling books, blockbuster movies, and music. When you find what you want, you can easily download and install it on your tablet.

To access the Google Play store app, you must first connect to the Internet using your tablet’s Wi-Fi or mobile data connection and sign in to your Google Account. See Browser and Sign In to Your Google Account for details.

Installing Applications

Many different kinds of applications can be installed on your tablet from Google Play (provided by Google Inc.). Sprint is not responsible in any way for user-installed applications (quality, reliability, legality, fitness for a purpose, credibility, accuracy, and so on.) or resulting malfunctions (viruses, and so on.).

Important: Our policies often do not apply to third-party applications. Third-party applications may access your personal information or require us to disclose your customer information to the third-party application provider. To find out how a third-party application will collect, access, use, or disclose your personal information, check the application provider’s policies, which can usually be found on their website. If you are not comfortable with the third-party application’s policies, do not use the application.

Find and Install an App

When you install apps from Google Play app and use them on your tablet, they may require access to your personal information (such as your location, contact data, and more) or access to certain functions or settings of your tablet. Download and install only apps that you trust.

1. From home, tap Apps > Play Store.

2. When you open the Google Play store app for the first time, the Terms of Service window will appear. Tap Accept to continue.

3. Browse through the categories (Apps & Games or Entertainment), find an item you are interested in, and tap the name.
   - Browse through featured apps. Scroll through the list of featured apps when you open Google Play.
   - Search for an app. Tap the Search field on the Google Play home screen, enter the name or type of app you are looking for, and then tap Search on the keyboard.

4. Tap an app to read a description about the app and user reviews.

5. Tap Install (for free applications) or the price (for paid applications).
Note: If you did not set up a payment option during tablet setup or when adding your Google Account, you will be prompted to add a payment method when making a purchase from Google Play.

6. The subsequent screen notifies you whether the app will require access to your personal information or access to certain functions or settings of your tablet. If you agree to the conditions, tap Accept (for free apps) or Accept and then Buy (for paid apps) to begin downloading and installing the app.

⚠️ The selected app is downloaded and installed on your tablet.

Warning: Read the notification carefully! Be especially cautious with applications that have access to many functions or a significant amount of your data. Once you tap OK on this screen, you are responsible for the results of using this item on your tablet.

Purchasing Applications

Purchase apps at your own risk. Sprint is not responsible for any harm to you or third parties resulting from the use of purchased applications.

Request a Refund for a Paid App

If you are not satisfied with an app, you can ask for a refund within 15 minutes of the purchase. Your credit card or other payment method is not charged and the app is uninstalled from your tablet.

If you change your mind, you can install the app again, but you cannot request a refund a second time.

1. From home, tap Apps > Play Store.
2. Tap Menu > My apps & games.
3. Tap the app to uninstall for a refund. The details screen for the app opens.
4. Tap Refund, and then tap Yes to confirm. Your app is uninstalled and the charge is cancelled.

Update an App

Depending on your settings, many apps will update automatically, or you can update apps directly from the Play Store app.

Update an App Directly

1. From home, tap Apps > Play Store.
2. Tap `Menu` > `My apps & games`.

3. Tap the app you want to update, and then tap `Update`.

- The app update is downloaded and installed.

**Set Automatic App Updates**

1. From home, tap `Apps` > `Play Store`.
2. Tap **Menu > My apps.**

3. Tap the app you want to set for auto-update, and then tap **More options > Auto-update.**

   ![Auto-update settings for an app]

   The app is set to update automatically whenever an update becomes available.

   **Note:** Automatic updates are unavailable for some apps.

**Uninstall an App**

You can uninstall any app that you have downloaded and installed from Google Play.

1. From home, tap **Apps > Play Store.**
2. Tap **Menu** ➤ **My apps**.

![My apps screen]

3. On the Installed screen, tap the app you want to uninstall, and then tap **Uninstall** ➤ **OK**.

![Uninstall app]

- The app is uninstalled and removed from your tablet.

**Get Help with Google Play**

The Google Play store app offers an online help option if you have questions or want to know more about the app.

1. From home, tap **Apps** ➤ **Play Store**.

2. Tap **Menu** ➤ **Help & feedback**.
The Web browser will take you to the Google Play Help Web page, where you will find comprehensive, categorized information about Google Play.

Lock and Unlock Your Screen

Your tablet allows you to quickly turn the screen off when not in use and to turn it back on and unlock it when you need it.

Turn the Screen Off When Not In Use

- To quickly turn the screen off, press the Power/Lock key. Pressing the Power/Lock key again will show the Lock screen.

To save battery power, the tablet automatically turns off the screen after a certain period of time when you leave it idle.

Note: For information on how to adjust the time before the screen turns off, see Display Settings.

Turn the Screen On and Unlock It

1. To turn the screen on, press the Power/Lock key.
The Lock screen appears.

2. Swipe your finger across the screen to unlock it.

The screen is unlocked.

- If you have set up a screen lock, you will be prompted to draw a pattern, enter a password or PIN, or scan your fingerprint. See Screen Lock.

**Update Your Tablet**

From time to time, updates may become available for your tablet. You can download and apply updates through the Settings > System update menu.

⚠️ **Software Update Cautions**
During update: The tablet cannot be used until the software update is complete. It may take time to update your tablet’s software.

Signal during update: Update your tablet where signal reception is good, and do not change location during the update process. Make sure the battery is adequately charged before beginning an update. A weak signal or low battery during an update may cause the update to fail. An update failure may disable the tablet.

Other functions during update: Other tablet functions cannot be used during a software update.

**Update Your Tablet Software**

You can update your tablet’s software using the System update option.

**Before Updating Your Tablet**

Updating your tablet may result in a loss of saved data depending on the condition of your tablet (malfunctioning, damaged, water seepage, and so on.). You must back up all critical information before updating your tablet firmware.

**Back Up All Data Prior to Update**

To back up your Gmail information:

1. From home, tap Apps > Settings > Accounts > Google > [your account].
2. Tap On/Off to enable backup of each item.
3. Tap More > Sync now to sync your Google Account information.

To back up your Exchange Mail information:

1. From home, tap Apps > Settings > Accounts > Microsoft Exchange ActiveSync.
2. Tap On/Off to enable backup of each option (Calendar, Contacts, Email, Tasks).
3. Tap More > Sync now to sync your Microsoft® Exchange ActiveSync information.

To back up your Google apps:

1. From home, tap Apps > Play Store.
2. Tap Menu > My apps & games > All tab.
3. Scroll through the list of previously downloaded Google apps and choose those you wish to reinstall.
4. Follow the prompts.

**Note:** Your Google app purchases are saved remotely and can be re-installed after the update is applied.
Update Your Tablet’s Software

Once you have backed up all your data, use the Update now option to update your tablet’s software.

- From home, tap Apps > Settings > System Update > Download updates manually.

- Your tablet automatically downloads and installs any available updates. You may be required to power your tablet off and back on to complete the software upgrade.

  – or –

1. Locate the Software update icon in notifications.
2. Drag the status bar down.
3. Tap Software update to open the Software update screen.
4. Tap Download and follow the instructions. The downloading icon appears within the status bar to indicate the tablet is downloading the necessary files.
5. Follow the prompts to install the update and restart your tablet.

Confirm Your Current Tablet Software

1. From home, tap Apps > Settings > About device.
2. Locate the **Software version** read-only field.

**Update Your Profile**

This option allows you to automatically update your online user profile information. If you choose to change your user name and select a new one online, you must then update the user name on your tablet.

1. From home, tap **Apps > Settings > System Update > Update Profile.**
2. Follow the instructions.

- The tablet will download and install the profile update and you will see a confirmation when complete.

**Note:** If your data services or account syncing ever seems to go out unexpectedly, use this feature to reconnect with the network.

## Update Your PRL

This option allows you to download and update the PRL (preferred roaming list) automatically.

1. From home, tap **Apps** > **Settings** > **System Update** > **Update PRL**.

2. Follow the prompts.
The tablet will download and install the PRL update and you will see a confirmation when complete.
Your Tablet’s Home Screen

The following topics describe how to use and customize your tablet’s home screen, understand the status bar, and use the notification panel.

Home Screen Basics

The home screen is the starting point for your tablet’s applications, functions, and menus. You can customize your home screen by adding application icons, shortcuts, folders, widgets, and more.

Home Screen Layout

Your home screen extends beyond the initial screen. Swipe the screen left or right to display additional screens.

<table>
<thead>
<tr>

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Status area</td>
<td>The status area of the status bar (on the right) displays tablet and service status information such as signal strength, battery status, Wi-Fi and data connectivity, and time.</td>
</tr>
<tr>
<td>Item</td>
<td>Description</td>
</tr>
<tr>
<td>-------------------------------</td>
<td>---------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Status bar</td>
<td>The status bar displays icons to notify you of your tablet’s status (on the right side) and notifications (on the left side).</td>
</tr>
<tr>
<td>Widget</td>
<td>Widgets are self-contained onscreen apps that reside on your tablet’s home screen.</td>
</tr>
<tr>
<td>Application icons</td>
<td>Application icons are shortcuts to favorite applications. You can add and remove these shortcuts as you wish.</td>
</tr>
<tr>
<td>Applications (Apps) list</td>
<td>Tap to open the applications (apps) list. The apps list key is a primary shortcut available from all home screens.</td>
</tr>
<tr>
<td>Primary shortcuts</td>
<td>Primary shortcuts are application shortcuts that appear in the same location on all of your tablet’s home screens. These are customizable except for the Applications (Apps) shortcut, which remains static.</td>
</tr>
<tr>
<td>Notification area</td>
<td>The notification area of the status bar (on the left) displays notifications for incoming messages, missed calls, application updates, and more.</td>
</tr>
</tbody>
</table>

**Note:** The indicator above the primary shortcuts lets you know your current screen position.

**Tip:** Press the Home key to return to the main home screen from any other screen.

**Extended Home Screens**

In addition to the main home screen, your tablet features extended home screens to provide more space for adding icons, widgets, and more. Press the **Home** key to display the main home screen and then drag across the screen to move from the main screen to an extended screen.

- Swipe left or right to go to an extended home screen.
- While on an extended screen, press the **Home** key to return to the main home screen.

**Add Home Screens**

If you want to set up more shortcuts or widgets than you have space for, you can add more home screens.

1. Touch and hold an empty area on a home screen.
2. Scroll through the thumbnail screens to the right until you see a blank screen with an **Add** sign.
3. Tap Add to add the screen.

- A new blank home screen will be added to the far right of your screens.

**Status Bar and Notification Panel**

Your tablet’s status and notifications are available at a glance at the top of the screen.

**Status Bar**

The status bar at the top of the home screen provides tablet and service status information on the right side and notification alerts on the left. To view the notification panel or access the quick settings menu, slide your finger down from the top of the screen.

Notification Panel

Your tablet’s notifications appear at the left side of the status bar, and you can access the full notification panel by pulling down the status bar. From there, you can check notifications, download updates, open messaging apps, use the quick settings menu, and more.

Open the Notification Panel

- Drag the status bar down. (Slide your finger down from the top of the screen.)
The notification panel opens. To check notifications, tap an item in the list.

**Close the Notification Panel**

- Drag the notification panel up. (Slide your finger up from the bottom of the screen.)

  — or —

  Tap the **Back** key to close the notification panel.

**Notification Panel Layout**

The notification panel gives you access to notifications, settings, and the quick settings menu.

**Notification Panel Quick Settings**

The Quick Settings list at the top of the notification panel lets you quickly access frequently used settings options. Scroll left or right to display all available settings, and tap an icon to turn the selected feature on or off.

You can customize which settings are available in your Quick Settings list.
1. From a home screen, drag the status bar down to display the notification panel.

2. Tap View all 🔄 > Edit to display the quick settings panel options.

3. Drag buttons to arrange the order in which options appear in the quick settings panel.

4. Tap Done when you are finished.

**Quick Connect**

Quickly connect wirelessly to nearby devices that support Quick connect, Wi-Fi Direct, and devices that can share media using Wi-Fi.

1. Open the notification panel by sliding your finger down from the top of the screen.

   - The notification panel opens.

2. Tap Quick connect > Start to view available devices.

3. Tap a device and follow the prompts to connect.

4. Tap More for options:
   - Set device visibility:
     - Visible to all: Your device will always be visible to other devices.
Visible to contacts: Your device will always be visible to contacts only.

Only when Quick connect turned on: Your device will only be visible to other devices when Quick connect is turned on.

- About Quick connect: View software version.
- Help: View information on using Quick connect.

Multi Window

The Multi window™ feature lets you multitask by using multiple applications at the same time.

Activate Multi Window

Apps that support Multi window display together on a split screen. You can switch between the apps, adjust the size of their display on the screen, and copy information from one app to the other.

Note: Multi window is not available for all apps.

1. From any screen, touch and hold Recent apps.
2. Tap two apps that support Multi window to open them in split screen view.
   - or -
   
   If you are currently using an app that supports Multi window, tap another app to add it in split screen view.

You can also launch recently used apps directly into Multi window view:

1. From any screen, tap Recent apps.
   - Recently used apps that support Multi window have a Multi window icon in their title bar.
2. Tap Multi window in the title bar to launch an application in split screen view.
   - Other recently used apps that support Multi window display below the launched app.
3. Tap an app shortcut to add it to the split screen view.

Note: Only applications that support Multi window have the Multi window icon.

Window Controls

Use Window controls to switch windows, drag and drop content, minimize or maximize windows, or to close a window.

1. Select an app window, and then tap Window controls in the middle of the window border.
2. The following options are available:
• ✡ Switch windows: Switch locations between Multi window apps.

• 📁 Drag and drop content: Move items between the app windows. Drag an item to share from one window to another. Not all applications support this feature.

• 🡣 Maximize window: Open the selected app window in full screen view.

• ✗ Close app: Close the selected app.

Customize the Home Screen

Learn how to set the wallpaper and add, move, or remove shortcuts, widgets, and folders from the home screen.

Operations for Rearranging the Home Screen

- Moving widgets and shortcuts: From home, touch and hold an item and then drag it to the desired location.

- Deleting widgets and shortcuts: From home, touch and hold an item and then drag it to Remove 🗑.

- Displaying the home screen menu: From home, touch and hold an empty space to display the home screen menu. Menu options include Wallpapers and Widgets.

Change the Wallpaper

Select and assign your tablet's background wallpaper.

1. From home, touch and hold an empty space, and then tap Wallpapers 🗂.
Tip: You can also access the wallpaper menu through settings. From home, tap Apps > Settings > Wallpaper.

2. Tap an option to change the wallpaper.

- **Home screen**: Set the background wallpaper for your home screen.
- **Lock screen**: Set the wallpaper for your tablet’s lock screen.
- **Home and lock screens**: Set a wallpaper for both your home screen and your lock screen.

3. Select a wallpaper and tap **Set as wallpaper**.

   ![](image)

   - The wallpaper is set.

**Add Shortcuts to the Home Screen**

You can add shortcuts for quick access to favorite apps from the home screen.

1. From home, tap **Apps**.

Your Tablet's Home Screen
The Apps list opens.

2. Touch and hold an app shortcut.
   - The shortcut will disengage and you will see the current home screen.

3. Drag the icon to an empty location on the home screen.
   - The shortcut is added to the home screen.

**Add Widgets to the Home Screen**

You can add widgets to your tablet’s home screen. Widgets are self-contained apps that display on a home screen. Unlike a shortcut, the Widget works like an onscreen application. There are all kinds of widgets, including links to a specific contact, Internet bookmarks, Gmail and email accounts, and many others.

1. From home, touch and hold an empty space, and then tap **Widgets**.
2. Touch and hold a widget icon.
   - The icon will disengage and you will see the current home screen.

3. Drag the icon to an empty location on the home screen.
   - The widget is added to the home screen.

**Add Folders to the Home Screen**

You can group home screen shortcuts into folders for convenient access.

1. From home, touch and hold a shortcut you want to place in a folder, and then drag it on top of another shortcut and release it.

2. Type a name for the folder and tap **Done**.
A new folder is created.

3. Tap the Back key to close the folder and return to the home screen.

4. To add more app shortcuts to the folder, touch and hold a shortcut and drag it on top of the new folder.

   • The new shortcut is added to the folder.

**Change Folder Names**

Once you have added folders, you can change the name easily from the folder display.

1. From home, tap the folder to open it, and then tap the folder name.

2. Type a new name and then tap Done.

3. Tap the Back key to close the folder and return to the home screen.

**Change the Folder Color**

You can change the color of a folder.

1. From home, tap the folder to open it.

2. Tap Palette and select a color.

3. Tap the Back key to close the folder and return to the home screen.
Contacts

The Contacts application lets you store and manage contacts from a variety of sources, including contacts you enter and save directly in your tablet as well as contacts synchronized with your Google Account, your PC, compatible email programs (including Exchange Server), and your Facebook friends.

Contacts Cautions

Information saved in Contacts may be lost or changed if the battery is left uncharged. Accident or malfunction may also cause loss or change to information. It is recommended that you keep a separate copy of contacts and other important information. Sprint is not responsible for any damages from lost or changed contacts.

Contacts Screen Layout

The following illustration show’s your Contacts app layout and describes the various features.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>More options</td>
<td>Access additional options.</td>
</tr>
<tr>

</tr>
<tr>
<td>contact</td>
<td></td>
</tr>
</tbody>
</table>

**Add a Contact**

You can add contacts from the Contacts application. Enter details such as name, phone numbers, email addresses, mailing addresses, and more.

1. From home, tap **Apps > Contacts**.

You will see the Contacts list.

2. Tap **Add** to add a contact.

3. If you have multiple account types associated with your tablet, select an account to store your contact:

   - Select **Device** as the sync account if you want your contacts on your tablet only; they will not be synced with your Google Account.
   - Select **Google** if you want to save contacts to your Google Account; these will be synced automatically with your Google Account online. If you have multiple Google Accounts set up, you will need to pick a specific account.
   - Select **Samsung account** to sync your contacts automatically with your Samsung account.
   - Select **Microsoft Exchange ActiveSync** to sync your contacts automatically with your Microsoft Exchange account.
4. Enter as much contact information as you want.

- **Photo**: Tap **Photo** 📸 to assign a picture to the contact.
- **Name**: Enter the contact’s name.
- **Phone number**: Enter a phone number for the contact.
- **Email**: Enter an email address.
- **Groups**: If desired, assign the contact to one or more contact groups.
- **More**: Add additional information, such as Organization, Address, Web address, IM account, and more.

**Note**: To select a type (label) for a phone number, email address, or address (such as Mobile, Home, Work, and so on), tap the type to the right of the field and select the appropriate type.

**Note**: To add more phone numbers, email addresses, and so on, tap **Add** 🔄 on the right side of the entry field.

5. When you have finished adding information, tap **Save**.
The contact is added.

**View Contacts**

View a contact’s details by displaying a contact entry.

1. From home, tap **Apps > Contacts**.
2. Tap a contact to view its details.

**Edit a Contact**

Once you have added a contact, you can add or edit any of the information in the entry, assign a caller ID picture, customize with a unique ringtone, and more.
1. From home, tap **Apps 🔄 > Contacts 📞**.

2. Tap a contact to view its details.

![Contact Details](image1)

- The contact's detailed listing appears.

3. Tap **Edit**.

4. Tap any field you want to change or add. See [Add a Contact](#).

5. Add or edit the information, and then tap **Save**.

![Contact Editing](image2)

- Your changes are saved to the contact entry.

**Delete a Contact**

You can delete a contact from the contacts details page.
1. From home, tap **Apps 📢 > Contacts 📞**.

2. Tap a contact to view its details.

<table>

</tr>
</tbody>
</table>

- The contact’s detailed listing appears.

3. Tap **More (right) > Delete > Delete**.

- The contact is deleted.

**Tip:** You can also touch and hold the contact from the Contacts list and tap **Delete > Delete**.

**Share a Contact**

You can quickly share contacts using Bluetooth, email, Gmail, or text messaging.
1. From home, tap Apps > Contacts.

![Contacts](image1)

2. Tap a contact to display it, and then tap More (right) > Share contact.

![Share contact](image2)

3. Select vCard file (VCF) or Text format.

4. Select a sharing method:
   - Both vCard file (VCF) and Text formats:
     - Add to OneNote: Save the information to your OneNote account.
     - Bluetooth: Send the information using Bluetooth. See Bluetooth for information on pairing and sending via Bluetooth.
     - Save to Drive: Save the information to your Google Drive™ account.
     - Email: Send the information as an email attachment. See Create and Send Email.

Contacts
• Gmail: Send the information as a Gmail attachment. See Create and Send a Gmail Message.

• OneDrive: Save the information to your OneDrive account.

• Wi-Fi Direct: Send the information to another device using Wi-Fi Direct.

• Text format only:
  • Copy to clipboard: Save the information to your clipboard to be pasted later.
  • Hangouts: Send the information through a Hangouts conversation.
  • Memo: Save the information as a memo.

5. Complete the required steps as prompted for the selected method.

**Import Contacts**

Import (load) contacts that have been backed up to device storage.

**Import Contacts from Device Storage**

1. From home, tap Apps > Contacts.
2. Tap More (left) > Settings > Import/Export contacts.

You will see the Import/Export contacts menu.

3. Tap Import.
4. Select a destination for the imported contacts.
5. Follow the prompts to complete the import.

The contacts are imported and stored in the selected account.

**Back Up Contacts**

If you are saving contacts to an account that does not automatically back them up using the Cloud, you can manually back them up to your tablet’s memory for re-import if needed.

1. From home, tap Apps > Contacts 📞.
You will see the Contacts list.

2. Tap More (left) > Settings > Import/Export contacts.

You will see the Import/Export contacts menu.

3. Tap Export.
   - The contacts are exported from Contacts on your device to your device storage as vCards.
Messaging and Internet

With wireless service and your tablet’s messaging and data capabilities, you have the opportunity to share information through many different channels and accounts, including Gmail (Google), personal and corporate email, social networking accounts, and Hangouts.

Gmail

Use Google’s Gmail service and your Google Account to send, receive, and manage your Gmail messages. Before using Gmail, you must register a Google (Gmail) Account on your tablet. See Google Account for details.

⚠️ Gmail Cautions

Gmail is handled as email from a PC. Restricting email from PCs on your tablet prevents your tablet from receiving Gmail.

Create and Send a Gmail Message

Use your tablet to create and send Gmail messages.

1. From home, tap Apps > Google > Gmail.

![Gmail inbox]

- The Gmail inbox opens.

2. In the inbox, tap Compose.
The Gmail composition window opens.

3. Enter the message recipient(s), subject, and message, and then tap **Send**.

The Gmail message is sent.

**Gmail Composition Options**

- **Adding Cc/Bcc**: In the **To** field, tap **Expand** to display Cc and Bcc fields.

- **Attaching Pictures or Videos**: In the mail composition window, tap **Attachment** > Attach file. Locate and tap the picture or video you want to attach.

- **Save as a draft (Send Later)**: While composing your message, tap **More options** > **Save draft**. The message is saved as a draft.
- **Delete Mail Being Composed:** In the mail composition window, tap More options > Discard > Discard.

**Note:** To view your draft email messages, in the inbox, tap Menu > Drafts.

**Note:** To view your sent messages, in the inbox, tap Menu > Sent.

### Check Received Gmail Messages

Your tablet allows you to access, read, and reply to all your Gmail messages.

#### Open Gmail Messages from Notifications

When new Gmail arrives, you will see New Gmail in the status bar.

1. Drag the status bar down to display the notification panel.

![Notification Panel]

2. Tap the new message from the notification panel.

   - The new Gmail message opens.

   - If you have two or more new Gmail messages, tapping the notification opens the Gmail inbox.

#### Open Gmail Messages from the Inbox

You can also read and reply to all your Gmail messages from the Gmail inbox.

1. From home, tap Apps > Google > Gmail.
The Gmail inbox opens.

2. Tap the message thread you want to view.

The message thread opens, with the newest message displayed.

Options when Reviewing Gmail Messages

- **Replying to Gmail Messages**: With the Gmail message open, tap Reply ⬅️, compose your reply message, and tap Send ➤️.
  - To reply to all, tap More options ➕ ➔ > Reply all.

- **Forwarding Gmail Messages**: With the Gmail message open, tap Forward ➔, enter a recipient and an additional message, and tap Send ➤️.
**Use Gmail Labels**

Gmail saves all mail in one box, but you can add labels that allow you to sort your Gmail conversation threads. For example, when a new thread starts with a received mail, the label “Inbox” is automatically added to the thread. By then adding the label “travel,” all threads with “travel” are shown in a list.

1. From home, tap Apps > Google > Gmail 📧.

   ![Gmail inbox](image)

   The inbox opens.

2. Touch and hold a conversation thread (or touch the thread’s icon/picture) to add a checkmark to it, and then tap More options > Move to.

3. Tap a label for the thread.

   The thread is added to the selected label.
Archive Gmail Threads

Remove sent and received Gmail threads so they do not appear in the inbox. When replies arrive for archived threads, they appear in the inbox again.

1. From home, tap Apps > Google > Gmail.

The inbox opens.

2. Touch and hold a conversation thread (or touch the thread's icon/picture) to add a checkmark to it, and then tap Archive.

The thread is now archived.
Mute Gmail Threads

If registered on a mailing list, there will be threads with always-continuing conversations. For long threads that are not important, mute the threads and they will no longer appear in the inbox. When new mail arrives that includes user's address as a recipient or in Cc, mail will again appear in the inbox.

1. From home, tap Apps > Google > Gmail.

The inbox opens.

2. Touch and hold a conversation thread (or touch the thread’s icon/picture) to add a checkmark to it, and then tap More options > Mute.

The thread is now hidden.
Delete Gmail Threads

If you no longer wish to keep a Gmail conversation thread, you can simply delete it from the inbox.

1. From home, tap Apps > Google > Gmail.

The inbox opens.

2. Touch and hold a conversation thread (or touch the thread’s icon/picture) to add a checkmark to it, and then tap Delete.

The thread is deleted.

Search Gmail Messages

If you need to find a specific message or message thread, you can search Gmail from the inbox.
1. From home, tap **Apps 📱 > Google 🎈 > Gmail 📨**.

   ![Google Gmail app open]

   The inbox opens.

2. Tap **Search 🔍**.
3. Enter your search text and tap **Search**.

![Screenshot of Gmail inbox]

- The search results appear. Tap a message or thread from the list to display it.

**Report Spam Gmail**

You can report spam Gmail messages from your tablet's Gmail inbox.

1. From home, tap **Apps > Google > Gmail**.

![Screenshot of Gmail inbox]

- The inbox opens.

2. Touch and hold a conversation thread (or touch the thread’s icon/picture) to add a checkmark to it, and then tap **More options** > **Report spam**.
The selected message is reported as spam.

**Add Another Google (Gmail) Account**

If you have multiple Gmail accounts you wish to view on your tablet, you can add them from the Settings > Accounts menu.

1. From home, tap **Apps > Settings > Accounts** > Add account.
2. Tap **Google**.

![Google Settings](image1)

3. Tap **Enter your email**, enter your Gmail address, and then tap **Next**.

![Add your account](image2)
4. Enter your password, and then tap **Next**.

5. Follow the prompts to review and agree to the Terms of Service and Privacy Policy, and then tap **Accept**.

6. After your tablet connects with the Google servers, select the items you would like to sync with your tablet and then tap **Next**.

   - You are signed in to your Google Account, and you can access both of your Gmail accounts from the Gmail app.

**Switching Between Gmail Accounts**

If you have more than one Gmail account set up, you can switch between them in the Gmail app.

1. From home, tap **Apps > Google > Gmail**.
The inbox opens.

2. Tap **Menu**.

![Menu icon]

3. Tap the icon for the account you want to view from the list at the top of the menu.

- The selected account inbox is displayed.

**Gmail Settings**

You can access settings for the Gmail app and for your individual Gmail accounts from the Gmail Settings menu.

1. From home, tap **Apps > Google > Gmail**.

![Gmail icon]

- The inbox opens.
2. Tap Menu > Settings.

3. Tap **General settings** to access settings for all accounts, or tap an account name to configure settings for a specific Gmail account.

   - **General settings**: Gmail default action, Conversation view, Swipe actions, Sender image, Reply all, Auto-fit messages, Auto advance, Confirm before deleting, Confirm before archiving, and Confirm before sending.

   - **Account settings**: Inbox type, Inbox categories, Notifications, Inbox sound & vibrate, Signature, Vacation responder, Sync Gmail, Days of mail to sync, Manage labels, Download attachments, and Images.

**Note**: Available settings are subject to change.

**Email**

Use the Email application to send and receive email from your webmail or other accounts, using POP3 or IMAP, or access your Exchange ActiveSync account for your corporate email needs.

**Set Up an Email Account**

Your tablet supports several types of email accounts and allows you to have multiple email accounts set up at one time.

Before setting up an email account, make sure you have the username (user ID), password, server name, and so on, so you can get set up successfully.

1. From home, tap Apps > Email.
A window for adding an account appears if no email account has been previously set up.

2. Tap **Add new account**, enter your Email address and Password, and then tap **Sign in**.

3. Follow the prompts to set up your email account.

   - The email account is set up and you will begin receiving email.

**Note:** From the Set up account screen, you can also tap a configured Gmail account to use it within the Email app.

**Add an Email Account**

You can add several types of personal email accounts, such as POP3 and IMAP accounts, on your tablet.
Add an Email Account from the Email App
You can add email accounts directly from the email app, even if you have another email account set up.

1. From home, tap \textbf{Apps} > Email.

\begin{figure}
\centering
\includegraphics[width=0.5\textwidth]{email_inbox.png}
\end{figure}

\par\textbullet\ The email inbox opens.

2. Tap More > Settings > Add account.

\begin{figure}
\centering
\includegraphics[width=0.5\textwidth]{email_settings.png}
\end{figure}
3. Tap **Add new account**, enter your Email address and Password, and then tap **Sign in**.

4. Follow the prompts to complete the account setup.
   - The email account is added and you will begin receiving email for the account.

**Add an Email Account from the Settings Menu**

You can also set up email accounts from the **Settings > Accounts** menu.

1. From home, tap **Apps ➤ Settings ➤ Accounts**.

2. Tap **+ Add account > Email**.
3. Enter the **Email address** and **Password** for the email account, and then tap **Sign in**.

![Add new account]

- Tapping **Sign in** prompts your tablet to attempt a “regular” email setup and test the incoming and outgoing servers.
  - If you have custom settings you need to configure, tap **Manual setup** and enter your settings. These may include mail type, user name, password, server, security type, and so on.

4. Select your sync settings, and then tap **Sign in**.
5. Enter an account name and a name for outgoing email and tap **Done** to complete setup.

The email account is set up and you will begin receiving email for the account.

**Important**: If the account type you want to set up is not in the tablet database, you will be asked to enter more details. You should get all pertinent information for the email account, such as incoming and outgoing server settings, before you proceed.

**Add an Exchange ActiveSync Account**

If you synchronize your tablet with your Exchange ActiveSync account, you can read, manage, and send email in the same easy way as with a POP3/IMAP account. However, you can also access some powerful Exchange features.

**Important**: Before setting up a Microsoft Exchange ActiveSync Account, contact your company's Exchange Server administrator for required account settings information.
1. From home, tap Apps > Settings > Accounts > Add account > Microsoft Exchange ActiveSync.

2. Enter the Email address and Password for the email account, and then tap Manual setup.

3. Enter the required information.
   - **Email address**: Enter your email address.
   - **Domain\username**: Enter your network domain and username, separated by “\”.
   - **Password**: Enter your network access password (case-sensitive).
   - **Show password**: Display the password as you enter it.
   - **Exchange server**: Enter your system’s Exchange server remote email address. Obtain this information from your company network administrator.
- **Use secure connection (SSL):** Tap to place a checkmark in the box, if your system requires SSL encryption.

- **Use client certificate:** Tap to place a checkmark in the box, if your system requires certification.

4. Tap **Sign in**, and then follow the prompts to configure options for the account.

![Manual setup](image)

5. Enter an account name and a name for outgoing email. Tap **Done** to complete setup.

   ✷ Your corporate email account is set up and you will begin receiving email for the account.

**Tip:** For some common Exchange email types, you may be able to tap **Sign in** in step 2. The server information will be filled in automatically if the system recognizes the domain.

### Create and Send Email

Create and send email using any account you have set up on your tablet. Increase your productivity by attaching files such as pictures, videos, or documents to your email messages.

1. From home, tap **Apps > Email**.
The email inbox opens.

- If you want to switch to a different email account, tap the account name at the top of the screen and select another account.
- You can also view multiple inboxes at once. Tap the account name at the top of the screen and then tap **Combined inbox** to see messages from all your configured email accounts.

2. Tap **Compose**.

   ![](image)

   The email composition window opens.

3. Enter the message recipient(s), subject, and message.
4. Tap **Send**.

![Email composition screen]

- The email message is sent.

**Open Email Messages**

You can open and read email messages directly from the email inbox. Reading and replying to email on your tablet is as simple as on your computer.

1. From home, tap **Apps** > **Email**.

![Email inbox screen]

- The email inbox opens.

2. Tap the message you want to view.
The email message opens.

**Tip:** Tap the account name at the top of the screen to switch to a different email account.

3. Tap Reply or Reply all to reply to the message.

**Options When Reviewing Email Messages**

- **Resetting Mail as Unread:** Touch and hold a read message, and then tap More > Mark as unread.
- **Deleting Email:** From the Inbox, touch and hold a message, select any additional messages, and then tap Delete > Delete.
  - When reading an email, tap Delete > Delete.
- **Replying to Email Messages:** With an email message open, tap Reply or Reply all, compose your reply message, and tap Send.
- **Forwarding Email Messages:** With the email message open, tap Forward, enter a recipient and an additional message, and tap Send.

**Delete an Email Account**

You can delete an email account from your tablet if you no longer wish to receive messages for the account on your tablet.

1. From home, tap Apps > Email.
The email inbox opens.

2. Tap **More > Settings**.
3. Tap the account name, and then tap Remove > Remove.

![Account removal screenshot]

- The account is deleted from your tablet

**Manage Your Email Inbox**

Your email inbox provides management options for viewing, sorting, and deleting your email messages.

**View Your Email Inbox**

1. From home, tap Apps 📲 > Email 📥.

![Email inbox screenshot]

- The email inbox opens.
2. Tap the email account at the top of the screen to select a different inbox, or tap Combined inbox to see all your email inboxes at once.

**Sort Email Messages**
1. On the email account inbox, tap More > Sort by.
2. Select options for sorting email messages.

**Delete Email Messages**
1. On the email account inbox, touch and hold the message you want to delete.
   - Tap additional emails to delete.
2. Tap Delete > Delete.

**Priority Senders**
Messages from priority senders automatically display at the top of your email inbox. Emails from priority senders display Priority sender 🌟 in their subject line.

To add priority senders:
1. On the email account inbox, tap Priority senders.
2. Tap 🌟 Tap to add priority senders.
3. Select a recommended contact, or tap the Contacts tab to select additional contacts.
4. Tap Done.

To view only emails from priority senders:
- On the email account inbox, tap 🌟 Priority senders.

**Exchange ActiveSync Email Features**
Set options for your corporate Exchange ActiveSync email messages, including synchronization options, out-of-office messages, account settings, and so on.

To access Exchange ActiveSync settings:
1. From home, tap Apps 📞 > Email 📨.
2. Tap **More > Settings**.
3. Tap the **Exchange ActiveSync** account name to view its options.

- The following options are available:
  - **Sync account**: Keep the account synchronized on your tablet.
  - **Account name**: Change the account name.
  - **Always Cc/Bcc myself**: Send a copy of each email you send to yourself.
  - **Signature**: Enable and configure your signature for each email you send.
  - **Show images**: Show all images in emails.
  - **Auto download attachments**: Automatically download attachments when connected to a Wi-Fi network.
  - **Sync schedule**: Configure a schedule for syncing your email account.
  - **Period to sync Email**: Configure how far back in time you want to sync your email account.
  - **Limit retrieval size**: Set a limit to the size of email messages you want to receive on your tablet.
  - **Limit retrieval size while roaming**: Set a different email size limit when your tablet is on roaming.
  - **Out of office settings**: You can set your Out of Office status and auto-reply message right from your tablet.
  - **Folder sync settings**: Select which email folders to sync with the server.
  - **Period to sync Calendar**: Set the time period for syncing your calendar with the server.
  - **Empty server trash**: Delete the content of the trash folder on the server.
In case of sync conflict: Select whether the device or the server has priority during a sync conflict.

Sync Contacts: Sync your Contacts with your Exchange account.

Sync Calendar: Sync your calendar with your Exchange account.

Sync Task: Sync your tasks with your Exchange account.

Security options: Manage encryption and signature options for outgoing email.

Exchange server settings: Modify the Exchange server settings for this email account.

Data Services General Information (4G LTE Network)

The following topics will help you learn the basics of using your data services, including managing your user name, launching a data connection, and navigating the Web with your tablet.

Important: Certain data services requests may require additional time to process. While your tablet is loading the requested service, the touchscreen or QWERTY keyboard may appear unresponsive when in fact they are functioning properly. Allow the tablet some time to process your data usage request.

4G LTE

The 4G LTE network provides your tablet with wireless Internet access over greater distances than Wi-Fi and delivers data transfer rates of up to 60 Mbps. To connect your tablet to a 4G LTE network, you need to be in an area covered by a 4G LTE network.

For more information about the availability of Sprint 4G LTE service in your location, visit sprint.com/coverage.

Note: The availability and range of the network depends on a number of factors, including your distance to the base station, and infrastructure and other objects through which the signal passes.

Your User Name

When you buy your tablet and sign up for service, you are automatically assigned a user name, which is typically based on your name and a number, followed by “@sprintpcs.com”. (For example, the third John Smith to sign up for Sprint data services might have jsmith003@sprintpcs.com as his user name.)

When you use data services, your user name is submitted to identify you network. Your user name is automatically programmed into your tablet. You do not have to enter it.

Find Your User Name

You can find your user name through your tablet’s device menu.
1. From home, tap Apps > Settings > About device.

![Settings screen with About device highlighted]

2. Tap Status.

![Status screen showing user name]

- You will see your user name under the “Username” heading.

**Update Your User Name**

If you choose to change your user name and select a new one online, or make any changes to your services, you must then update the profile on your tablet.

1. From home, tap Apps > Settings > System Update.
2. Tap **Update profile**.

   - Your tablet will download and install the profile update.

### Data Connection Status and Indicators

Your tablet displays the current status of your data connection through indicators at the top of the screen. The following symbol is used:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="lte.png" alt="LTE" /></td>
<td>Network (full signal): The fullness of the triangle icon indicates the strength of the signal. A fuller icon means a better signal.</td>
</tr>
</tbody>
</table>

### Browser

Your tablet’s Web browser gives you full access to both mobile and traditional websites on the go using 4G or Wi-Fi data connections.

### SSL/TLS

SSL (Secure Sockets Layer) and TLS (Transport Layer Security) are protocols for encrypting sent/received data. While in a screen connected by SSL/TLS, data is encrypted to safely send/receive private information, credit card numbers, corporate secrets, and so on, and provide protection against online threats (eavesdropping, falsification, impersonation, and so on).

### SSL/TLS Cautions

When opening a secured page, users must decide as their responsibility whether or not to open the page with use of SSL/TLS. Sprint and the applicable Certification Authorities make no guarantees whatsoever to users regarding security of SSL/TLS.
Use the Browser

Launching the browser is as easy as tapping an icon.

- From home, tap Apps > Internet.

The browser opens.

Tip: To change the tablet’s default launch page to your current page, tap More > Settings > Homepage > Current page.

Add a Bookmark

Bookmark favorite sites using the browser menu options.

1. From home, tap Apps > Internet.
The browser opens.

2. Navigate to the Web page you want to bookmark, and tap **Bookmarks > Add**.

   The add bookmark window opens.

3. Check or change the bookmark title, URL, and so on, and then tap **Save**.

   The Web page is added to bookmarks.

**Bookmark Options**

- **Edit Bookmarks**: From the browser, tap **Bookmarks**, touch and hold a bookmark, tap **More > Edit bookmark**, edit the bookmark, and then tap **Save**.

- **Delete Bookmarks**: From the browser, tap **Bookmarks**, touch and hold a bookmark, and then tap **Delete**.

**View Browser History**

Use the browser menu options to view your browsing history.

1. From home, tap **Apps > Internet**.
The browser opens.

2. Tap Bookmarks.

   The bookmark window opens.

3. Tap the History tab, and then tap an entry.
The Web page opens.

**Open New Browser Tab**

Use tabs to switch between websites quickly and easily.

1. From home, tap Apps > Internet.

The browser opens.

2. Tap New tab.

The tab opens.

**Browser Settings**

Configure Internet browser settings.
1. From home, tap Apps > Internet.
2. Tap More > Settings.

For more details, see Internet Settings.

**Chrome Browser**

In addition to the default “Internet” Web browser, your tablet supports the Chrome mobile Web browser. If you are signed in with a Google Account, the Chrome browser will import all your bookmarks and other Web preferences for use on your tablet.

1. From home, tap Apps > Chrome.

   ![Chrome Browser](image)

   - Chrome opens.

2. Tap the address bar at the top and enter search words (for a Google search) or a Web address (URL).
The search results appear or a Web page opens.

**Chrome Support**

- To find on-tablet help with Chrome, from Chrome, tap *More options > Help & feedback*.
- A Web page will open displaying Google help for Chrome.

**Tip:** For more information, from your computer, visit: google.com/chrome.
Camera and Video

You can use the camera or video camera to take and share pictures and videos. Your tablet comes with a 16 megapixel rear camera and a 5 megapixel front camera that let you capture sharp pictures and videos.

Camera Overview

The camera’s viewfinder screen lets you view your subject and access camera controls and options.

Shortcuts menu: Gives quick access to frequently-used camera settings:
- **Effect**: Add a special graphical effect.
- **Timer**: Take time-delayed pictures or videos.
- **Beauty**: Take a picture with lightened faces for gentler images (front camera only).
- **Picture size**: Change the resolution of pictures.

Camera settings: Opens the camera settings menu and lets you change additional camera settings. See Camera Options and Settings.

- Gallery: View your picture or video in the Gallery application.
- Record video: Begin recording video.
- Capture picture: Take a picture.
- Switch cameras: Switch between the rear camera and the front camera.
- Shooting modes: Select a shooting mode.

Learn About Your Tablet’s Camera

For an overview of your tablet’s camera and its features, access the tablet settings menu.

1. From home, tap Apps > Camera.
2. Tap **Settings** > **Help**, and tap a topic to learn more.

### Take Pictures and Record Videos

The following topics teach you how to take pictures and record videos with your tablet’s camera.

#### Capturing Pictures/Videos

- **File Format for Pictures**: File format for pictures is JPEG (.jpg).
- **File Format for Videos**: File format for videos is MPEG4 (.mp4).

⚠️ **Camera Cautions**

Avoid Exposure to Direct Sunlight: Be careful not to expose lens to direct sunlight for long periods. This may discolor color filter and affect color of images.

Take a Picture
You can take high-resolution pictures using your tablet’s camera.

Note: Prior to using the camera, remove the plastic protective covering from the camera lens.

1. From home, tap Apps > Camera 📸.

   The camera viewfinder appears.

2. Aim the camera at your subject and then tap Take picture 📸.

   The shutter clicks and the picture is captured and saved to your tablet.
**Tip:** You can launch the camera from the lock screen. Swipe Camera 📹 up from the lock screen to open the camera.

## Record Videos

Record high-quality videos using your tablet’s video camera.

1. From home, tap Apps 📱 > Camera 📷.

   📷 The camera viewfinder appears.

2. Aim the camera at your subject and then tap Record 🎥.

   🎥 Video recording begins.

3. Tap Pause ⏸️ to pause recording. Tap Stop ⏹️ to stop recording.

   🎥 The camera stops recording and the video is captured and saved to your tablet.

## Shooting Modes

Your tablet’s camera offers many shooting modes, to make your pictures or videos special.
1. From home, tap Apps > Camera.

![Camera viewfinder](image)

The camera viewfinder appears.

2. On the Camera screen, tap Mode to choose a shooting mode. Scroll available modes, and then tap a mode to select it.

   **Both cameras**
   - **Virtual shot**: Create multi-directional views of objects.
   - **Download**: Download additional shooting modes from the Galaxy Apps store.

   **Rear camera**
   - **Auto**: Allow the camera to evaluate the surroundings and determine the ideal mode for the picture.
   - **Pro**: Manually adjust the ISO sensitivity, exposure value, white balance, and color tone while taking pictures.
   - **Panorama**: Create a linear image by taking pictures in either a horizontal or vertical direction.
   - **HDR (Rich tone)**: Take multiple shots in various exposures and combine them to create soft and rich colors.
   - **Shot & more**: Browse the various affects available for burst shots.
   - **Dual camera**: Take pictures and record videos using the front and rear cameras at the same time. A variety of picture-in-picture styles is available.

   **Front camera**
• Selfie: Take selfie shots and apply various effects, such as an airbrushed effect.

• Interval shot: Select the best pictures from a series of continuous shots taken at set intervals.

Note: All modes may not be shown when you tap Mode depending on your tablet's setup and which camera is active (front or rear).

View Pictures and Videos Using Gallery

Using the Gallery application, you can view pictures and watch videos that you have taken with your tablet's camera, downloaded, or copied to tablet memory. You can also take a look at your pictures and your friends’ pictures that are on your social networks.

For pictures that are on your tablet, you can do basic editing such as rotating and cropping. You can also easily assign a picture as your contact picture or wallpaper and share pictures with your friends.

1. From home, tap Apps > Gallery.

![Gallery application interface]

The Gallery opens.

2. Tap Time to open a drop-down list and select other views, such as Albums, Events, or Categories.
The list of albums opens.

3. Tap an album to view its contents.

   - To select another album, tap the **Back** key to return to the Albums.

4. For a picture, tap a thumbnail to view the picture. While viewing a picture full-screen, you can use these options:

   - **Favorite**: Tap **Favorite ✭** to tag the picture as a favorite.
   - **Auto adjust**: Automatically enhance the picture.
   - **Share**: Choose a method for sharing the picture.
   - **Edit**: Modify your picture.
● **Delete**: Erase the current picture.

● **More**: Choose other options, including:
  - **Rotate left**: Rotate the picture to the left.
  - **Rotate right**: Rotate the picture to the right.
  - **Details**: View file details.
  - **Slideshow**: Create a slideshow.
  - **Set as contact picture**: Set the picture as the photo for a contact.
  - **Set as wallpaper**: Set the picture as wallpaper for your Home or Lock screens.

5. For a video, tap a video to select it. When the video is displayed full-screen, you can use these options:

   - Tap **Play** 🎥 to play the video.
   - **Favorite**: Tap **Favorite** ⭐ to tag the video as a favorite.
   - **Share**: Choose a method for sharing the video.
   - **Edit**: Edit the video.
   - **Delete**: Erase the current video.
   - **More**: Choose other options, including:
     - **Details**: View file details.
     - **Slideshow**: Create a slideshow.
Pictures and Videos: Review Screen

After capturing a picture or video, from the camera screen, tap the thumbnail image at the corner of the screen to see the item in the review screen. From there, you can access options such as save, view, send, or delete the picture or video.

Pictures and Videos: Options While Viewing

- **Zoom In or Out on a Picture:** Tap the screen twice or pinch the screen to zoom in or out on a picture.
- **Viewing Videos:** Use the onscreen controls to play, pause, or stop the video playback.

After selecting an album from the Albums tab, you can browse through the pictures and videos of that album. Tap a picture or video to view it in full screen.

**Note:** When viewing pictures, you can tap a picture or video to open a selection menu and choose what to do with the picture or video.

Edit Pictures

While browsing pictures in the Gallery app, you can choose to delete the picture, rotate or crop it, and more.

Rotate and Save a Picture

1. From home, tap **Apps > Gallery 📷.**

   ![Gallery app interface]

   - The Gallery app opens.
2. Tap the picture you want to rotate.
3. Tap Edit > Adjustment > Rotate.

4. Rotate the picture as desired, and then tap Apply
   - The picture is rotated and saved to the tablet.

**Crop a Picture**

1. From home, tap Apps > Gallery.

   - The Gallery app opens.
2. Tap the picture you want to crop.

3. Tap **Edit > Adjustment**.

![Crop box](image)

- A crop box appears on the picture.

4. To adjust the crop box size, touch and hold the edge of the box. Drag your finger inward to or outward to resize the crop box.

![Crop box](image)

- To move the crop box to the part of the picture that you want to crop, drag the crop box to the desired size and position.

5. Tap **Apply** to apply the changes to the picture.

6. Tap **Save** to save the cropped picture.

- The cropped picture is saved in the album as a copy. The original picture remains unedited.
Share Pictures and Videos

The Gallery application lets you send pictures and videos using email or multimedia messages. You can share pictures on your social networks (such as Facebook) and share videos on YouTube. You can also send them to another tablet or your computer using Bluetooth.

Send Pictures or Videos by Email or Gmail

You can send several pictures, videos, or both in an email or Gmail message. They are added as file attachments in your email. For more information about using email and Gmail, see Create and Send Email or Create and Send a Gmail Message.

1. From home, tap Apps > Gallery.

   The Gallery app opens.

2. Tap the pictures or videos you want to share.
   - To select multiple items, touch and hold an image to turn on multiple select. Tap all the items you want to include.

3. Tap Share, and then on the sharing menu, tap Email or Gmail.
Follow onscreen prompts to complete and send the message.

**Note:** If you have multiple email accounts or Gmail accounts, the default account will be used. Check the “From” line to determine which account is being used.

For more information about using email and Gmail, see [Create and Send Email](#) or [Create and Send a Gmail Message](#).

### Send Pictures or Videos Using Bluetooth

You can select several pictures, videos, or both and send them to someone’s tablet or your computer using Bluetooth.

1. From home, tap **Apps** > **Gallery**.

   ![The Gallery app](image)

   The Gallery app opens.
2. Tap the pictures or videos you want to share.

   - To select multiple items, touch and hold an image to turn on multiple select. Tap all the items you want to include.

3. Tap Share, and then on the sharing menu, tap Bluetooth.

![Bluetooth sharing menu](image)

Follow the prompts to complete and send the files.

For more information, see Bluetooth.

**Share Pictures or Videos Using Additional Apps or Social Media**

From Gallery, you can share your pictures and videos from a variety of apps and social media sites, such as Facebook, Hangouts, Instagram™, and more. Available apps will vary depending on what you have installed on your tablet.

1. From home, tap Apps > Gallery.
2. Tap the album that contains the photos or videos you want send.

3. Select the items you want to send.
   
   - To select multiple items, touch and hold an image to turn on multiple select. Tap all the items you want to include.

4. Tap the screen, tap **Share**, and then tap the app you want to use.

5. Follow the prompts to complete the share.

**Share Videos on YouTube**

You can share your videos by uploading them to YouTube. Before you do this, you must create a YouTube account and sign in to that account on your tablet.
1. From home, tap **Apps > Gallery**.

![Gallery app screenshot]

- The Gallery app opens.

2. Tap the videos you want to share.
   - To select multiple videos, touch and hold an image to turn on multiple select. Tap all the videos you want to include.

3. Tap **Share**, and then on the sharing menu, tap **YouTube**.

![Share menu screenshot]

4. Enter the prompted information, such as description and tags, and select a privacy option.

5. Tap **Upload**

- The upload is completed.
Camera Options and Settings
You can adjust your camera’s settings using the icons on the main camera screen and the full camera settings menu.

Switch Cameras
Your tablet lets you switch between the front and rear cameras.

1. From home, tap Apps > Camera.

   ![Camera Viewfinder]

   The camera viewfinder appears.

2. Tap Switch cameras.

   ![Switch Cameras]

   The camera switches type.

Set Camera Options
You can configure your camera’s settings to fit any situation and event.

1. From home, tap Apps > Camera.

   ![Camera Settings]

   You can adjust your camera’s settings using the icons on the main camera screen and the full camera settings menu.
The camera viewfinder appears.

2. Tap Settings.

The camera settings menu opens.

3. Select your desired settings:

Note: Not all settings will be available at all times, depending on which camera is in use (front or rear).

- **Both cameras**
  - **Video size**: Select a resolution. Use higher resolution for higher quality. Higher resolution videos take up more memory.
  - **View mode**: Change the view mode to **Full screen** or **Standard**.
  - **Grid lines**: Display viewfinder grid lines to help composition when selecting subjects.
  - **Location tags**: Attach a GPS location tag to the picture.
  - **Review pictures**: Set to show pictures after taking them.
  - **Storage location**: Select the memory location for storage.
  - **Volume keys function**: Use the Volume key as the capture key, the record key, or as a zoom key.
  - **Reset settings**: Reset the camera settings.
  - **Help**: View information on using the camera.

- **Rear camera**
- **Video stabilization**: Activate anti-shake. Anti-shake helps to keep the focus steady when the camera is moving.

- **Front camera**
  - **Gesture control**: Detect palm and automatically take a picture two seconds later.
  - **Save pictures as previewed**: Save the self-portrait or self-recording as viewed on the camera screen.

For additional camera settings, see [Camera Settings](#).
Apps and Features

The following topics detail many of your tablet’s tools and features such as maps and navigation, calendar, clock, social networking apps, music, memos, and more.

1Weather

Receive real-time local weather information at any location in the world. Access 7-day and hourly weather forecasts for your area.

- From home, tap Apps > 1Weather.

Calculator

Perform basic and advanced mathematical calculations.

1. From home, tap Apps > Calculator.

   ![Calculator app interface]

   - The calculator app launches.

   2. Tap onscreen keys for calculations.

   - Calculation results appear.

Calendar

Use Calendar to create and manage events, meetings, and appointments, organize your time, and be reminded of important events.
In order to sync with your Google calendar, you must sign in to a Google account on your tablet. See Google Account.

**Calendar Operations**

- **View today’s calendar:** From the Calendar, tap Today.
- **Change calendar view:** From the Calendar, tap Year, Month, Week, Day, or Tasks to change the current view.
- **View the next/previous time period (Year/Month/Week/Day view):** From the Calendar, flick the screen left or right.

**Add an Event to the Calendar**

Add events to your calendar directly from the Calendar application.

1. From home, tap Apps > Calendar.

   ![Calendar app interface](image)

   - The Calendar app opens.

2. Tap Add.
The add event window opens.

3. Enter an event title, start date/time, end date/time, and so on, and then tap Save.

The event is added to your calendar.

Selecting a Calendar

- If you have more than one calendar, select a calendar by tapping the current Calendar on the Create Event screen.
Select **My Calendars** to create an event that will appear only on your tablet.

Select your Google Account to create a Google Calendar™ event. If you have several Google Calendars on the Web, select one in which to add your event.

- You can create multiple Google Calendars only in Google Calendar on the Web. After creating them in Google Calendar on the Web, you will be able to see them in the Calendar application on your tablet. For more information about creating and managing multiple Google Calendars, visit calendar.google.com.

Select **Samsung Calendar** to create an event that will sync with your Samsung account.

Select your Outlook® or Exchange account to create an event that will sync with these account types.

**Note:** Available options differ depending on the type of account selected for an event.

**View Calendar Events**

You can display the Calendar in year, month, week, day, or task view. To change the Calendar view, tap an option at the top.

1. From home, tap **Apps** > **Calendar**.
The Calendar app opens.

2. Tap an event.

The event details appear.

- Tap the event to view details and edit the event.

**Share Calendar Events**

Once you have created a Calendar event, you can share it with others using a variety of methods.

1. From home, tap Apps > Calendar.
2. Tap an event to see its details.
3. From the event details screen, tap **Share**.

![Calendar screen](image1)

4. Choose a **Share as** option (**Calendar file (ICS)** or **Text**).

![Share as options](image2)

5. Select a sharing method and follow the prompts to send the Event information.

![Sharing options](image3)
Sync Calendars

You can select which calendars you would like to sync on your tablet, along with what types of information you want to sync.

1. From home, tap Apps > Calendar.

2. Tap More > Manage calendars.
3. Select sync options by tapping **On/Off** next to each item.

![Sync Options](image)

- The sync settings have been updated.

**Synchronize an Exchange ActiveSync Calendar**

If you have set up a Microsoft Exchange ActiveSync account on your tablet, you can also synchronize Exchange ActiveSync calendar events on your tablet. Calendar events on your Exchange ActiveSync will also show in Calendar if you chose to synchronize with the Exchange ActiveSync Server.

To check if Exchange ActiveSync items are set to be synchronized:

1. From home, tap **Apps > Settings > Accounts > Microsoft Exchange ActiveSync**.
   - If Microsoft Exchange ActiveSync doesn’t appear under the Accounts heading in the Settings menu, you do not have an Exchange ActiveSync account configured on the tablet. For information about adding an account, see [Add an Exchange ActiveSync Account](#).

2. If your Exchange ActiveSync account is set for synchronization, tap **On/Off** next to **Sync Calendar**.

**Clock**

Set alarms, view time in time zones around the world, use a stopwatch, set a timer, and use your tablet as a desk clock.

**Checking the Time**

You can always check the time on your tablet. The current time displays in the upper right corner of the status bar. Many widgets and Lock screens also display the time and provide options for how
time is displayed.

**Setting Date and Time**

Your tablet automatically receives the current date and time from the wireless network. You can set the date by hand by overriding the default setting.

1. From home, tap Apps > Settings.

![App and Settings Menu]

2. Tap Date and time.

![Date and Time Settings]

3. Set available date and time options.
   - To set the date and time, tap On/Off to turn Automatic data and time off.
   - To select a time zone, tap On/Off to turn Automatic time zone off.
Your date and time settings are applied and saved.

Set Alarms
Set multiple alarms using your tablet’s Clock app.

1. From home, tap Apps > Clock > Alarm.

2. Set the alarm options, including time, days, and repeat pattern. For more options, tap Options.

3. When finished, tap Save.
   
   You will see the alarm icon in the status bar.
**Tablet at Alarm Time**
- At the set alarm time, the tablet sounds the alarm and/or vibrates.
- When the alarm sounds, drag Stop 🚫 to left or right to dismiss it.

**World Clock**
The world clock lets you keep track of the current time in multiple cities around the globe.

1. From home, tap Apps 📱 > Clock ⌚ > World Clock.

![World Clock](image)

2. Tap a city, and then tap Add City➕ to add it to your list.
3. Repeat to add multiple cities.

**Stopwatch**
The stopwatch lets you time events down to the hundredth of a second.

1. From home, tap Apps 📱 > Clock ⌚ > Stopwatch.
2. Tap **Start** to begin timing.

3. Tap **Stop** to stop timing.

   - Additional options include **Lap** to keep track of laps, **Resume** to continue timing, and **Reset** to reset the stopwatch to zero.

**Timer**

The timer provides a countdown timer for up to 99 hours, 59 minutes, and 59 seconds.

1. From home, tap **Apps** > **Clock** > **Timer**.

2. Set the length of the timer.

3. Tap **Start** to begin the timer.
**Excel**

Create and share spreadsheets quickly and easily with Microsoft Excel.

- From home, tap Apps > Microsoft Apps > Excel.

**Note:** The first time you access Microsoft Excel on your tablet, you may be prompted to install or update the app via Google Play. Tap Install or Update and follow the prompts.

**Facebook**

Keep up with friends and family with the Facebook app. Share updates, photos, and videos, as well as text, chat, and play games.

**Sign In to Facebook**

1. From home, tap Apps > Facebook.
2. Tap Install and follow the prompts to download and install the app.
3. If you have a Facebook account, enter your user ID and password, and then tap Log in.

   – or –

   To create a new Facebook account, tap Create New Facebook Account.

   You are signed in to Facebook.

**Galaxy Apps**

Discover apps designed exclusively for your Galaxy tablet.

**Note:** You must sign in to a Samsung account in order to download Galaxy Apps.

- From home, tap Apps > Galaxy Apps.

**Gallery**

View pictures and watch videos that you have taken with your tablet’s camera or downloaded.

You can do basic editing such as rotating and cropping. You can also set a picture as your contact picture or wallpaper and share pictures with your friends.

While viewing pictures in the Gallery, scroll up the screen to view more albums. Simply tap an album to view the photos or videos in that album.

If you have downloaded any photos and videos, these will be placed in the All downloads album.

1. From home, tap Apps > Gallery.
The Gallery app opens.

2. From the main Gallery screen, you can use these options:

- Tap a picture or video to display it in full screen view.
- Touch and hold thumbnails to select them (indicated by a check mark).
- Tap the drop-down list in the upper-left corner (Time is the default view) to choose another display style. You can view by Albums, Events, Categories, or Locations.
- Tap Camera to launch the Camera to take pictures or record video.
- Tap More for options. Available options depend on which Gallery screen you are viewing, and may include:
  - **Edit**: Depending on the view, tap albums or items to select them. After selection, you can tap More again for options you can use with the selected item(s).
  - **Share**: Share albums, pictures, or videos.
  - **Search**: Search for a picture or video.
  - **Animate**: Create animated pictures.
  - **Collage**: Create a photo collage.
  - **Help**: View help topics on using the Gallery app.

For more information about using Gallery, see View Pictures and Videos Using Gallery, Edit Pictures, and Share Pictures and Videos.

**Google Drive**

Open, view, rename, and share your Google Docs and files.
From home, tap Apps > Google > Drive.

Google Hangouts
Meet friends and family online, share photos, host video calls, and send SMS and Hangouts messages.

Using Hangouts
1. From home, tap Apps > Google > Hangouts.

   The Hangouts app will open.

2. Tap Add and select a type (New video call, New group, or New conversation) to start a new Hangout.
3. Type a name, email, number, or circle, or select a contact from the list.

4. Type a message or tap Video chat

- A chat window or a video chat window opens.
  - Each time text is entered, the corresponding friend appears.
  - If a friend is not in a Hangout, you will see a message. Tap Invite to invite them to join the Hangout.

**Hangouts Operations**

- **Ending a Video Chat**: In the video chat window, tap End call 📞.
- **Disabling Chat History**: If you do not want to keep chat history, in the chat window, tap More options > Turn history off.
- **Delete Chat History**: To delete all your chat history, in the chat window, tap More options > Delete > Delete.

**Google Maps**

Use the Google Maps app to determine your location, find directions, browse local businesses and attractions, rate and review places, and more.

**Note**: To use Google Maps, you will need to have your tablet’s Location feature turned on. See Location Settings for information about enabling Location on your tablet.

**View Maps of Specified Places**

Use Google Maps to locate and map a specific address or destination.
1. From home, tap **Apps** > **Maps**.

Google Maps opens.

**Note:** The first time you access Maps, you may be prompted to accept the Terms of Service and Privacy Policy. Tap **Accept & continue** to continue.

2. Tap in the search box to start a search.
3. Enter an address, city, facility name, and so on, and then tap a candidate in the results list.

A map of the specified location opens.

**Google Maps Operations**

- **Viewing Current Location**: From the Maps app, tap Location 📍.
- **Obtain Useful Area Information for Current Location**: Tap the Search field, enter the information you are looking for, and then tap a result to view it.
- **View Traffic Information, Aerial Photos, and more**: Tap Menu and then tap Traffic, Satellite, Google Earth, or other options.
- **Check Route to Destination**: Tap Current route ⬤, enter your current location and your destination, and then tap a method of transport (car, public transit, bicycle, or on foot) to see available routes.
- **Check Detailed Operation for Maps**: From the Maps app, tap Menu > Help.

**Google Photos**

Automatically back up your photos and videos to your Google Account.

- From home, tap Apps > Google > Photos 📸.

**Google Play Movies & TV**

Google Play Movies & TV allows you to watch movies and TV shows purchased on Google Play. You can stream instantly on your Android tablet or download so you can watch from anywhere, even when you are not connected. Also, get quick access to your personal video collection, including those taken on your tablet.
Learn more about Google Play Movies & TV at play.google.com/about/movies.

- From home, tap Apps > Google > Play Movies & TV.

**Google Play Music**

The Google Play Music app lets you browse, shop, and play back songs purchased from Google Play as well as songs you have loaded from your own music library. The music you choose is automatically stored in your Google Play Music library and instantly ready to play using streaming or download.

*Note:* For information about loading music onto your tablet, see Transfer Files Between Your Tablet and a Computer.

**Using Google Play Music**

Use the Google Play Music app to listen to all your music on your tablet. Compatible music file formats include: MP3 (.mp3), AAC (.m4a), WMA (.wma), FLAC (.flac), OGG (.ogg), DRM protected AAC (.m4p), and ALAC (.m4a).

1. From home, tap Apps > Google > Play Music.

   ![Google Play Music app screenshot]

   * The Play Music app opens to the Listen Now screen.

2. To view additional music options, tap Menu and select an option (Listen now, Top charts, New releases, Music library, Browse stations, or Shop).

3. Tap an item from the category window and then tap a song.

   * The song begins playing.
## Google Play Music Screen Layout

The following diagram outlines the main features of the Play Music app player screen.

Create Playlists in Google Play Music
Organize music into playlists to fit every occasion.

1. From home, tap Apps > Google > Play Music.

   The Play Music app opens to the Listen Now screen.

2. Tap Menu to view your library or playlists, or to access Google Play Music online.

3. From a list displaying songs More options next to an item from the category window and then tap Add to playlist.

4. Tap New playlist.

5. Enter a name and tap Create playlist.
   The playlist is created.

6. Return to the library view and select Albums or Songs.

7. Tap More options next to an item and then tap Add to playlist > [playlist name].
   The song or album is added to the playlist. Repeat to add more items to the playlist.

Adding Currently Playing Music to a Playlist
- From the player view, tap More options > Add to playlist > [playlist name].
   The music is added to the playlist.
Google Search

Search information saved on the tablet and in tablet applications as well as on the Internet.

Use Google Search

Type search terms in the Google Search bar to find information on your tablet and around the globe.

1. From home, tap the Google search bar or tap Apps > Google > Google .

   The Search window opens.

   - If a description for Google Now appears, tap What can Google Now do? and read the information. Tap Yes, I am in on the last page if you want to use Google Now, or tap Skip to continue to the Google search page.

2. Type your search keywords and tap Search .

   Search results appear.

   - To search by voice, tap Google voice in the search bar and speak your search terms.

Google Search Options

Note: To view the Google search Menu options, you may need to tap the Back key to return to the main Google screen.

- Changing Search Information: In the search window, tap Menu > Settings > Tablet search and select where to search.
- **Using Google Now**: Google Now automatically searches for information based on search keywords used, your current location, and so on, and presents search results in the search screen. Google Now also informs users of scheduled events.

  - To enable Google Now, in the search window, tap Menu ➝ Settings. Tap Now cards, and then tap On/Off next to Show cards.

**Use Google Voice Search**

Use your voice to search instead of typing, with Google Voice Search™.

1. From home, tap Apps ➝ Google ➝ Voice Search.

![Voice Search window]

   - The Voice Search window opens.

2. Speak your search terms.

   - Search results appear.

**Instagram**

Capture and share photos and videos with your friends. Customize what you capture, and then share it on your feed or post it directly to your friends.

**Install Instagram**

1. From home, tap Apps ➝ Instagram.

2. Tap Install, and then follow the prompts to accept access requirements and update the app.

**Use Instagram**

- From home, tap Apps ➝ Instagram.
Lookout
Configure and manage key security options, such as anti-virus and anti-malware technology, a lost and stolen device locator service, an application privacy adviser, and a backup service.

- From home, tap Apps > Lookout.

Memo
Organize your life by creating, editing, and managing memos.

1. From home, tap Apps > Memo.
2. Tap Add and enter your memo title and text.
3. Tap Save.
   - The memo is saved.

Messenger
Reach out to your friends and family with Facebook Messenger, which works just like texting. A data plan is required to use Messenger.

Install Messenger
1. From home, tap Apps > Messenger.
2. Tap Install, and then follow the prompts to accept access requirements and update the app.

Use Messenger
1. From home, tap Apps > Messenger.
2. Follow the prompts to log in with your Facebook account. See Facebook.

Music
Use Music to browse your music library, play songs, and create playlists. You can also set songs as alarm tones.

**Note:** For information about loading music onto your tablet, see Transfer Files Between Your Tablet and a Computer.

When you close the Music screen, playback will continue in the background, so you can listen to music while you use other features of your tablet. When music is playing in the background, you can access playback controls from the notification panel.
Play Music

1. From home, tap Apps > Music.

   ![Music app interface]

   The music app opens to the Playlists category.
   - The default categories are **Playlists, Tracks, Albums, Artists, Genres, Folders**, and **Composers**. Tap the drop-down list at the upper left corner and tap a category to display it.

2. Scroll through the list and tap a song to begin. While playing music, use these controls:
Tap Pause  to pause playback. To start playback again, tap Play  .

Tap Rewind  to move to the previous song. Tap Forward  to move to the Next song.

Tap the repeat mode button to control playback. Choose Play all  to play all songs once. Choose Repeat all  to repeat all songs. Choose Repeat song  to repeat the current song.

Tap the shuffle songs button to control the order songs are played. Choose Do not shuffle  to play songs in the order they appear in the list. Choose Shuffle  to play songs in random order.

Tap Favorite  to mark a song as a favorite. Whenever a song is a favorite, the star is bright. Favorite songs are included in the Favorites playlist.

Tap Volume  to set the volume. You can also set volume by pressing the Volume key on the side of the tablet.

Use Playlists
Create playlists to group songs, so you can listen to them together.

1. From home, tap Apps > Music.
2. Tap **Playlists**, and then use these options:

   - Tap an existing playlist to play its songs.

   - Tap **Create playlist** to create a new playlist.
     - Enter a name for the playlist and tap **Create**.
     - Tap songs from the Tracks list to add them to the playlist. When you are done adding songs, tap **Done**.

   - The new playlist is saved under My playlists.

**Tip:** To edit a playlist, tap it from the list and then tap **ADD** to add more songs, or tap **More** to access the Edit, Rename, and Settings options for the playlist.

**Music Options and Settings**

1. From home, tap **Apps** > **Music**.

2. Tap **More** for options. Available options depend on the category:

   - **Edit:** Edit the song or playlist.
   - **SoundAlive:** Choose a setting to match the type of music you are playing.
   - **Settings:** Configure the Music player app.
     - **Tabs:** Choose which tabs to display.
     - **Play speed:** Touch and drag the slider to set the default speed for music playback.
     - **Music auto off:** Choose a time period for music to play, after which Music will close.
- **Smart volume**: When enabled, Music automatically adjusts the volume of all songs to an equal level.

- **About Music**: View the software version and other information about the Music app.

## My Files

Manage your sounds, images, videos, Bluetooth files, Android files, and other data in one convenient location.

1. From home, tap **Apps > My Files**.
2. Folders display, including:
   - **Recent files**: View recently saved files.
   - **Device storage**: View folders and files in their storage locations.
   - **Download history**: View all apps and files that have been downloaded to the tablet.
   - **Documents**: View document files.
   - **Images**: View image files.
   - **Audio**: View audio files.
   - **Videos**: View video files.
   - **Google Drive**: View folders and files store on the Internet.

**Note**: Different folders may appear depending on how your tablet is configured.

To view files in My Files:

1. From home, tap **Apps > My Files**.
2. Tap a category to view its files or folders.
3. Tap a file or folder to open it.

## OneDrive

Store and share photos, videos, documents, and more in your free online OneDrive account, which you can then access from your personal computer, tablet, or phone.

- From home, tap **Apps > Microsoft Apps > OneDrive**.

**Note**: The first time you access Microsoft OneDrive on your tablet, you may be prompted to install or update the app via Google Play. Tap **Install** or **Update** and follow the prompts.
OneNote
Stay organized using text, pictures, or audio notes. Create Quick Notes or review and edit shared OneNote notebooks using OneDrive.

- From home, tap Apps > Microsoft Apps > OneNote.

**Note:** The first time you access Microsoft OneNote on your tablet, you may be prompted to install or update the app via Google Play. Tap Install or Update and follow the prompts.

PowerPoint
Create and share presentations quickly and easily with Microsoft PowerPoint.

- From home, tap Apps > Microsoft Apps > PowerPoint.

**Note:** The first time you access Microsoft PowerPoint on your tablet, you may be prompted to install or update the app via Google Play. Tap Install or Update and follow the prompts.

Samsung Milk Music
Samsung Milk Music™ is a streaming radio service that offers a simple way to find the music that is right for you. With a library of over 13 million songs and 200+ stations, the interactive dial makes it easy to skim through stations, to find the perfect soundtrack for the moment.

1. From home, tap Apps > Samsung Milk Music.
2. Read the Terms and Conditions and Privacy Policy, and then tap I agree to continue.
   - The Samsung Milk Music main screen will display.
3. Rotate the dial to select a music genre, and then tap Play to begin listening.

**Tip:** To stop listening and exit Samsung Milk Music, drag down the status bar to display the notification panel, and then tap Close next to the current song.

Samsung+
Get live help, discover new features, and unlock promotions for your Samsung device.

- From home, tap Apps > Samsung+.

SideSync
SideSync is a PC-Mobile solution that enables the screens, windows, and data to be shared easily between a PC and Samsung Android Device.
From home, tap Apps > SideSync.
- Tap Start and follow the prompts to get started.
- Tap Help to learn more about SideSync.

**Note:** Before using SideSync, you will need to download and install it on your PC or tablet. To install SideSync for computer, download it from samsung.com/sidesync.

## Sprint TV & Movies

With Sprint TV & Movies, you can watch live TV and access movies and other on demand entertainment on the go.

**Note:** Coverage not available everywhere. Content and lineup subject to change. Select channels also available for casual usage.

### Your Sprint TV Channel Options

The Sprint TV application offers a wide variety of accessible channels. Subscription options include comprehensive basic packages as well as a full menu of “a la carte” channels.

### Update Sprint TV & Movies

The first time you use Sprint TV & Movies, you will be prompted to update the app.

1. From home, tap Apps > Sprint TV & Movies.
   - The Google Play store will launch to the Sprint TV & Movies page.
2. Tap Update > Accept to update the app, and then follow the prompts to get started.

### Watch TV

1. From home, tap Apps > Sprint TV & Movies.
2. Follow the prompts to browse categories and find programs.
   - Depending on your settings, your tablet may prompt you to accept a data connection.
   - Browse through category options, and tap an item you would like to view. Depending on the program, you may be prompted to set up a monthly subscription to view the content.

**Note:** The first time you access a channel that requires a subscription, you will be prompted to purchase access. Touch Subscribe to purchase access, or touch Preview to see a preview of the selected channel.
Sprint Music Plus

With Sprint Music Plus and the Music Store, Ringtone Store, and Ringback Tone Store, you can purchase, download, and play music on your tablet.

Access Sprint Music Plus

1. From home, tap Apps > Sprint Music Plus.
2. The first time you launch the app, tap Install and follow the prompts to install the app.
3. Tap a store option from the main page (Ringbacks Store, Music Store, or Ringtones Store), or tap More options > Music (under Library) to access your music.
   - Tap the onscreen navigation tools to skip ahead or rewind. Tap More options at any time to see additional options.
   - For more information, tap Menu > Settings > About or Help.

Note: If you have loaded music on to your tablet from your computer (see Transfer Files Between Your Tablet and a Computer), you will need to sync your music to listen to it through Sprint Music Plus. From the Sprint Music Plus app, tap Menu > Settings > Synchronize your music library. Once synced, you will see your music in the library.

Purchase and Download Music from the Sprint Music Plus Store

From the Sprint Music Plus Store, you can shop for songs to purchase and download to your tablet.

1. From home, tap Apps > Sprint Music Plus > Music Store.
2. Enter a song or artist in the search field or browse through options in the tabs in the center of the screen.
3. Tap a song to select it.
4. Follow the prompts to preview or purchase the song. Tap More options at any time to display the Sprint Music Plus menu.

Video

Play videos stored on your tablet, or from your other devices (you must sign in to your Samsung account to play videos synced from your other devices).

1. From home, tap Apps > Video.
2. Scroll through the videos stored on your tablet. After a few seconds, each video thumbnail begins playing a preview of the clip.
3. Tap a video to view it.
Use Pop-Up Play
Multitask with Pop-Up Play by transforming your video player into a pop-up window floating on the screen. The video will continue to play, and the pop-up window can be resized or moved anywhere on the screen.

1. From home, tap Apps > Video.
2. Tap a video to view it.
3. Tap the screen to display playback options, and then tap Pop-up.

The video will continue playing in a floating window. Drag the window to any location on the screen, and use two fingers to pinch or spread to resize the floating window.

Word
Create and share word processing documents quickly and easily with Microsoft Word.

- From home, tap Apps > Microsoft Apps > Word.

Note: The first time you access Microsoft Word on your tablet, you may be prompted to install or update the app via Google Play. Tap Install or Update and follow the prompts.

YouTube
View videos uploaded to YouTube and upload your own videos to your YouTube account.
View YouTube Videos
You can use the YouTube app to view videos on YouTube even if you are not signed in to a YouTube account.

1. From home, tap Apps > YouTube.
   - The YouTube app launches.
2. Search through the YouTube channels and tap a video you want to see.
   - The video plays on your tablet screen.
     - Tap the screen to pause or resume play while watching.

Post a Video to YouTube
You can post videos to your YouTube account from your tablet. Before posting, you must set up a YouTube account and sign in to it on your tablet.

1. From home, tap Apps > YouTube.
   - The YouTube app launches.
2. Tap My account.
   - The My account menu appears.
3. Tap Upload to select a video from your tablet.
   - Enter a title, description, and tags, and select a privacy setting.
4. Tap Upload.
The video is uploaded to your YouTube channel.
Connectivity

The following topics address your tablet’s connectivity options, including USB file transfer and tethering, Wi-Fi, Bluetooth, IR connectivity, and more.

Transfer Files Between Your Tablet and a Computer

You can use the supplied USB connector to connect your tablet directly to your computer and transfer music, pictures, and other content files.

For example, if you have a music album stored on your computer that you want to listen to on your tablet with any of the music apps, just attach your tablet to the computer and copy the files to the music folder.

Data exchange may use the methods outlined in the following table:

<table>
<thead>
<tr>
<th>Method</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Media Device (MTP)</td>
<td>Transfer files between your tablet and PC such as pictures, videos, and music.</td>
</tr>
<tr>
<td>Camera (PTP)</td>
<td>Transfer picture and video files between your tablet and PC.</td>
</tr>
<tr>
<td>Mass Storage Mode</td>
<td>Exchange data with a PC using your tablet as an external storage device.</td>
</tr>
<tr>
<td>Charging</td>
<td>Charge your device using a USB cable.</td>
</tr>
</tbody>
</table>

Transfer Files Between the Tablet and a Computer

1. Connect your tablet to your computer using the supplied USB/charging cable.

   - Insert the smaller end of the cable to the charger/accessory port at the bottom of the tablet.
   - Insert the USB end of the cable into an available USB port on your computer. You may need to remove the USB cable from the charging head to access it.

2. Drag the status bar down to display the notification panel.
For most transfers, you will want to use **Transferring media files**.

To change the option, tap the notification in the notification panel to open the **Use USB for window**, and then tap the desired option.

3. On your computer, navigate to the detected device (such as through the My Computer menu) and open it.

4. Select **Tablet** for internal tablet storage.

5. Select a folder (for example, **Music** for songs and albums) and copy files to it from your computer.

6. When you are done, disconnect your tablet from your computer.

   ❖ The transferred files are now saved to your tablet.

**Note:** You can also copy files from your tablet to your computer, for example, if you want to save pictures or videos from your tablet on your computer.

**Wi-Fi**

Wi-Fi provides wireless Internet access over distances of up to 300 feet. To use your tablet’s Wi-Fi, you need access to a wireless access point or “hotspot.”

The availability and range of the Wi-Fi signal depends on a number of factors, including infrastructure and other objects through which the signal passes.

**Turn Wi-Fi On and Connect to a Wireless Network**

Use the Connections setting menu to enable your tablet’s Wi-Fi radio and connect to an available Wi-Fi network.

1. From home, tap **Apps > Settings > Wi-Fi**.

---

Connectivity 172
2. Tap **On/Off** to turn Wi-Fi on.

3. Tap a Wi-Fi network to connect, enter the password (if it is not an open network), and then tap **Connect**.

- Wi-Fi is enabled. You will see the names and security settings of in-range Wi-Fi networks.
  - To disable Wi-Fi, tap **On/Off** again.
Your tablet is connected to the Wi-Fi network. You will see **Wi-Fi connected** in the status bar.

- The password, for a household wireless LAN router, is sometimes found on a sticker on the router (WEP, WPA, KEY, and so on). Contact the router manufacturer for information. For password for a public wireless LAN, check with user's service provider.

- Entering a password is not required if an access point is not security protected.

**Note:** The next time your tablet connects to a previously accessed secured wireless network, you will not be prompted to enter the password again, unless you reset your tablet to its factory default settings or you instruct the tablet to forget the network.

**Wi-Fi Settings**

Use the Wi-Fi settings menu to manually set your Wi-Fi connection options.

1. From home, tap **Apps > Settings > Wi-Fi**.
2. Tap **On/Off** to turn Wi-Fi on.

- Wi-Fi is enabled. You will see the names and security settings of in-range Wi-Fi networks.
  - To disable Wi-Fi, tap **On/Off** again.

3. Tap **More > Advanced**.
The advanced Wi-Fi settings menu appears.

4. Configure your Wi-Fi settings.

Your Wi-Fi settings changes are saved.

**Disconnect Wi-Fi**

You may want to remove a connected Wi-Fi network.

1. From home, tap **Apps 📱 > Settings 📦 > Wi-Fi 📱**.
2. Press and hold the name of the connected access point, and then tap **Forget network**.

![Image of settings screen with forget network option highlighted]

- Wi-Fi is disconnected and the network settings are removed.
  - After “forgetting” an access point, you need to enter the correct password (and other network settings, if required) to reconnect.

**Wi-Fi Direct**

Use Wi-Fi Direct to connect directly to other Wi-Fi Direct devices using only Wi-Fi, without a wireless access point (network) or using the Internet.

1. From home, tap **Apps > Settings > Wi-Fi**.
2. Tap **On/Off** to turn Wi-Fi on.

- Wi-Fi is enabled. You will see the names and security settings of in-range Wi-Fi networks.

3. Tap **Wi-Fi Direct**.

- The Wi-Fi Direct settings menu appears.
  - Wi-Fi Direct and Wi-Fi are unavailable at the same time.

4. If a device is found, tap the device entry to connect.
  - If connected using Wi-Fi, you will see a confirmation. Follow the prompts.

5. Accept the connection on the other device.
The tablet is connected using Wi-Fi Direct.

- If a connection is not accepted after a certain period, the connection request is cancelled.
- To stop a connection, tap the device name on the Wi-Fi Direct list.

**Bluetooth**

Bluetooth is a short-range communications technology that allows you to connect wirelessly to a number of Bluetooth devices, such as headsets and hands-free car kits, and Bluetooth-enabled handhelds, computers, printers, and wireless tablets. The Bluetooth communication range is usually approximately 30 feet.

**Bluetooth Hints**

**Problem:** I cannot use Bluetooth.

**Solution:** Is your tablet in airplane mode? Bluetooth is unavailable in airplane mode.

⚠️ **Bluetooth Function Cautions**

Information may not appear correctly on connected devices depending on the transferred data.

**Bluetooth Information**

Bluetooth is a technology that enables wireless connection with PCs, Bluetooth devices with hands-free features, and so on.

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Audio output</td>
<td>Listen to music and more, wirelessly.</td>
</tr>
<tr>
<td>Data exchange</td>
<td>Exchange data with Bluetooth devices.</td>
</tr>
</tbody>
</table>

**Enable Bluetooth**

Use the settings menu to enable or disable your tablet's Bluetooth capabilities.

- Wireless connection to all Bluetooth functions is not guaranteed for the tablet.
- The tablet may not connect properly depending on the other device.
- Noise may be experienced with wireless calls and hands-free calls depending on the conditions.

To enable Bluetooth:

1. From home, tap **Apps > Settings**.
2. Tap Bluetooth.

- The Bluetooth settings open.

3. Tap **On/Off** to turn Bluetooth on.
Bluetooth is enabled.

- To disable Bluetooth, tap **On/Off** again.

**Tip:** You can also turn Bluetooth on or off with the Quick settings button in the notification panel. Drag the status bar down to display the notification panel and then tap **Bluetooth** to turn Bluetooth on or off.

**Note:** Turn off Bluetooth when not in use to conserve battery power, or in places where using a wireless tablet is prohibited, such as aboard an aircraft and in hospitals.

## Pair Bluetooth Devices

Search for and pair nearby Bluetooth devices. Saved Bluetooth devices can be connected simply.

**Note:** Before pairing, turn on Bluetooth on the other device and make sure it is visible or discoverable.

To pair Bluetooth devices:

1. From home, tap **Apps 📱 > Settings 📉**.
2. Tap Bluetooth.

- The Bluetooth settings open.
  - Nearby devices that are visible or discoverable appear in the “Available devices” list.
  - If a target device is not detected, tap **Scan** to search again.

3. Tap a device from the “Available devices” list, and follow the prompts to pair with the device. Methods to accept a Bluetooth connection differ depending on the device used.
The Bluetooth device is paired to your tablet.

**Unpairing from a Paired Device**

1. From the Bluetooth settings menu, tap **Settings** next to the paired device you wish to unpair.

2. Tap **Unpair**.

   The device is unpaired from your tablet. To make another connection with the device, you will need to pair again.

**Connect to a Paired Bluetooth Device**

You can listen to music over a Bluetooth stereo headset, or listen to online videos or movies using a compatible Bluetooth headset or car kit. It is the same procedure to set up stereo audio and hands-
1. From home, tap Apps > Settings.

2. Tap Bluetooth.

- The Bluetooth settings open.
  - Paired Bluetooth devices appear in the “Paired devices” list.

3. Tap a device from the “Paired devices” list.

- Your tablet connects to the paired device.

The pairing and connection status is displayed below the device’s name in the Bluetooth devices section. When the device is connected to your tablet, Bluetooth connected is displayed in the Connectivity section.
status bar. Depending on the type of device you have connected, you can then start using the headset or car kit to listen to music or videos.

**Note:** Due to different specifications and features of other Bluetooth-compatible devices, display and operations may be different, and functions such as transfer or exchange may not be possible with all Bluetooth-compatible devices.

**Share Information Using Bluetooth**

You can use Bluetooth to transfer information between your tablet and another Bluetooth-enabled device such as a tablet or notebook computer.

**Types of Data You Can Send Using Bluetooth**

You can send the following types of information, depending on the device you are sending to:

- Images and videos
- Calendar events
- Contacts
- Audio files

The instructions below illustrate sharing information using Bluetooth by describing how to share a contact.

**Sending Contacts Data Using Bluetooth**

**Note:** Your tablet must be paired with another Bluetooth-enabled device in order to send information.

1. From home, tap **Apps > Contacts**.

   ![Contacts List]

   - You will see the Contacts list.
2. Tap a contact to send.
3. Tap **More > Share contact**.
4. Select **vCard file (VCF)** or **Text** format.
5. Tap **Bluetooth**.

6. Tap a paired device to receive the data.

![Bluetooth pairing](image)

- The contact information is sent.
  - If you see a message to confirm, follow the prompts.

**Receiving Data Using Bluetooth**

You can use Bluetooth to receive information from another Bluetooth-enabled device, such as a tablet or notebook computer.

**Note:** Your tablet must be paired with another Bluetooth-enabled device in order to send information.
1. When another device attempts to send a file to your tablet using Bluetooth, you will see a request to accept the file.

2. Tap **Accept**.

   The file is sent to your tablet.
   
   - When your tablet receives a file, you will see a notification. To open the file immediately, drag the status bar down to display the notification panel, and then tap the notification.
   
   - When you open a received file, what happens next depends on the file type:
     
     - Media files and documents are usually opened directly in a compatible application.
     
     - For a vCalendar file, select the calendar where you want to save the event, and then tap **Import**. The vCalendar is added to your Calendar events. (For more information on using the Calendar, see **Calendar**.)
     
     - For a vCard contact file, received contacts are stored in the Contacts list.
Settings

The following topics provide an overview of items you can change using your tablet’s Settings menus.

**Basic Settings**

From the home screen, tap Apps > Settings to access your tablet’s settings menu.

The table below outlines the top-level settings categories.

<table>

</tbody>
</table>

**Access Settings**

- From home, tap **Apps 📱 > Settings 🔍**.

  or —

  Slide the status bar down to open the notification panel, and then tap **Settings 🔍**.

![Settings menu](image)

> The settings menu opens.
Wi-Fi Settings Menu

The Wi-Fi settings menu lets you turn Wi-Fi on or off, set up and connect to available Wi-Fi networks, and configure advanced Wi-Fi options.

For more information about using Wi-Fi, see Wi-Fi.

1. From home, tap Apps > Settings > Wi-Fi.

2. Tap On/Off to turn Wi-Fi on.

- Wi-Fi is enabled. You will see the names and security settings of in-range Wi-Fi networks.
  - To disable Wi-Fi, tap On/Off again.

3. Tap a Wi-Fi network, enter the password, and tap Connect.
Your tablet is connected to the selected Wi-Fi network.

- The password, for a household wireless LAN router, is sometimes found on a sticker on the router (WEP, WPA, KEY, and so on). Contact the router manufacturer for information. For password for a public wireless LAN, check with user’s service provider.

- Entering a password is not required if an access point is not security protected.

**Connect to a Wi-Fi Network Using WPS**

Wi-Fi Protected Setup (WPS) is a network security standard that allows you to easily secure a wireless network connection between your tablet and a router.

To connect using a WPS button:

1. From Wi-Fi settings, tap **More > WPS push button**.
2. Press the WPS button on your router.
3. Follow the prompts to complete the connection.

To connect using a Personal Identification Number (PIN):

1. From Wi-Fi settings, tap **More > WPS PIN entry**.
2. Enter the PIN displayed on your router.
3. Follow the prompts to complete the connection.

**Smart Network Switch**

Smart network switch lets your tablet automatically switch to the wireless network data connection when the current Wi-Fi connection is unstable.
1. From the Wi-Fi settings menu, tap More > Smart network switch.

2. Tap On to enable the feature.

**Advanced Wi-Fi Settings**

The advanced Wi-Fi settings menu lets you set up and manage wireless access points.

- From the Wi-Fi menu, tap More > Advanced to access the advanced Wi-Fi settings:
  - **Network notification**: Enable notification when open networks are available.
  - **Hotspot 2.0**: Automatically connect to Wi-Fi access points that support Hotspot 2.0.
  - **Keep Wi-Fi on during sleep**: Select options for keeping Wi-Fi active while the tablet is sleeping.
  - **Install network certificates**: Install security certificates from your tablet storage.
  - **MAC address**: View your tablet’s MAC address.
  - **IP address**: View the tablet’s IP address.

**Bluetooth Settings**

Your tablet’s Bluetooth capabilities let you use wireless headsets, send and receive pictures and files, and more. For details on your tablet’s Bluetooth usage, see Bluetooth.

1. From home, tap Apps > Settings.
2. Tap Bluetooth.

![Bluetooth settings](image)

- The Bluetooth settings open.

**Bluetooth Settings Operations**

- **Enable Bluetooth**: In Bluetooth settings, tap On/Off to enable.
  
  - When enabled, confirmation appears for your tablet to be discoverable by other devices. Follow the prompts.

- **Change your tablet name**: From Bluetooth settings, tap More > Rename device, enter a new name, and tap Done.
  
  - This changes the name of your tablet as seen by other devices.

- **Pairing Bluetooth devices**: Make sure the other devices are set to be discovered. From Bluetooth settings, tap the device name in “Available devices” and follow the prompts.
  
  - Depending on the device, you may be required to enter or accept a passkey.
  
  - If the target device does not appear, tap Scan to search again.
  
  - This setting is available when Bluetooth is enabled.

- **Change the name of a paired device**: From Bluetooth settings, tap Settings next to a paired device name, tap Rename, enter a new name, and tap Rename.
  
  - Emoji cannot be used in a device name.
  
  - This setting is available when Bluetooth is enabled.

- **Cancelling pairing**: From Bluetooth settings, tap Settings next to a paired device name, and then tap Unpair.
- This setting is available when Bluetooth is enabled.

- **Enable service from paired device:** From Bluetooth settings, tap **Settings** next to a paired device name, and then tap the listing under **Use for**.
  - If a confirmation prompt appears, follow the prompts.
  - This setting is available when Bluetooth is enabled.
  - This setting is available when the paired device is providing a service.
  - Tap **On/Off** to turn the option on.

- **Search for other devices:** From Bluetooth settings, tap **Scan**.
  - This setting is available when Bluetooth is enabled.

- **Check files received using Bluetooth transfer:** From Bluetooth settings, tap **More > Received files**, and follow the prompts.

## Airplane Mode

When you enable Airplane mode, your tablet disconnects from all networks, meaning you cannot use make calls, send or receive messages, or access the Internet. It also turns off other connectivity features, such as Wi-Fi and Bluetooth.

While in airplane mode, you can use other features of your tablet, such as playing music, watching videos, or other applications.

To use Wi-Fi and Bluetooth after enabling Airplane mode, turn them on either in Settings or on the notification panel.

1. From home, tap **Apps** > **Settings**.
2. Tap **Airplane mode**.

3. Tap **On/Off** to enable Airplane mode.

   **Note:** You can also enable or disable Airplane Mode through the notification panel quick settings (drag down the status bar and tap **Airplane mode > Turn on**).

**Hotspot and Tethering Settings**

Use the Hotspot and tethering features to share your tablet's data connection with other devices using Wi-Fi.

**Hotspot Settings**

Use the settings menu to configure your Hotspot settings which allow you to share your tablet’s data service with multiple devices.

**Note:** Using the Hotspot feature consumes battery power and uses data services.

**Turn Hotspot On or Off**

To conserve battery life, turn Hotspot on when you need it and turn it off when you are finished. You can control Hotspot from Settings.

1. From home, tap **Apps > Settings**.
2. Tap **Hotspot and Tethering** > **Hotspot**.

⚠️ The Hotspot settings open.

3. Tap **On/Off** to turn Hotspot on or off.

**Note:** Turning on Hotspot will turn off Wi-Fi.

**Configure Hotspot**

Set up Hotspot to your preferences.

1. From home, tap **Apps** > **Settings**.
2. Tap **Hotspot and Tethering** > **Hotspot**.

3. Tap **More** to set these options:

   - **Configure Hotspot**:
     - **Network name**: View and change the name of your mobile hotspot.
     - **Hide my device**: When enabled, your mobile hotspot is not visible to other Wi-Fi devices during a scan. Other devices can still connect to your mobile hotspot, but will have to set up the connection manually with your Network SSID and Password.
     - **Security**: Choose the security level for your Mobile Hotspot.
     - **Password**: If you choose a security level that uses a password, set a password.
     - **Show password**: When enabled, the contents of the Password field are visible.
- **Show advanced options:** When enabled, you can access advanced options, including Broadcast channel, to specify the channel your device uses for Hotspot, and you can set the maximum number of connections to your Hotspot.

- **Timeout settings:** Choose a time period, after which Hotspot will automatically turn off if there is no activity.

**Allowed Devices**

Control whether devices can connect to your Mobile Hotspot with the Allowed devices list. After you add devices to the list, they can scan for your tablet and connect using your tablet’s Hotspot name and password.

**Note:** Using the Hotspot feature consumes battery power and uses data services.

1. From home, tap **Apps > Settings**.

![Settings](image)
2. Tap **Hotspot and Tethering** > Hotspot.

3. Tap **More** > **Allowed devices**.

4. Tap **Add**, and then enter the other device’s **Device name** and **MAC address**. Consult the other device’s settings to find these details.

5. Tap **Add** to add the device to the Allowed devices list.

**Tethering Settings**

Use Tethering to share your device’s Internet connection with a computer that connects to your device using a USB cable or by Bluetooth.

**Note:** Using the tethering feature consumes battery power and uses data services.

1. From home, tap **Apps** > **Settings**.
2. Tap **Hotspot and Tethering**.

The Hotspot settings open.

3. Choose an option:

   - **Bluetooth tethering**: Pair your device with the computer using Bluetooth. Consult the computer’s documentation for more information about configuring your computer to pair using Bluetooth. Tap **Bluetooth tethering** to turn tethering on.

   - **USB tethering**: Connect the computer to your tablet using a USB cable, and then tap **USB tethering** to turn tethering on.
Data Usage Settings

The Data usage menu lets you view your tablet’s mobile and Wi-Fi data usage, set data limits, restrict background data usage, and more.

1. From home, tap Apps > Settings.

2. Tap Data usage.

❖ The data usage window opens.
Data Usage Settings Operations

- Enable Mobile data: Tap On/Off next to Mobile data.
- Limit mobile data usage: Tap On/Off next to Limit mobile data usage, and then drag the horizontal limit slider up or down to set the data usage limit.
  - This setting is available when Mobile data is enabled.
- Alert me about data usage: Tap On/Off next to Alert me about data usage, and then drag the horizontal warning slider up and down to set an amount.
  - Data usage amounts are approximate. Actual amounts may differ.
  - This setting is available when Mobile data is enabled.
- Set dates for data usage tracking: Tap the date range to set the data usage measuring cycle.
  - This setting is available when Mobile data is enabled.
- Application data usage: Tap an app name to see its usage for the period.
- More: Tap More and select additional options:
  - Restrict background data: Prevent apps and services from using mobile data services unless connected to a Wi-Fi network.
  - Show Wi-Fi usage: Display a Wi-Fi tab at the top of the Data usage window. Tap the tab to view your tablet's Wi-Fi data usage.
  - Restrict networks. Set apps to warn you before using these networks for large downloads.
  - Help: View help topics on data usage.

Mobile Networks Settings

The Mobile networks settings menu allows you to configure your mobile network connections.

Set options for network selection and data service.

1. From home, tap Apps > Settings.
2. Tap **Mobile networks**.

3. Configure options:

   - **Data roaming**: When you are outside your home network area, your tablet can still connect to other networks that your provider supports using roaming. There may be additional costs for accessing networks while roaming, so you may want to control your tablet’s roaming behavior with Roaming settings.
     
     - **Roaming network**: Select a roaming default. Choose **Home only**, to only connect to the Sprint network, or **Automatic** to allow connections to Sprint’s partner networks, when available.
     
     - **Roaming guard**: Choose options for displaying an onscreen roaming notice for certain functions. Enable or disable roaming notices for domestic CDMA and international CDMA networks (if supported by your tablet).
Roaming settings: Enable data for domestic and international networks (if supported by your tablet).

Network mode: Choose a preferred network mode. Available options depend on your tablet’s features.

More Connection Settings

The More connection settings menu provides access to additional network options, such as default messaging app, VPN, mobile networks, and printers (if available).

More Connection Settings Options

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nearby device scanning</td>
<td>Scan for and connect to nearby devices.</td>
</tr>
<tr>
<td>Printing</td>
<td>Set up printers to print from your tablet.</td>
</tr>
<tr>
<td>VPN</td>
<td>Add a Virtual Private Network (VPN).</td>
</tr>
<tr>
<td>Ethernet</td>
<td>Manage your Ethernet connections.</td>
</tr>
</tbody>
</table>

Access More Connection Options

1. From home, tap Apps > Settings.

![Settings menu screenshot]
2. Tap **More connection settings**.

3. Set items.
   - Your settings are saved and implemented.

**Nearby Device Scanning**

Scan for and connect to nearby devices. You will receive notifications when there are available divides to connect to.

1. From home, tap **Apps** > **Settings** > **More connection settings**.
2. Tap **Nearby device scanning**.

![Nearby device scanning screen](image)

The Nearby device scanning screen displays.

3. Tap **On/Off** to enable the feature.

**Printing**

You can print from your tablet, using Wi-Fi, to an optional compatible printer (not included). Your tablet and the optional printer must be connected to the same Wi-Fi network.

**Add a Printer**

Before you can print to a printer, you must add and set it up on your tablet. You will need to know the IP address of the printer; consult the printer’s documentation for this information.

1. From home, tap **Apps > Settings > More connection settings**.
2. Tap **Printing**.

3. From the Printing settings screen, tap **Download plug-in**.

4. Follow the prompts to download and install a print driver from the Google Play store.

5. Choose a print service from the list, and then tap **On/Off** to turn the service on or off. The service must be on to add a printer.

6. Tap **More > Add printer > Add printer** (or **Add printer**), enter a name and the IP address of the printer, and then tap **OK**.

**Set Up a Printer**

Add a printer to a print service and configure settings.
Note: Below settings are examples only. Available settings will differ depending on the type of print service and printer you are using.

1. From the Printing settings screen, select a print service from the list
2. Tap **On/Off** to turn the service on. The service must be on to add a printer.
3. Tap **More > Add printer** and follow the prompts to add a printer.
4. Tap **More > Printing settings** to configure printer options. Available options may vary depending on the type of printer, and not all printers support all options.

**Virtual Private Networks (VPN)**

From your tablet, you can add, set up, and manage virtual private networks (VPNs) that allow you to connect and access resources inside a secured local network, such as your corporate network.

**Prepare Your Tablet for VPN Connection**

Depending on the type of VPN you are using at work, you may be required to enter your login credentials or install security certificates before you can connect to your company’s local network. You can get this information from your network administrator.

Before you can initiate a VPN connection, your tablet must first establish a Wi-Fi or data connection. For information about setting up and using these connections on your tablet, see Browser and Turn Wi-Fi On and Connect to a Wireless Network.

**Set Up Secure Credential Storage**

If your network administrator instructs you to download and install security certificates, you must first set up the tablet’s secure credential storage.

1. From home, tap **Apps > Settings > Lock screen and security**.
2. Tap **Screen lock type > Password**.

![Screen lock type settings](image)

**Note:** For credential storage, you can also use Pattern, PIN, or Fingersprints screen lock types. See **Screen Lock**.

3. Enter a new password (at least four characters long, including at least one letter) for the credential storage, tap **Continue**, confirm the password, and then tap **OK**.

![Set password](image)

4. Select your display option for notifications on the lock screen, and then tap **Done**.

- The password is set, allowing secure credential storage.

5. On the Lock screen and security window, tap **Other security settings**.
6. Tap **Trust agents**, and then tap your preferred system and user credentials.

![Settings](image)

- Your secure credentials storage is set.

You can then download and install the certificates needed to access your local network. Your network administrator can tell you how to do this.

**Add a VPN Connection**

Use the More connection settings menu to add a VPN connection to your tablet.

1. From home, tap Apps > Settings > More connection settings.
2. Tap **VPN**.

The VPN settings window appears.

3. Tap **Add VPN**, and then enter the information for the VPN you want to add.
Information may include Name, Type, Server address, PPP encryption (MPPE), and advanced options.

Set up all options according to the security details you have obtained from your network administrator.

4. Tap **Save**.

- Your VPN is added to the VPNs section of the VPN settings window.

**Access the VPN Settings Window**

1. From home, tap **Apps > Settings**.

2. Tap **More connection settings** > **VPN**.

The VPN settings window appears.

**Connect to a VPN**

1. From the VPNs section of the VPN setting window, tap the VPN that you want to connect to.
2. When prompted, enter your login credentials, and then tap **Connect**.

![VPN connection screen](image)

- You will connect to the selected VPN.
  - When you are connected, a VPN connected icon appears in the notification area.

3. Open the Web browser to access resources such as intranet sites on your corporate network.

**Disconnect from a VPN**

1. Drag the status bar down to open the notification panel.

![Notification panel](image)
2. Tap the VPN connection to display the VPN connection window.

![VPN connection window]

3. Tap **Disconnect** to disconnect from the VPN.

![Connected to VPN]

- Your tablet disconnects from the VPN.
  - When your tablet has disconnected from the VPN, you will see a VPN disconnected icon in the notification area of the status bar.

**Smart Manager**

Smart manager provides an overview of the status of your tablet's battery, storage, and RAM. You can also automatically optimize your tablet's system resources.

To access Smart Manager:
Quick Optimization

The quick optimization feature improves device performance through the following actions:

- Identifying apps that use excessive battery power and clearing unneeded items from memory.
- Deleting unnecessary files and closing apps running in the background.
- Scanning for malware.

To use the quick optimization feature:
1. From home, tap **Apps** > **Settings**.

![Settings](image)

2. Tap **Smart Manager**.

![Smart Manager](image)

3. Tap **Clean all**.

**Using Smart Manager**

1. From home, tap **Apps** > **Settings**.
2. Tap **Smart Manager**.

3. Tap each of the following for options:

   - **Battery**: Check the battery power and time remaining to use the tablet. For tablets with low battery levels, conserve battery power by activating power saving features and closing apps that are consuming an excessive amount of battery power.
     - The usage time remaining shows the time remaining before the battery power runs out. Usage time remaining may vary depending on your tablet settings and operating conditions.
   - **Storage**: Check the status of used and available memory capacity. You can delete unused or unneeded files, and uninstall apps that you no longer use.
• **RAM**: Check the amount of available RAM. You can close background apps and reduce the amount of RAM you are using to speed up your device.

**Applications Settings**

View information and configure settings for all apps on your tablet. The Application manager and Default applications menus are located here.

**Access Applications Settings**

1. From home, tap **Apps > Settings**.

2. Tap **Applications**.
3. Scroll down to **Application settings** to see settings for certain pre-loaded apps. Tap on an app to view and configure its settings.

**Application Manager**

Check installed applications and running applications. Items that can be checked in the Application manager are as follows.

<table>
<thead>
<tr>
<th>Apps Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>All apps</td>
<td>Check all apps.</td>
</tr>
<tr>
<td>Turned on</td>
<td>Check enabled apps.</td>
</tr>
<tr>
<td>Disabled</td>
<td>Check disabled apps. This option only appears if apps have been disabled.</td>
</tr>
</tbody>
</table>

**Access the Application Manager**

1. From home, tap **Apps > Settings > Applications**.
2. Tap Application manager.

3. Tap items to view details.

   - Check your application settings condition and access additional options.

   **Note:** Depending on the app and its location, you may be able to force the app closed, uninstall or disable the app, clear cache and data, and more.

**Default Applications**

Set or clear default applications for certain built-in features of the tablet.

1. From home, tap Apps > Settings > Applications.
2. Tap **Default applications**.

3. Tap each default setting to see what services or applications are available to set as the default.
   - **Browser app**: Choose a default browser app.
   - **Set as default**: Choose default apps for other functions.
   - **Home screen**: Choose a Home screen type.
   - **Device assistance app**: Choose an app that provides assistance for using your device.

### Calendar Settings
Configure settings for your tablet's Calendar app.

1. From home, tap **Apps > Settings > Applications**.
2. Tap Calendar to configure these options:

- **First day of week**: Choose a day to start each calendar week.
- **Show week numbers**: Enable or disable display of week numbers on the calendar.
- **Hide declined events**: When enabled, events for which you declined the invitation are not shown on the calendar.
- **7-day weather forecast**: When enabled, weather information from AccuWeather.com displays on the calendar.
- **Notifications**:
  - **Notification sound**: Choose a sound for calendar event notifications.
  - **Vibration**: Enable or disable vibration, to play for calendar event notifications.
- **Set default reminders**: Set default reminders for Events and All-day events.
- **Lock time zone**: When enabled, event times will be locked to the time zone you select. Times and dates will not change, even if you travel to another time zone.

**Camera Settings**
Configure settings for your tablet’s Camera app.

1. From home, tap **Apps > Settings > Applications**.
2. Tap **Camera** to configure these options:

- **Video stabilization**: Activate anti-shake. Anti-shake helps to keep the focus steady when the camera is moving (rear camera only).

- **Grid lines**: Display viewfinder grid lines to help composition when selecting subjects.

- **Location tags**: Attach a GPS location tag to the photo.

- **Volume keys function**: Use the Volume key to take pictures, record video, or as a zoom key.

- **Review pictures**: Show photos immediately after taking them.

- **Help**: View help topics for using the Camera.
Note: Additional Camera settings options are available within the Camera app. See Camera Options and Settings.

Contacts Settings

Configure options for contacts stored on your tablet.

Tip: You can also access Contacts Settings from the Contacts app. From home, tap Apps > Contacts > More (left) > Settings.

1. From home, tap Apps > Settings > Applications.

2. Tap Contacts to configure options:

- Import/Export contacts: Import contacts from your tablet’s internal memory and export contacts to your tablet’s internal memory.
- **Merge duplicate contacts**: Merge duplicate contact entries into one.

- **Contacts to display**: Choose contacts to display in Contacts. You can choose only contacts from your tablet’s memory, or from an account, or choose other sources. You can also create a customized list of contacts to display.

- **Sort by**: Choose how contacts are sorted, by first or last name.

- **Name format**: Choose how contacts are displayed, by first or last name.

- **Share multiple contacts**: You can choose how to transfer contacts, when sharing them with other devices, such as using Bluetooth.
  - **As one file**: Multiple contacts are sent together. This method can be faster, but depends on whether the target device can accept multiple name cards. If not, only one contact will be sent.
  - **Individually**: Name cards are sent individually. This method may take longer, because the other device must accept each name card individually, but it helps ensure that no name cards are missed.

**Email Settings**

Configure options for email accounts you set up on your tablet.

**Tip**: You can also access Email settings from the Email app. From home, tap Apps > Email > More > Settings.

**General Email Preferences**

1. From home, tap Apps > Settings > Applications.
2. Tap Email to configure options. General email settings, which affect all email accounts, include:

- **Manage accounts**: Configure options for specific accounts. Available settings depend on the type of account.
- **Add account**: Add additional email accounts.
- **Auto fit content**: Shrink email content to fit the screen. Content can still be viewed in detail by zooming in.
- **Notifications**: Notifications for new emails display in the status bar. When disabled, you can control notifications for each of your email accounts individually in the account’s settings.
- **Spam addresses**: Create and maintain a list of email addresses and domains to automatically block emails from those senders.
- **Confirm deletions**: Ask for confirmation before deleting email.

**Manage Email Account Settings**

You can edit settings for your individual email accounts, such as email address and password, name display and signature, frequency of retrieval, and more.

**Note**: Available settings depend on the type of email account.

1. From home, tap Apps > Settings > Applications.
2. Tap **Email**, and then tap an account to set its options. Individual email account settings may vary; see your service provider for details. Common settings include:

- **Sync account**: Configure options for synchronizing your tablet with your account.
- **Account name**: Enter a name to identify this email account.
- **Your name**: Your name as displayed in your email address.
- **Always Cc/Bcc myself**: Choose options for sending a copy of emails you send to yourself, as a copy (Cc) or blind copy (Bcc).
- **Signature**: A text signature is automatically added to emails you send.
- **Show images**: Choose whether to automatically display embedded images in the body of an email.
- **Auto download attachments**: Choose whether the tablet automatically downloads email attachments when you are connected to Wi-Fi. You might use this option to control how and whether you use your plan’s data services to download attachments.
- **Sync schedule**: Choose folders to synchronize between your tablet and account.
- **Period to sync Email**: Choose the period for synchronizing email between your tablet and account.
- **Limit retrieval size**: Choose the number of emails to retrieve at one time.
- **Limit retrieval size while roaming**: Choose the number of emails to retrieve at one time while roaming.
- **Out of office settings**: Configure options for automatically sending replies when you are out of the office.
- **Folder sync settings**: Choose which folders to sync.
- **Period to sync Calendar**: Choose the period for synchronizing calendar events between your tablet and account.
- **Empty server trash**: Delete the contents of the trash folder on the account server.
- **In case of sync conflict**: Choose whether information from the server or tablet has priority when there is a conflict.
- **Sync Contacts**: Choose whether contacts are synchronized between your tablet and the account.
- **Sync Calendar**: Choose whether calendar events are synchronized between your tablet and the account.
- **Sync Task**: Choose whether emails are synchronized between your tablet and the account.
- **Security options**: Manage encryption and signature options for outgoing mail.
- **Server settings**: Configure your email server settings.
- **Exchange server settings**: Configure the Domain\user name, Password, and other Exchange server settings.

**Internet Settings**

Configure Internet settings, to customize the browser to your preferences.

**Tip**: You can also access Internet settings from the Internet app. From home, tap **Internet > More > Settings**.

1. From home, tap **Apps > Settings > Applications**.
2. Tap **Internet** to configure options:

![Internet settings](image)

- **Homepage**: Choose a homepage to display when you launch Internet.
- **Default search engine**: Choose a default search engine.
- **Auto fill profile**: Manage your Auto fill profile.
- **Manual zoom**: Override website requests to control zoom level.
- **Privacy**: Choose options related to privacy.
- **Advanced**: Choose settings to control how the browser treats content.
- **About internet**: View the software version of the Internet app.

**Music Settings**

Set options for the Music application.

**Tip**: You can also access Music settings from the Music app. From home, tap **Apps > Music > More > Settings**.

1. From home, tap **Apps > Settings > Applications**.
2. Tap **Music** to configure settings:

- **Tabs**: Choose which tabs to display.
- **Play speed**: Touch and drag the slider to set the default speed for music playback.
- **Music auto off**: Choose a time period for music to play, after which Music will close.
- **Smart volume**: Automatically adjust the volume of all songs to an equal level.
- **About Music**: View the software version of the Music app.

**Weather Settings**

Configure weather settings for use with the Lock screen and the Calendar app.

1. From home, tap **Apps** > **Settings** > **Applications**.
2. Tap **Weather** to configure options:

- **Unit**: Select **Celsius** or **Fahrenheit**.
- **Auto refresh**: Choose how often weather information is updated.
- **Use current location**: Use your tablet's current location to get local weather information.
- **Weather notifications**: Receive notifications when there is a chance of rain, snow, or hail.
- **Calendar**: Show weather information in the Calendar app.

**Google Settings**
Configure Google services.

1. From home, tap **Apps > Settings > Applications**.
2. Tap **Google** to configure options:

- **Sign-in & security**: Configure how you sign in to your Google Account, device access and notifications, and connected apps and sites.

- **Personal info & privacy**: Manage your personal information, activity controls, ads settings, account overview, and control your content.

- **Account preferences**: Configure your Google account language, Google Drive storage, accounts and services.

- **Nearby**: Use your device’s sensors to connect with nearby devices.

- **Nearby discoveries**: Use Bluetooth and Location services to scan for links from things nearby.

- **Location**: Configure your Google location settings.
- **Ads**: Configure your Google advertising profile.
- **Connected apps**: Configure apps which use your Google account.
- **Data management**: Configure your Google Drive app.
- **Google Fit**: Configure Google Fit apps and devices (not included).
- **Search & Now**: Configure your Google search settings and Google Now settings.
- **Security**: Configure the Android Device Manager and apps security settings.
- **Set up nearby device**: Set up another device using Wi-Fi and Bluetooth.
- **Smart Lock for Passwords**: Configure your saved Google passwords and auto sign-in settings.

**Note**: These options may change if you are signed in to your Google Account.

### Sounds and Vibrations Settings

The Sounds and vibrations settings menu lets you control your tablet’s audio, from alerts to tap tones and notifications.

#### Sounds and Vibrations Settings Overview

The sounds and vibrations settings menu allows you to configure the following options:

<table>
<thead>
<tr>
<th>Sound Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Sound mode</strong></td>
<td>Set the sound mode for the tablet.</td>
</tr>
<tr>
<td></td>
<td>- <strong>Sound</strong>: Your tablet uses the sounds, vibrations, and volume levels you have chosen in Sound settings for notifications and alerts.</td>
</tr>
<tr>
<td></td>
<td>- <strong>Vibrate</strong>: Your tablet vibrates for notifications and alerts. This uses the Vibration intensity you choose in Sound settings.</td>
</tr>
<tr>
<td></td>
<td>- <strong>Mute</strong>: Your tablet plays no sounds or vibrations. Onscreen reminders will still occur.</td>
</tr>
<tr>
<td><strong>Volume</strong></td>
<td>Set volume for media, system features, and so on.</td>
</tr>
<tr>
<td><strong>Vibration intensity</strong></td>
<td>Set the amount of vibration for notifications and haptic feedback.</td>
</tr>
<tr>
<td><strong>Notification sounds</strong></td>
<td>Choose a sound for notifications, such as for new messages and event reminders.</td>
</tr>
<tr>
<td><strong>Do not disturb</strong></td>
<td>Configure the Do not disturb feature to mute alerts at will or on a schedule, as well as set exceptions.</td>
</tr>
<tr>
<td><strong>Touch sounds</strong></td>
<td>Play tones when you touch or tap the screen to make selections.</td>
</tr>
<tr>
<td><strong>Screen lock sounds</strong></td>
<td>Play sounds when locking or unlocking the screen.</td>
</tr>
</tbody>
</table>
### Sound Setting

<table>
<thead>
<tr>
<th>Sound Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Charging sound</td>
<td>Play a sound when a charger is connected.</td>
</tr>
<tr>
<td>Vibration feedback</td>
<td>Set the tablet to vibrate when the Back key or Recent apps key are tapped, and for other actions.</td>
</tr>
<tr>
<td>Keyboard sound</td>
<td>Play a sound when the Samsung keyboard is tapped.</td>
</tr>
<tr>
<td>Keyboard vibration</td>
<td>Set the tablet to vibrate when the Samsung keyboard is tapped.</td>
</tr>
<tr>
<td>Sound quality and effects</td>
<td>Set sound quality and sound effects for your tablet.</td>
</tr>
</tbody>
</table>

### Sound Mode

You can switch between sound modes, while preserving the individual sound settings you have made.

1. From home, tap **Apps > Settings > Sounds and vibrations**.

2. Tap **Sound mode**, and then choose a mode:

   - **Sound**: Your tablet uses the sounds, vibrations, and volume levels you have chosen in Sound settings for notifications and alerts.
   - **Vibrate**: Your tablet vibrates for notifications and alerts. This uses the Vibration intensity you choose in Sound settings.
   - **Mute**: Your tablet plays no sounds or vibrations. Onscreen reminders will still occur.

### Volume

Set the system volume level, and set default volume for notifications and other media.

*Note: You can also set System volume from the home screen by pressing the **Volume** key.*
1. From home, tap **Apps** > **Settings** > **Sounds and vibrations**.

2. Tap **Volume**, and then drag the sliders to set the default volume for:
   - Notifications
   - Media
   - System

**Notification Sounds**
Set the default notification sound and notification sounds for apps such as Calendar and Email.

1. From home, tap **Apps** > **Settings** > **Sounds and vibrations**.
2. Tap **Notification sounds** for options:

<table>
<thead>
<tr>
<th>Settings</th>
<th>SEARCH</th>
<th>Sounds and vibrations</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Applications</strong></td>
<td></td>
<td>Sound mode Sound</td>
</tr>
<tr>
<td><strong>Sounds and vibra...</strong></td>
<td></td>
<td>Volume</td>
</tr>
<tr>
<td><strong>Notifications</strong></td>
<td></td>
<td>Vibration intensity</td>
</tr>
<tr>
<td><strong>Display</strong></td>
<td></td>
<td>Notification sounds Set the default notification sound and notification sounds for apps such as Facebook, Calendar and Email</td>
</tr>
<tr>
<td><strong>Advanced features</strong></td>
<td></td>
<td>Do not disturb Off</td>
</tr>
<tr>
<td><strong>Users</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Wallpaper</strong></td>

<td></td>
<td></td>
</tr>
<tr>
<td><strong>Backup and reset</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Language and inp...</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- **Default notification sound**: Choose a default sound for notifications.
- **Calendar notifications**: Tones play and/or the tablet vibrates to remind you of events.
- **Email notifications**: Tones play and/or the tablet vibrates when new emails arrive.

**Do Not Disturb**

This setting allows you to block all notifications and alerts. The options below determine what notifications can make sounds, and during what time periods you want to enter this mode.

1. From home, tap **Apps** > **Settings** > **Sounds and vibrations**.
2. Tap **Do not disturb** > **Turn on now** to enable the feature.

**Scheduling**

This option allows you to turn Do not disturb mode on or off automatically at scheduled times.

**Note:** Scheduling is not available if Do not disturb mode has been turned on manually.

1. From home, tap **Apps** > **Settings** > **Sounds and vibrations**.

2. Tap **Do not disturb**.

3. Tap **Turn on as scheduled**, and set the **Days**, **Start time**, and **End time**.
Allow Exceptions

This option lets you customize which notifications are allowed while your device is in Do not disturb mode.

1. From home, tap Apps > Settings > Sounds and vibrations.

2. Tap Do not disturb.

3. Tap Allow exceptions, and then tap one of the following options:
   - No exceptions: Allow no exceptions.
   - Alarms only: Allow exceptions for alarms.
   - Custom: Set your own exceptions.

System Sounds

Set various other system sound options.

1. From home, tap Apps > Settings > Sounds and vibrations.
2. Tap **On/Off** to enable each option:

- **Touch sounds**: Play tones when you touch or tap the screen to make selections.
- **Screen lock sounds**: Play a sound when you unlock the screen.
- **Charging sound**: Play a sound when a charger is connected.
- **Vibration feedback**: Vibrate when the Back key or Recent apps key are tapped, and for other actions

**Key-tap Feedback**

Play tones when the keyboard is tapped.

1. From home, tap **Apps > Settings > Sounds and vibrations**.

2. To **On/Off** to enable each option:
- **Keyboard sound**: Play a sound when the Samsung keyboard is tapped.
- **Keyboard vibration**: Vibrate when the Samsung keyboard is tapped.

**Sound Quality and Effects**
Select options for sound quality while headphones or compatible Bluetooth headsets or speakers are connected.

1. From home, tap **Apps > Settings > Sounds and vibrations**.

2. Tap **Sound quality and effects**.
3. Tap **Adapt sound** and follow the prompts to customize your sound settings.
   - **SoundAlive+**: Recreate the effect of rich surround sound.
   - **Tube Amp**: Simulate the soft timbre of a tube amplifier.

**Note**: Sound effects are only available while headphones or a compatible Bluetooth headset is connected.

**Notifications Settings**
Select which apps you want to receive notifications from.

**Access Notifications Settings**
1. From home, tap **Apps > Settings > Notifications**.
2. Tap **On/Off** to enable or disable notifications from each app.

⚠️ Your notifications settings are saved and applied.

### Display Settings

Adjusting your tablet’s display and wallpaper settings not only helps you see what you want, it can also help increase battery life.

#### Display Settings Overview

The display settings menu allows you to configure the following options:

<table>
<thead>
<tr>
<th>Display Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Brightness</td>
<td>Set the display brightness.</td>
</tr>
<tr>
<td>Font</td>
<td>Set a default font and font size.</td>
</tr>
<tr>
<td>Icon backgrounds</td>
<td>Display icons with a shaded background to make them stand out on the Home screen and Apps screen.</td>
</tr>
<tr>
<td>Screen timeout</td>
<td>Set a screen timeout duration.</td>
</tr>
<tr>
<td></td>
<td><strong>Note:</strong> Longer durations discharge the battery more quickly</td>
</tr>
<tr>
<td>Smart stay</td>
<td>Set the tablet display to stay on for as long as you are looking at it.</td>
</tr>
<tr>
<td>Screen mode</td>
<td>Select a screen display mode to optimize it for the content being displayed.</td>
</tr>
<tr>
<td>Screen saver</td>
<td>Select a screen saver to be displayed when the device is charging.</td>
</tr>
</tbody>
</table>

#### Access Display Settings

1. From home, tap **Apps** > **Settings** > **Display**.

Settings
2. Set your display options:

- **Brightness**: Set the screen brightness, or set the brightness level to Auto.
- **Font**: Choose the default font.
- **Icon backgrounds**: Display icons with a shaded background to make them stand out on the Home screen and Apps screen.
- **Screen timeout**: Turn the screen off after a set amount of time.
- **Smart stay**: Keep the screen on while you are looking at it.
- **Screen mode**: Adjust the screen display according to what is being displayed.
- **Screen saver**: Choose options for when the tablet is docked and/or sleeping.

## Advanced Features

Enable or disable motions and gestures, which provide tablet controls by moving the tablet or by gesturing.

### Access Advanced Features Settings

1. From home, tap **Apps** > **Settings** > **Advanced features**.
2. Tap a feature to turn it on:
   - **Pop-up view gesture**: View an app in pop-up view by swiping downwards diagonally from either corner at the top of the screen while the app is open and shown on the screen.
   - **Smart capture**: Show additional options after capturing a screenshot.
   - **Palm swipe to capture**: Capture an image of the screen by swiping the edge of your hand across it, from side to side, keeping in contact with the screen.
   - **Easy mute**: Mute sounds and video by covering the screen with your hand.

### Users

You can share this tablet with multiple people by creating user accounts. Users have their own space, which they can customize with their own apps, wallpaper, and so on. Users can also adjust tablet settings such as Wi-Fi that affect everyone.

- To use the device with a user profile, select a profile at the top of the locked screen.

There are two types of user accounts:

- **User**: Allow the user to access their own apps and content.
- **User (restricted profile)**: Allow the user limited access to apps and content.

### Add a New User

1. From home, tap Apps > Settings > Users.
2. Tap **Add user or profile** , and then choose User or User (restricted profile).
   - If the new user is able to set up their space now, tap Set up now. (Tapping Not now will create an empty user account that can be modified later.)
Follow the prompts to set up the tablet with the new user’s preferences.

- The photo and name each user uses in their personal Contact entry (listed under My profile at the top of their Contacts list) is used as their User ID and name.
- To change their ID photo and name, each user must edit their personal Contact entry. For more information, see Edit a Contact.

**Delete a User**

Only the device owner can delete other user accounts.

1. From home, tap Apps > Settings > Users.
2. Tap Delete next to the user account to delete.
3. Tap Delete.

**Wallpaper**

You can change the wallpaper for the Home and Lock screens.

**Change the Wallpaper**

1. From home, tap Apps > Settings > Wallpaper.
2. Tap the screens for which you want to change the wallpaper.
3. Tap a wallpaper to preview it.
4. Tap Set as wallpaper to set the selected wallpaper for the screen or screens. If you have selected an image from Gallery, tap Done to apply it as wallpaper.

- Your wallpaper is changed.
Home Screen Settings

Customize your Home screen by adding application shortcuts, widgets, folders, and using wallpapers.

To customize Home screen:

- From home, tap Apps > Settings > Home screen.

– or –

From home, either touch and hold an empty space on the screen or pinch the screen.

For more information, see Customize the Home Screen.

Lock Screen and Security Settings

The Lock screen settings let you set your method for unlocking your tablet, customize Lock screen options, determine whether to show tips for unlocking the tablet, and enter your owner information to be displayed on the Lock screen.

The Security settings let you set encryption options, password visibility, administrator settings, and credential storage options.

Lock Screen and Security Overview

The following options are available in the Lock screen and security menu (options vary depending on the screen lock selected):

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Screen lock type</td>
<td>Set your screen lock.</td>
</tr>
</tbody>
</table>
## Access Lock Screen and Security Options

- From home, tap **Apps > Settings > Lock screen and security**.

![Lock screen and security settings window](image)

- The Lock screen and security settings window displays.

## Screen Lock

You can increase the security of your tablet by creating a screen lock. When enabled, you have to draw the correct unlock pattern on the screen, enter the correct PIN, enter the correct password, or scan your fingerprint to unlock the tablet’s control keys, buttons, and touchscreen.

In order from least secure to most secure, the available screen lock options are:
- None
- Swipe
- Pattern
- PIN
- Password
- Fingerprints

**Important:** To protect your tablet and data from unauthorized access, it is recommended that you use the highest security level available (Password protection). It is also recommended you frequently change your password to ensure the safety of your tablet and personal data.

**Access Screen Lock Settings**

1. From home, tap Apps > Settings > Lock screen and security.

   ![Settings Menu]

   - The Lock screen and security settings window displays.

2. Tap **Screen lock type**.
The Screen lock type settings window displays.

**Use Swipe to Unlock the Screen**
- From the Screen lock type menu, tap **Swipe** to save the setting.

The screen lock is set.

**Use a Screen Unlock Pattern**
1. From the Screen lock type menu, tap **Pattern**.
2. Draw the screen unlock pattern by connecting at least four dots in a vertical, horizontal, or diagonal direction. Lift your finger from the screen when finished.

- The tablet records the pattern.

3. Tap **Continue**.
4. When prompted, draw the screen unlock pattern again, and then tap Confirm.

The screen unlock pattern is saved.

5. Enter a backup PIN, tap Continue, re-enter the PIN, and tap OK to save your screen unlock pattern.

The screen lock is set.

- If you fail to draw the correct unlock pattern on the screen after five attempts, you will be prompted to wait for 30 seconds before you can try again.

Note: Tap Secure lock settings > Make pattern visible and tap the On/Off slider to Off if you do not want the unlock pattern to display on the screen when you unlock it.
**Note:** To change your unlock screen pattern, from home, tap **Apps > Settings > Lock Screen and Security > Screen lock type.**

**Use a Screen Unlock PIN**

1. From the Screen lock type menu, tap **PIN.**

2. Enter a PIN, tap **Continue,** re-enter your PIN, and tap **OK** to save the setting.

   - The screen lock is set
     - If you fail to enter the correct PIN after five attempts, you will be prompted to wait for 30 seconds before you can try again.

**Use a Screen Unlock Password**

1. From the Screen lock type menu, tap **Password.**
2. Enter a password, tap **Continue**, enter your password again to confirm it, and then tap **OK**.

- The screen lock is set.
  - If you fail to enter the correct password after five attempts, you will be prompted to wait for 30 seconds before you can try again.

**Important:** To protect your tablet and data from unauthorized access, it is recommended that you use the screen unlock password (highest security). It is also recommended that you frequently change your password to ensure the safety of your tablet and personal data.

**Use a Fingerprint Screen Lock**

With a Fingerprint screen lock, swipe your finger over the Home key.

**Note:** Before using the Fingerprint screen lock option, you will need to register your fingerprint on your tablet.

1. From the Screen lock type menu, tap **Fingerprints**.
2. Follow the prompts to set up your fingerprints.

**Note:** Fingerprint recognition uses the unique characteristics of each fingerprint to enhance the security of your device. The likelihood of the fingerprint sensor confusing even small areas of two different fingerprints is very low. But in rare cases, the sensor may recognize a fingerprint that is similar to a registered fingerprint.

**Disable the Screen Lock**

Follow the instructions below to turn off your current screen lock.

1. From home, tap Apps > Settings > Lock screen and security.

![Lock screen and security settings](image)

- The Lock screen and security settings window displays.

2. Tap Screen lock type.
The Screen lock settings menu opens.

3. Draw your unlock screen pattern, enter your PIN or password, or scan your fingerprint.

4. Tap **None**.

The screen lock is disabled.

**Note:** If you have registered Fingerprints and choose to remove lock screen security, you will be prompted either to remove registered fingerprints or create a backup password before lock screen security will be removed.

**Device Security**

Configure security for your tablet.

1. From home, tap **Apps > Settings > Lock screen and security**
The Lock screen and security settings window displays.

2. Tap **On/Off** next to Unknown sources to enable installation of non-Google Play applications.

**Warning:** Enabling installation of third-party applications can cause your device and personal data to be more vulnerable to attacks by unknown sources.

3. Tap **Encrypt device** and follow the prompts to encrypt all data on your device.

4. Tap **Encrypt external SD card** and follow the prompts to encrypt data on an optional SD card (not included).

5. Tap **Other security settings** to configure the following options:
   - **Make passwords visible**: Display password characters briefly as you type them.
   - **Security policy updates**: Automatically or manually check for security policy updates.
   - **Send security reports**: Send security reports to Samsung using Wi-Fi for threat analysis.
   - **Device administrators**: Manage your device administrators and application installation privileges.
   - **Storage type**: Select a storage location for credential contents.
   - **View security certificates**: Display certificates in your device’s ROM and other certificates you have installed.
   - **User certificates**: View user certificates.
   - **Install from device storage**: Install a new certificate from storage.
   - **Clear credentials**: Erase the credential contents from the device and reset the password.
   - **Trust agents**: Perform selected actions when trusted devices are connected. Available only with Pattern, PIN, Password, and Fingerprint locks.
- **Pin windows**: Pin an app on your device screen, preventing access to other features of your tablet.

- **Usage data access**: View the applications that can access your device’s usage history.

- **Notification access**: View the applications that can access notifications you receive on your tablet.

- **Do not disturb permission**: View which apps have permission to change the Do not disturb settings.

**Privacy**

The following privacy settings are available.

<table>
<thead>
<tr>
<th>Privacy and Safety Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Location</td>
<td>Select the method used to estimate your location. You can also view the apps that have requested your location and review their history logs.</td>
</tr>
<tr>
<td>App permissions</td>
<td>Control which apps have permission to access and modify information on your device.</td>
</tr>
<tr>
<td>Private mode</td>
<td>Private mode allows you to hide and protect content you want to keep private. You must configure a security lock to use Private mode.</td>
</tr>
<tr>
<td>Report diagnostic info</td>
<td>You can choose to enable reporting of diagnostic info when your tablet experiences technical problems.</td>
</tr>
</tbody>
</table>

**Access Privacy Settings**

- From home, tap Apps > Settings > Privacy.
The Privacy settings window displays.

**Location Settings**

Your Location services settings menu lets you select how your tablet determines its location (using the wireless networks, GPS satellites, both, or neither).

**Enable Location Services**

Before using any features that require location assistance, you must enable your tablet's location services.

1. From home, tap Apps 📱 > Settings 🏷> Privacy 🛡️.

2. Tap Location.

3. Tap On/Off to enable Location services.
Your tablet’s location services are enabled.

- If you see a confirmation, follow the prompts to connect.

**Changing Location Method**

You can change the methods used for determining your location.

**Note:** Location must be turned on to change locating method.

1. From home, tap **Apps > Settings > Privacy**.

2. Tap **Location**.

3. Tap **On/Off** to enable Location services.

4. Tap **Locating method** to select how your location is determined:
   - **GPS, Wi-Fi, and mobile networks**: Use GPS, Wi-Fi, and mobile networks.
   - **Wi-Fi and mobile networks**: Use Wi-Fi and mobile networks (no GPS).
   - **GPS only**: Use GPS only.

5. Tap **Improve accuracy** to use other connections for determining your location:
   - **Wi-Fi scanning**: Allow apps and services to scan for Wi-Fi networks automatically, even when Wi-Fi is turned off.
   - **Bluetooth scanning**: Allow apps to scan for and connect to nearby devices automatically through Bluetooth, even when Bluetooth is turned off.

**Recent Location Requests**

Apps that have requested your location are listed under Recent location requests.
1. From home, tap Apps > Settings > Privacy.

2. Tap Location.

3. Tap On/Off to turn on Location services.

4. Tap an entry under Recent location requests to view the app’s settings.

**Location Services**

Google uses Location Reporting to store and use your device’s most recent location data. Google apps, such as Google Maps, can use this data to improve your search results based on places that you have visited.

1. From home, tap Apps > Settings > Privacy.

2. Tap Location.
3. Tap **On/Off** to turn on Location services.

4. Tap **Google Location History** and sign in to your Google Account for more options.

**Private Mode**

Private mode allows you to hide and protect content you want to keep private using supported apps. You must configure a security lock to use Private mode.

**Activate Private Mode**

1. From home, tap **Apps > Settings > Privacy**.

2. Tap **Private mode**.

3. Tap **On/Off** to turn on Private mode.

4. Follow the prompts to set security for Private mode.

**Report Diagnostic Info**

You can choose to enable reporting of diagnostic info when your tablet experiences technical problems.

**Enable Report Diagnostic Info**

1. From home, tap **Apps > Settings > Privacy**.
2. Tap Report diagnostic info.

3. Read the consent information and tap Yes to enable.

**Accessibility Settings**

The Accessibility menu lets you enable and manage accessibility-related applications.

**Accessibility Settings Overview**

The following Accessibility options may be configured:

<table>
<thead>
<tr>
<th>Accessibility Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vision</td>
<td>Configure accessibility features for vision.</td>
</tr>
<tr>
<td>Hearing</td>
<td>Configure accessibility features for hearing and sounds.</td>
</tr>
<tr>
<td>Dexterity and interaction</td>
<td>Configure accessibility features for handling and interactions with the tablet.</td>
</tr>
<tr>
<td>Direction lock</td>
<td>Unlock the screen by swiping in a series of directions.</td>
</tr>
<tr>
<td>Direct access</td>
<td>Open your accessibility settings by pressing the Home Key three times in quick succession.</td>
</tr>
<tr>
<td>Notification reminder</td>
<td>Set the tablet to beep or vibrate at set intervals to remind you of any unread notifications from selected applications.</td>
</tr>
<tr>
<td>Single tap mode</td>
<td>Dismiss or snooze alarms, calendar events, and timer alerts, and answer or reject incoming calls with a single tap.</td>
</tr>
<tr>
<td>Manage accessibility</td>
<td>Import and export your accessibility settings, or share them with other devices.</td>
</tr>
<tr>
<td>Services</td>
<td>Configure other accessibility services, if installed.</td>
</tr>
</tbody>
</table>
Access Accessibility Options

1. From home, tap Apps > Settings > Accessibility.

2. Set available accessibility options.
   - Your accessibility settings are applied and saved.

Vision Accessibility Settings

Your tablet offers many features to assist users who are blind or low-vision.

1. From home, tap Apps > Settings > Accessibility.

2. Tap Vision to configure options:
- **Voice Assistant**: Enable the Voice Assistant feature and configure options. When Voice Assistant is on, your tablet speaks descriptions of items you tap or activate on your tablet, to help blind and low-vision users. When Voice Assistant is turned on, you may need to use a double-tap to select items, because a single tap is used to trigger Voice Assistant.

- **Voice Assistant help**: View tutorials on using Voice Assistant.

- **Dark screen**: Keeps your tablet’s screen turned off at all times. When Dark screen is enabled, double-press the **Power/Lock** key to turn it on or off while using your tablet.

- **Rapid key input**: Release your finger to enter a selection, instead of double-tapping it. By default, when you have Voice Assistant turned on, you must double-tap items on the screen to select them. If you turn on Rapid key input, you can tap and release your finger to select an item instead of double-tapping.

- **Speak passwords**: The tablet reads out characters entered in password fields. Use caution with this feature, because others near you will be able to hear your passwords.

- **Text-to-speech**: Configure options for converting text to speech.

- **Accessibility shortcut**: Quickly turns on accessibility features by pressing and holding the **Power/Lock** key until you hear a sound or feel a vibration, and then pressing and holding with two fingers until you hear an audio confirmation.

- **Font size**: Choose the size of text for your tablet’s screens.

- **High contrast fonts**: Adjust the color and outline of fonts to increase the contrast with the background.

- **High contrast keyboard**: Adjust the size of the Samsung keyboard and change its colors to increase the contrast between the keys and the background.

- **Show button shapes**: Show buttons with shaded backgrounds to make them stand out.

- **Magnifier window**: Magnify content shown on the screen.

- **Magnification gestures**: Control zoom and pan options with specific gestures such as triple-tapping, double pinching, and dragging two fingers across the screen.

- **Grayscale**: Display screens in grayscale instead of color.

- **Negative colors**: Screen colors are reversed.

- **Color adjustment**: Adjusts the color of the screen if you have difficulty reading the screen because of the color. Follow the prompts to fine-tune screen colors.

**Hearing Accessibility Settings**

Your tablet offers many features to assist users who are deaf or hearing-impaired.

1. From home, tap **Apps** > **Settings** > **Accessibility**.
2. Tap **Hearing** to configure options:

- **Turn off all sounds**: Sounds made by the tablet during taps, selections, notifications, and so on are muted.

- **Samsung subtitles (CC)**: Displays Samsung subtitles where available. Tap **On/Off** to turn the option on or off, and then tap **Samsung subtitles** to configure options.

- **Google subtitles (CC)**: Displays Google subtitles where available. Tap **On/Off** to turn the option on or off, and then tap **Google subtitles** to configure options like Language, Text size, and Caption style.

- **Left/right sound balance**: Adjust the sound sent to the left and right when using earphones.

- **Mono audio**: Enable or disable the compression of stereo audio into a single mono audio stream for use with a single earphone.

**Dexterity and Interaction Settings**

Your tablet offers many features to improve accessibility related to the way you interact with touch and movement.

1. From home, tap **Apps > Settings > Accessibility**.
2. Tap **Dexterity and interaction** to configure options:

- **Universal switch**: Use customizable switches to interact with your tablet and to select items on the screen. Set your personal interaction method by connecting external accessories, tapping the screen, or using the front camera to detect the rotation of your head, the opening of your mouth, and the blinking of your eyes.

- **Assistant menu**: Assistant menu can improve tablet accessibility by providing quick access to important functions. A shortcut appears on all screens to give you access to the Assistant menu. Tap **Assistant menu** to configure options:
  - Tap **On/Off** to turn the feature on or off. When you turn on Assistant menu, Single tap mode is also enabled.
  - **Dominant hand**: Choose whether the Assistant menu displays on the left or right side of the screen.
  - **Edit**: Re-order or remove items from the Assistant menu.
  - **Assistant plus**: When turned on, Assistant plus displays contextual menu options for some apps in Assistant menu. Not all apps support this option. Tap **Assistant plus**, and then tap **On/Off** to turn the option on or off. After you turn on Assistant plus, enable or disable apps to use with Assistant plus.
  - **Touchpad size**: Choose a size for touchpads for use in your tablet’s screens.
  - **Cursor size**: Choose the size of cursors, to display on the screen.
  - **Cursor speed**: Choose a speed for cursor blinks.
  - **Zoom percentage**: Set the percentage of zooming in when using Assistant menu.
  - **Magnifier size**: Set the size of magnification when using Assistant Menu.
- **Press and hold delay**: Choose how long your tablet waits during a tap and hold gesture on the screen, before continuing with the tap and hold action.

- **Interaction control**: Control how your tablet interprets motions and screen touches. To turn Interaction control on or off at any time, press and hold the **Home** key and the **Volume Down** key at the same time. When Interaction control is on, you can use motions to control your tablet, and screen timeout is turned on. You can also block areas of the screen from touch interaction. Automatic screen rotation and hard-key functions (Power/Lock key, Volume key, and so on) will be turned off, and app notifications will only be shown in the notification panel and status bar.

## Configure Other Accessibility Settings

Your tablet offers many features to improve tablet accessibility.

1. From home, tap **Apps** > **Settings** > **Accessibility**.

2. Configure additional accessibility options:
   - **Direction lock**: Unlock the screen by swiping in a series of directions.
   - **Direct access**: Access common accessibility settings from any screen by pressing the Home Key rapidly 3 times in a row.
   - **Notification reminder**: Tablet beeps at set intervals to remind you of unread notifications.
   - **Single tap mode**: When enabled, you can use a single tap to dismiss or snooze alarms, notifications and alerts, and answer or reject calls.
   - **Manage accessibility**: Choose settings for exporting, updating, and sharing the accessibility settings as a file.

**Note**: Additional accessibility services you have installed are displayed under the **Services** heading.
Account Settings

The Accounts settings menu lets you add and manage all your email, social networking, and picture and video sharing accounts.

Set Up a New Account

1. From home, tap Apps > Settings > Accounts.

2. Tap Add account.

An Add account window appears.

3. Tap an account type and then follow the prompts to add the required account information.

❖ The account is added to the accounts list.
Manage Existing Accounts

1. From home, tap Apps > Settings > Accounts.

2. Tap the account type to see the existing accounts.

- The account settings menu appears.

3. View and configure your account settings as desired.

- The account options are updated.

Google

Configure settings for Google features on your tablet.
1. From home, tap **Apps > Settings > Google**.

2. Select an option to customize:

   - **Sign-in & security**: Configure how you sign in to your Google Account, device access and notifications, and connected apps and sites.
   - **Personal info & privacy**: Manage your personal information, activity controls, ads settings, account overview, and control your content.
   - **Account preferences**: Configure your Google account language, Google Drive storage, accounts and services.
   - **Nearby**: Use your device’s sensors to connect with nearby devices.
   - **Nearby discoveries**: Use Bluetooth and Location services to scan for links from things nearby.
   - **Location**: Configure your Google location settings.
   - **Ads**: Configure your Google advertising profile.
   - **Connected apps**: Configure apps which use your Google account.
   - **Data management**: Configure your Google Drive app.
   - **Google Fit**: Configure Google Fit apps and devices (not included).
   - **Search & Now**: Configure your Google search settings and Google Now settings.
   - **Security**: Configure the Android Device Manager and apps security settings.
   - **Set up nearby device**: Set up another device using Wi-Fi and Bluetooth.
   - **Smart Lock for Passwords**: Configure your saved Google passwords and auto sign-in settings.
Note: These options may change if you are signed in to your Google Account.

Backup and Reset

Your tablet’s Backup and reset menu lets you back up your tablet’s data and settings to Google servers before resetting your tablet to the original factory settings. The Factory data reset erases all data from the tablet’s application storage, including:

- Your Samsung account
- Your Google account
- All other email and social networking accounts
- System and application data and settings
- Downloaded applications

Backup and Reset Overview

The following options are available in the Back up and reset menu:

<table>
<thead>
<tr>
<th>Backup and Reset Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Back up my data</td>
<td>Enable backup for application data, Wi-Fi passwords, and other settings to your Samsung account.</td>
</tr>
<tr>
<td>Restore</td>
<td>When reinstalling an application, backed up settings and data will be restored from your Samsung account.</td>
</tr>
<tr>
<td>Back up my data</td>
<td>Enable backup for application data, Wi-Fi passwords, and other settings to your Google account.</td>
</tr>
<tr>
<td>Backup account</td>
<td>Select the Google account used to back up data.</td>
</tr>
<tr>
<td>Automatic restore</td>
<td>When reinstalling an application, backed up settings and data will be restored from your Google Account.</td>
</tr>
<tr>
<td>Auto restart</td>
<td>Optimize your device by restarting it automatically at set times. The device only restarts if it is not in use and battery power is more than 30%.</td>
</tr>
<tr>
<td>Reset settings</td>
<td>Reset your device to its factory default settings, resetting everything except the security, language, and account settings. Personal data is not affected.</td>
</tr>
<tr>
<td>Reset network settings</td>
<td>Reset Wi-Fi, Mobile data, and Bluetooth settings with Reset network settings.</td>
</tr>
<tr>
<td>Factory data reset</td>
<td>Reset all settings and delete all data on the tablet.</td>
</tr>
</tbody>
</table>

- Performing a factory data reset erases all data on the tablet. It is recommended that you back up important data before performing a factory data reset.
- Erased information cannot be restored. Only erase data after you are sure you have saved everything you need.

**Access Backup and Reset Options**

1. From home, tap **Apps** > **Settings**

![Menu settings]

2. Tap **Backup and reset**.

![Backup and reset settings]

- The Backup and reset settings window displays.

3. Set options.
The backup and reset settings are applied and saved.

- If you are performing a Factory data reset, follow the prompts to confirm the data removal. The tablet will erase all data and reboot.

**Factory Data Reset**

You can reset your device to factory defaults, erasing all data from your device.

This action permanently erases ALL data from the device, including Google or other account settings, system and application data and settings, downloaded applications, as well as your music, photos, videos, and other files. Any data stored on an external SD card is not affected.

**Note:** When you sign in to a Google Account on your device, Factory Reset Protection is activated. This protects your device in the event it is lost or stolen. For more information, see Factory Reset Protection.

If you reset your device to factory default settings with the Factory Reset Protection (FRP) feature turned on, you must enter the user name and password for a registered Google Account to regain access to the device. You will not be able to access the device without the correct credentials.

**Warning:** If you reset your Google Account password, you must wait 72 hours after changing your password to perform a factory data reset on your device.

Before resetting your device:

1. Verify that the information you want to keep has transferred to your storage area.
2. Log in to your Google Account and confirm your user name and password.

Reset the device:

1. From home, tap Apps > Settings > Backup and reset.
2. Tap **Factory data reset**.

3. Read the factory data reset information page, and then tap **Reset device**.
4. Tap Delete all.

- Your tablet will power down and reset itself, which may take up to 10 minutes.

**Language and Input Settings**

Your tablet’s language and input settings let you select a language for the tablet’s menus and keyboards, select and configure keyboard settings, configure speech input settings, and set your tablet’s mouse/trackpad options.

**Language and Input Settings Overview**

You can set the following options in the Language and input settings menu:

<table>
<thead>
<tr>
<th>Language and Input Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Language</td>
<td>Set the language for your display and menus.</td>
</tr>
<tr>
<td>Default keyboard</td>
<td>Set the default method for entering text.</td>
</tr>
<tr>
<td>Samsung keyboard</td>
<td>Set Samsung keyboard options.</td>
</tr>
<tr>
<td>Google voice typing</td>
<td>Set options for Google voice text entry.</td>
</tr>
<tr>
<td>Text-to-speech options</td>
<td>Set Text-to-speech options.</td>
</tr>
<tr>
<td>Pointer speed</td>
<td>Set the speed of the pointer for a mouse/trackpad.</td>
</tr>
</tbody>
</table>

**Access Language and Input Setting Options**

1. From home, tap **Apps > Settings**.
2. Tap **Language and input**.

![Language and input settings window]

- The Language and input settings window displays.

3. Set options.

- The language and input settings are applied and saved.

**Select the Default Language for Your Tablet**

1. From home, tap **Apps** > **Settings** > **Language and input** > **Language**.
2. Tap an available language.

**Language and Input Options**

Some of the language and input options are detailed below.
1. From home, tap Apps > Settings > Language and input.

2. Set options:
   - **Language**: Set the display language. Tap a language to assign it.
   - **Default keyboard**: Set the keyboard to use for input.
   - **Samsung keyboard**: Tap to configure options for the Samsung keyboard.
   - **Google voice typing**: Tap to configure options for Google voice typing, including language detection.
   - **Text-to-speech**: Tap a settings option and follow the prompts to configure Text-to-speech options.
   - **Pointer speed**: Tap to configure the mouse/trackpad pointer speed. Drag the bar to adjust the speed.

**Battery Settings**

Monitor your tablet’s battery usage through this settings menu. View which functions are consuming your battery’s charge and at what percentage. You can also display the battery charge remaining as a percentage on the status bar.

1. From home, tap Apps > Settings.
2. Tap Battery.

3. Tap Percentage on status bar to show the percentage of battery charge remaining on the status bar.

4. Tap an app or service to view battery usage.
   - Check your battery condition and access additional options.

**Power Saving Mode**

Save battery power by activating Power saving mode, which reduces or turns off certain features to decrease battery consumption.

**Turn On Power Saving Mode**

1. From home, tap Apps > Settings > Battery.
2. Tap **Power saving mode**.

3. Tap **On/Off** to enable Power saving mode.
   - Power saving mode is activated.

4. Tap **Start power saving** to enable Power saving mode immediately, or at a selected percentage of battery power.

**Ultra Power Saving Mode**

Conserve power and extend your tablet’s battery life by using a minimal home screen layout, limiting the number of usable apps, turning off mobile data when the screen is off, and turning off connectivity features such as Wi-Fi and Bluetooth.
Turn On Ultra Power Saving Mode

1. From home, tap Apps > Settings > Battery.

![Battery Settings](image)

2. Tap Ultra power saving mode.

![Ultra Power Saving Mode](image)

3. Tap On/Off to enable Ultra power saving mode.

- Ultra power saving mode is activated.

Turn Off Ultra Power Saving Mode

- From home, tap More > Turn off Ultra power saving mode.

- The tablet returns to normal power mode.
Storage Settings

The Storage settings menu lets you manage internal storage on your tablet.

Storage Settings Overview

The storage settings menu allows you to configure the following options:

<table>
<thead>
<tr>
<th>Storage Device</th>
<th>Description</th>
</tr>
</thead>
</table>
| Internal storage | - **Total space**: View the total space/free space in your tablet’s memory.  
|                  | - **Available space**: The amount of storage space currently available.  
|                  | - **System memory**: The minimum amount of storage space required to run the system.  
|                  | - **Used space**: The amount of storage space currently being used.  
|                  | - **Other**: The space used by app data, downloaded files, and Android system files.  
|                  | - **Cached data**: The amount of data currently cached.  
|                  | - **Explore**: Launch My Files to view content stored on your device.  

SD card

**Note**: This category is available only if an optional SD card is installed.

- **Unmount**: Unmount the SD card to safely remove it.
- **Format**: Delete all data on the SD card.

Access Storage Settings

1. From home, tap Apps > Settings > Storage.
2. View memory usage for the different types of information stored in your tablet’s memory. Tap an item for more information.

**SD Card Settings**

An SD memory card is an optional accessory (not included) that allows you to store images, videos, music, documents, and other data on your tablet.

For information about inserting or removing optional SD cards, see SD Card.

**Important:** You can damage a microSD™ card by improper installation. Please be careful when inserting, removing, or handling it.

**Note:** To improve performance and reliability with High-definition video recording and playback, it is recommended you use a memory card (SD card) that is both rated as at least a Class 10 and provides a high read speed.

**View SD Card Memory**

Use the following procedure to view memory usage information for an optional installed SD card (not included).

- From home, tap Apps > Settings > Storage.

  ![Internal storage settings](image)

  The total and available memory space will be displayed.

**Format an SD Card**

Formatting an SD card permanently removes all files stored on the card.

1. From home, tap Apps > Settings > Storage.
2. Tap SD card > Format > Format.

**Note:** Formatting erases all the data on an installed SD card, after which the files CANNOT be retrieved. To prevent the loss of important data, please check the contents before you format the card.

**Accessories**

Configure your tablet’s behavior when it is connected to optional accessories (not included).

- From home, tap Apps > Settings > Accessories for this option:
  - **Automatic unlock:** Flip the book cover (not included) open to unlock the screen when secured lock is turned off.

**Date and Time Settings**

Use the Date and Time settings menu either to automatically use the network-provided date and time or manually set these values, as well as select time and date format options.

**Date and Time Overview**

The following Date and time options may be configured:

<table>
<thead>
<tr>
<th>Date and Time Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Automatic date and time</td>
<td>Set the date and time automatically using the connected wireless network.</td>
</tr>
<tr>
<td>Set date</td>
<td>Set the date manually (only available when Automatic date and time option is disabled).</td>
</tr>
<tr>
<td>Date and Time Option</td>
<td>Description</td>
</tr>
<tr>
<td>----------------------------</td>
<td>--------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Set time</td>
<td>Set the time manually (only available when Automatic date and time option is disabled).</td>
</tr>
<tr>
<td>Select time zone</td>
<td>Set the time zone manually (only when Automatic time zone is disabled).</td>
</tr>
<tr>
<td>Use 24-hour format</td>
<td>Enable or disable 24-hour format.</td>
</tr>
</tbody>
</table>

**Access Date and Time Options**

1. From home, tap **Apps > Settings**.

2. Tap **Date and time**.

3. Set available date and time options.
Your date and time settings are applied and saved.

Help

The Help menu provides tips and guidelines to help you use your tablet.

Access Help

1. From home, tap Apps > Settings > Help .

   The Help menu and topics appear.

2. Tap on a topic to view its contents.

3. Tap Search to search for a topic.

Activate This Device

The Activate this device menu lets you activate a new tablet or use additional self-service options such as checking the status of an in-service tablet.

1. From home, tap Apps > Settings .
2. Tap **Activate this device**.

3. Follow the prompts to activate your tablet or review your summary.

   - Your tablet activates. If already activated on an account, you will see a usage and plan summary.

**System Update**

The System Update menu provides settings for keeping your tablet up-to-date with the latest software.

**Access System Update**

- From home, tap **Apps** > **Settings** > **System Update**.
The System Update menu appears.

For details about updating your tablet, see Update Your Tablet.

**About Device**

The About device menu lets you access important tablet information, search for and apply updates, and view legal and safety information.

**About Device Overview**

The following About device items may be reviewed or set:

<table>
<thead>
<tr>
<th>About Device Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Software version</td>
<td>Check your current software version.</td>
</tr>
<tr>

**Access About Device Options**

1. From home, tap **Apps > Settings**.

2. Tap **About device**.

3. Select or view available options.
   - Your tablet information is displayed.
For Assistance

The following topics address areas of support for your tablet, including troubleshooting, specifications, account information, warranty information, and customer service contact information.

Sprint Account Information and Help

Find out about account passwords and information about managing your account and finding help.

Sprint Account Passwords

You will need to create passwords to protect access to your personal account information, your voicemail account, and your data services account. As a Sprint customer, you enjoy unlimited access to all your information.

Account User Name and Password

If you are the account owner, you will create an account user name and password when you sign on to sprint.com/mysprint. (Click Register and follow the prompts to get started.) If you are not the account owner (if someone else receives the bill for your Sprint service), you can get a sub-account password at sprint.com/mysprint.

Data Services Password

With your Sprint tablet, you may elect to set up an optional data services password to control access and authorize purchases.

For more information, or to change your passwords, sign on to sprint.com/mysprint.

Manage Your Account

Manage your Sprint account from your computer, your Sprint tablet, or any other tablet.

Online: sprint.com/mysprint

- Access your account information.
- Check your data used (depending on your Sprint service plan).
- View and pay your bill.
- Enroll in Sprint online billing and automatic payment.
- Purchase accessories.
- Shop for the latest Sprint devices.
- View available Sprint service plans and options.
- Learn more about data services and other products like games, screen savers, and more.
Copyright Information

WARNING! This product contains chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, please call 1-800-SAMSUNG (726-7864).

Intellectual Property

All Intellectual Property, as defined below, owned by or which is otherwise the property of Samsung or its respective suppliers relating to the SAMSUNG mobile device, including but not limited to, accessories, parts, or software relating thereto (the “mobile device”), is proprietory to Samsung and protected under federal laws, state laws, and international treaty provisions. Intellectual Property includes, but is not limited to, inventions (patentable or unpatentable), patents, trade secrets, copyrights, software, computer programs, and related documentation and other works of authorship. You may not infringe or otherwise violate the rights secured by the Intellectual Property. Moreover, you agree that you will not (and will not attempt to) modify, prepare derivative works of, reverse engineer, decompile, disassemble, or otherwise attempt to create source code from the software. No title to or ownership in the Intellectual Property is transferred to you. All applicable rights of the Intellectual Property shall remain with SAMSUNG and its suppliers.

Open Source Software

Some software components of this product incorporate source code covered under GNU General Public License (GPL), GNU Lesser General Public License (LGPL), OpenSSL License, BSD License and other open source licenses. To obtain the source code covered under the open source licenses, please visit: opensource.samsung.com

Disclaimer of Warranties; Exclusion of Liability

EXCEPT AS SET FORTH IN THE EXPRESS WARRANTY CONTAINED ON THE WARRANTY PAGE ENCLOSED WITH THE PRODUCT, THE PURCHASER TAKES THE PRODUCT “AS IS”, AND SAMSUNG MAKES NO EXPRESS OR IMPLIED WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT, INCLUDING BUT NOT LIMITED TO THE MERCHANTABILITY OF THE PRODUCT OR ITS FITNESS FOR ANY PARTICULAR PURPOSE OR USE; THE DESIGN, CONDITION OR QUALITY OF THE PRODUCT; THE PERFORMANCE OF THE PRODUCT; THE WORKMANSHIP OF THE PRODUCT OR THE COMPONENTS CONTAINED THEREIN; OR COMPLIANCE OF THE PRODUCT WITH THE REQUIREMENTS OF ANY LAW, RULE, SPECIFICATION OR CONTRACT PERTAINING THERETO. NOTHING CONTAINED IN THE INSTRUCTION MANUAL SHALL BE CONSTRUED TO CREATE AN EXPRESS OR IMPLIED WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT. IN ADDITION, SAMSUNG SHALL NOT BE LIABLE FOR ANY DAMAGES OF ANY KIND RESULTING FROM THE PURCHASE OR USE OF THE PRODUCT OR ARISING FROM THE BREACH OF THE EXPRESS WARRANTY, INCLUDING INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, OR LOSS OF ANTICIPATED PROFITS OR BENEFITS.
Modification of Software

SAMSUNG IS NOT LIABLE FOR PERFORMANCE ISSUES OR INCOMPATIBILITIES CAUSED BY YOUR EDITING OF REGISTRY SETTINGS, OR YOUR MODIFICATION OF OPERATING SYSTEM SOFTWARE.

USING CUSTOM OPERATING SYSTEM SOFTWARE MAY CAUSE YOUR DEVICE AND APPLICATIONS TO WORK IMPROPERLY. YOUR CARRIER MAY NOT PERMIT USERS TO DOWNLOAD CERTAIN SOFTWARE, SUCH AS CUSTOM OS.

Samsung Knox

Samsung Knox is Samsung’s security platform and is a mark for a Samsung device tested for security with enterprise use in mind. Additional licensing fee may be required. For more information about Knox, please refer to: samsung.com/us/knox [090116]
